

Teachers: Share Your Passion!

Are you ready to share your passion for STEM education at the Federal level? Bring your passion and advocacy skills to Washington, DC as an Albert Einstein Distinguished Educator Fellow.

This prestigious fellowship program brings outstanding K-12 science, technology, engineering and math (STEM) educators to Washington, DC for a school year to share their practical insights and real-world perspectives into the sponsoring agencies' offices or on Capitol Hill. As an Einstein Fellow, you will receive a **monthly stipend**, a **moving allowance** and a **travel budget**.

You are an *excellent candidate* for an Einstein Fellowship if you...

- Thrive on personal and professional challenges.
- Would relish the opportunity to network with creative, passionate, intelligent colleagues.
- Recognize the importance of experienced educators sharing their knowledge in the national education arena.
- Possess the desire and the confidence to work on educational programs and/or issues at a national level.
- Interested in learning about the role of federal agencies in education, and influence program and policy decisions affecting students and teachers.

The program is administered by the U.S. Department of Energy and managed by the Triangle Coalition for Science and Technology Education. Visit <http://www.trianglecoalition.org/ein.htm> to learn more about the program. You will find additional information and a link to the online application using the navigation menu above Dr. Einstein's picture.

Access the application by clicking on the word "apply" in the box on the left side of the page once you link to the Department of Energy's page. Create an ID and password to begin and you are on your way!

If you have any questions about the program once you review the web information, contact Kathryn Culbertson, Program Manager, at culbertsonk@triangle-coalition.org or by phone at 703-516-5963.
