

HWAD ROAD/SIDEWALKS CONDITIONS

Road on HWAD consist of 4 different surfaces, concrete, asphalt, gravel and dirt. Racking from 1-10, 10 being best, the road on the installation would be rated 6-7.

The roads on MT. Grant are steep gravel mountain roads which are un-passable during inclement weather.

Roads in the magazine areas; main roads are asphalt, side road such as in front of the storage building are gravel, and fence line roads dirt. Roads in the south training/old bomb and new bomb area are heavily used by the tenants, contractor demo crew and troop training. These roads are gravel and dirt.
