

CECW-ED

Manual
No. 1110-2-3001

30 April 1995

**Engineering and Design
PLANNING AND DESIGN OF HYDROELECTRIC
POWER PLANT STRUCTURES**

Table of Contents

Subject	Paragraph	Page	Subject	Paragraph	Page
Chapter 1			Interior Details 3-4 3-6		
Introduction			Schedule of Finishes 3-5 3-6		
Purpose and Scope	1-1	1-1	Painting	3-6	3-6
Applicability	1-2	1-1	Design Memorandum	3-7	3-7
References	1-2	1-1	Drawings	3-8	3-7
Codes	1-4	1-1	Chapter 4		
Criteria	1-5	1-1	Structural Requirements		
Hydroelectric Design Center	1-6	1-1	Design Stresses	4-1	4-1
Chapter 2			Design Loads	4-2	4-1
General Requirements			Stability Analysis	4-3	4-3
Location of Powerhouse	2-1	2-1	Subgrade Conditions and		
Location of Switchyard	2-2	2-1	Treatments	4-4	4-5
Highway and Railroad Access	2-3	2-1	Foundation Drainage and		
Other Site Features	2-4	2-1	Grouting	4-5	4-5
Types of Powerhouse			Substructure Functions and		
Structures	2-5	2-1	Components	4-6	4-5
Selection of Type of			Joints	4-7	4-6
Powerhouse	2-6	2-2	Waterstops	4-8	4-8
General Arrangement of			Draft Tubes	4-9	4-8
Powerhouse	2-7	2-2	Spiral Cases	4-10	4-8
Location of Main			Generator Pedestals	4-11	4-10
Transformers	2-8	2-3	Bulb Turbine Supports	4-12	4-10
Powerhouse and Switchyard			Types of Superstructures	4-13	4-10
Equipment	2-9	2-3	Superstructure-Indoor		
Powerhouse Auxiliary			Powerhouse	4-14	4-11
Equipment	2-10	2-4	Intakes	4-15	4-12
Chapter 3			Penstocks and Surge Tanks	4-16	4-14
Architectural Requirements			Switchyard Structures	4-17	4-16
Exterior Design	3-1	3-1	Reinforcing Steel	4-18	4-17
Exterior Details	3-2	3-1	Encasement of Structural		
Interior Design	3-3	3-2	Steel	4-19	4-17
			Retaining Walls	4-20	4-17

Subject	Paragraph	Page
Area Drainage	4-21	4-17
Chamfers, Grooves, and Rustications	4-22	4-17
Chapter 5		
Physical Security		
Protection Plan	5-1	5-1
Chapter 6		
Retrofitting Existing Projects		
General	6-1	6-1
Hydraulic Design		
Considerations	6-2	6-1
Geotechnical Considerations	6-3	6-2

Subject	Paragraph	Page
Tunnels in Rock Abutments	6-4	6-2
Cut and Cover Conduits	6-5	6-2
Free Standing Penstock Within Conduits	6-6	6-2

Appendices

Appendix A
