**EYES ONLY**

**MEMORANDUM FOR: H. R. HALDEMAN**

**FROM: DWIGHT L. CHAPIN**

**SUBJECT: General Haig**

**For your information, in talking with Haig today he expressed deep concern over the course which the President's international economic effort is taking. He feels that some major blunders are being made which may have a devastating effect on our whole foreign policy effort.**

**Much of the blame on this he lays at Secretary Connally's doorstep. According to Al, Henry looks at the situation the same way he does.**

**Haig goes as far as to say that if the President continues his present course, then Haig will have to resign in a couple of weeks.**

**Naturally, I doubt that Haig will resign and that things are as black as he indicates but I thought that you should be aware of his feelings.**
