Traumatic Stress Response

It is Air Force policy to provide TSR services to enhance resilience to potentially traumatic events. TSR services will be made available in response to all air or ground mishaps that involve loss of life or major injury. TSR services may also be provided in response to other events at the request of the unit commander. At any time following a traumatic event service members may receive up to four sessions in the Mental health Clinic that are not documented and carry no diagnosis. Contact the Mental Health Clinic with any questions regarding TSR services.
