

September 1, 2011 – Corrections to Software Instructions for Windows and SAS Version 4.3

The Agency for Healthcare Research and Quality (AHRQ) has posted correct instructions for the AHRQ Quality Indicators software for Windows and SAS Version 4.3 for the Inpatient Quality Indicators (IQI), Patient Safety Indicators (PSI) and Pediatric Quality Indicators (PDI) modules.

The correction relates to the installation of the Prediction Module used in the risk-adjustment of the provider level indicators and the directory placement of parameter files used by the Prediction Module.

The corrected SAS software instructions may be found here:

<http://qualityindicators.ahrq.gov/software/SAS.aspx>

The corrected Windows software instructions may be found here:

<http://qualityindicators.ahrq.gov/Software/WinQI.aspx>

For questions, please contact support@qualityindicators.ahrq.gov or leave a voicemail at (888) 512 – 6090.
