

## Sally Sullivan

### Executive Vice President

Sally Sullivan is an executive vice president of ManTech International Corporation. She leads ManTech's public affairs, communications and business development functions. ManTech is a leading provider of innovative technologies and solutions for mission-critical national security programs that provide support to approximately 60 federal agencies. ManTech's expertise includes command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR) lifecycle support; cyber security; global logistics support; intelligence/counter-intelligence support; information technology (IT) modernization and sustainment; systems engineering; test and evaluation; and healthcare IT.

A key member of ManTech's executive management team, Ms. Sullivan brings a 30-year record of success and leadership in serving all branches of the federal government to include the Department of Defense and Intelligence Community.

Previously she was vice president for Defense, Space and Secured Infrastructure at Bechtel National, Inc. Prior to that, Ms. Sullivan was sector vice president for business development at Northrop Grumman Mission Systems. She began her career at EDS, where she held a variety of management responsibilities including leading the team that developed and deployed some of the first-ever healthcare systems used in medical readiness, transport and logistics support of soldiers.

Ms. Sullivan's community involvement includes serving on the advisory board of CharityWorks, a high impact organization creating positive change in the community by uniting corporate leaders, donors and volunteers to help break the cycle of poverty, enhance local education programs and enable families to overcome critical health issues. Ms. Sullivan also serves as finance chair of the Father McKenna Center, a center devoted to serving the poor that is located only a few blocks from the nation's Capitol.
