Docket No. N2012-1

USPS Library Reference N2012-1/8

Hypothetical USPS Market Dominant Product Service Standards and Label Lists

<u>PREFACE</u>

This Category 2 library reference provides <u>hypothetical</u> Network Rationalization Service Standard and Label List files that would result <u>if</u> the Area Mail Processing (AMP) consolidation opportunities identified in USPS Library Reference N2012/6 were implemented.

The degree to which service standards will actually change depends upon (a) the outcome of the each of the AMP studies, (b) the amendments to 39 C.F.R. Part 121 that result from the market dominant product service standard rulemaking, and (c) any further modifications that result from consideration of the advisory opinion issued at the conclusion of this docket. Accordingly, the <u>potential</u> changes depicted in USPS Library Reference N2012-1/8 are <u>only illustrative</u>, and are provided solely for the purpose of indicating the nature and magnitude of the service standard changes that could potentially result from the network consolidation plan under review in this docket. The Library Reference should <u>not</u> be interpreted as reflecting that any service change decisions associated with the Request have been made or implemented.

This library reference has 13 files in its root folder:

> Origin Entry Service Standards.txt
>> This fixed width text file contains origin entry Service Standards for 850,950 3-digit to 3-digit ZIP Code pairs that result from Network Rationalization. The first row is a column header that identifies each field. The following fields are in the file:
>>> OZIP – origin 3-digit ZIP Code
>>> DZIP – destination 3-digit ZIP Code
>>> FCM – First-Class Mail Service Standard for OZIP-DZIP pair
>>> PER – Periodicals Service Standard for OZIP-DZIP pair
>>> PKG – Package Services Service Standard for OZIP-DZIP pair
>>> STD – Standard Mail Service Standard for OZIP-DZIP pair

> Destination Entry Service Standards.xls
>> This excel file contains destination entry Service Standards for 930 destination 3-digit ZIP Codes that result from Network Rationalization. The following fields are in the file:
>>> DZIP3 – destination 3-digit ZIP Code

DNDC/ASF PER – Destination National Distribution Center (NDC)/Auxiliary Service Center (ASF) entry Periodical Service Standard for DZIP

DADC PER – Destination Area Distribution Center (ADC) entry Periodical Service Standard for DZIP

DSCF PER – Destination Sectional Center Facility (SCF) entry Periodical Service Standard for DZIP

DDU PER – Destination Delivery Unit (DDU) entry Periodical Service Standard for DZIP

DNDC/ASF PKG – Destination National Distribution Center (NDC)/Auxiliary Service Center (ASF) entry Package Services Service Standard for DZIP

DSCF PKG – Destination Sectional Center Facility (SCF) entry Package Services Service Standard for DZIP

DDU PKG – Destination Delivery Unit (DDU) entry Package Services Service Standard for DZIP

DNDC/ASF STD – Destination National Distribution Center (NDC)/Auxiliary Service Center (ASF) entry Standard Mail Service Standard for DZIP

DSCF STD – Destination Sectional Center Facility (SCF) entry Standard Mail Service Standard for DZIP

DDU STD – Destination Delivery Unit (DDU) entry Standard Mail Service Standard for DZIP

First-Class and Periodicals Overnight Option.xls

This excel file contains Overnight Service Standards for First-Class Mail and Periodicals, where achievable, that result from Network Rationalization. The following fields are in the file:

DZIP3 – destination 3-digit ZIP Code

FCM Entered at facility prior to 08:00 CET for Intra-SCF Presort Mail Volume – First-Class Mail Service Standard for Intra-SCF Presort Mail Volume entered before 08:00.

FCM Entered at facility prior to 12:00 CET for containerized 5D or Scheme Intra-SCF Presort Mail Volume – First-Class Mail Service Standard for containerized 5D or Scheme Intra-SCF Presort Mail Volume enter before 12:00.

PER Entered at facility prior to 08:00 a.m. CET for Intra-SCF Presort Mail Volume entered at a FSS site requiring a bundle sort.   Entered at facility prior to 11:00 a.m. CET for Intra-SCF Presort Mail Volume entered at a FSS site not requiring a bundle sort. Entered at facility prior to 11:00 a.m. CET for Intra-SCF Presort Mail Volume at a non-FSS site requiring a bundle sort.   Entered at facility prior to 2:00 p.m. CET for

Intra-SCF Presort Mail Volume at a non-FSS site not requiring a bundle sort

AADC LLIST.xls

This excel file contains Automated Area Distribution Center (AADC) Label List. The following fields are in the file:

DZIP – destination 3-digit ZIP Code

AADC_LABEL – Label to be applied to the applicable AADC service area mail that contains the DZIP.

ADC LLIST.xls

This excel file contains Area Distribution Center (ADC) Label List. The following fields are in the file:

DZIP – destination 3-digit ZIP Code

ADC_LABEL – Label to be applied to the applicable ADC service area mail that contains the DZIP.

ASF LLIST.xls

This excel file contains Auxiliary Service Facility (ASF) Label List. The following fields are in the file:

DZIP – destination 3-digit ZIP Code

ASF_LABEL – Label to be applied to the applicable ASF service area mail that contains the DZIP.

NDC LLIST.xls

This excel file contains National Distribution Center (NDC) Label List. The following fields are in the file:

DZIP – destination 3-digit ZIP Code

NDC_LABEL – Label to be applied to the applicable NDC service area mail that contains the DZIP.

L009 PER LLIST.xls

This excel file contains L009 Label List for Periodicals. The following fields are in the file:

OZIP – destination 3-digit ZIP Code

L009_LABEL – Label to be applied to the applicable L009 service area mail that contains the OZIP.

L009 STD LLIST.xls

This excel file contains L009 Label List for Standard Mail. The following fields are in the file:

OZIP – destination 3-digit ZIP Code

L009_LABEL – Label to be applied to the applicable L009 service area mail that contains the OZIP.

L201 FCM.xls

This excel file contains L201 Label List for First-Class Mail. The following fields are in the file:

OZIP – destination 3-digit ZIP Code

L201_LABEL – Label to be applied to the applicable L201 service area mail that contains the OZIP.

L201 PER.xls

This excel file contains L201 Label List for Periodicals. The following fields are in the file:

OZIP – destination 3-digit ZIP Code

L201_LABEL – Label to be applied to the applicable L201 service area mail that contains the OZIP.

SCF FCM.xls

This excel file contains Sectional Center Facility (SCF) Label List for First-Class Mail. The following fields are in the file:

DZIP – destination 3-digit ZIP Code

SCF_LABEL – Label to be applied to the applicable SCF service area mail that contains the DZIP.

SCF PER.xls

This excel file contains Sectional Center Facility (SCF) Label List for Periodicals. The following fields are in the file:

DZIP – destination 3-digit ZIP Code

SCF_LABEL – Label to be applied to the applicable SCF service area mail that contains the DZIP.
