

Save the Date

Second Annual Canada-Ohio Aerospace Summit

When: February 25-26, 2013

Where: Ohio Aerospace Institute, 22800 Cedar Point Road, Cleveland, Ohio USA

This two-day bi-national aerospace and aviation conference will focus on identifying business and research opportunities, providing meaningful industry updates and providing unstructured networking, as well as scheduled business-to-business and researcher-to-researcher meetings.

To build on the successes we achieved last year at the first Canada-Ohio Aerospace Summit, we've structured a meeting we believe will accomplish three goals:

1. Identifying business and research opportunities on both sides of the border
2. Sharing updates, best practices and lessons learned from industry leaders
3. Providing more networking opportunities to establish lasting alliances

Our Theme:

The Summit this year will focus on key elements many industries find beneficial in generating a stronger presence and continuing growth (both industry and organization). We believe you'll find the Summit to be informative, innovative, and an opportunity to explore new ventures/directions for your organization.

Who should attend?

You should consider attending if you have business or research interests in:

The Greening of Aerospace and Aviation

- Sustainable Design and Manufacturing Technology
- Near-term materials challenges: Metals
- Near-term materials challenges: Composites

Getting Ready for Changes

- The state of NextGen

The Next Wave

- UAV Opportunities
- OEM Propulsion Technology Perspectives
- Bi-national Collaborations
- Research Opportunities
- Supply Chain Opportunities

Some of our confirmed speakers:

Ms. Suzanne Benoit, President & CEO, AeroMontreal

Dr. Michael Heil, President & CEO, Ohio Aerospace Institute

Mr. Donald Majcher, V.P. Technology & Innovation Partnerships, Ohio Aerospace Institute

Dr. Roy Norton, Consul General of Canada-Detroit

Many more speakers will be confirmed in the coming weeks.

Cost:

Register Early and Save!

Early Bird Conference Fee (prior to February 4th):

\$400

Full Conference Fee (February 4th and after):

\$500

We look forward to sharing more news in the coming weeks, as well as introducing a website strictly devoted to the Summit, speaker/sponsor/attendee contact information, and sharing best practices and learning gleaned from these
