

Exceptional Family Member Program- Family Support

The EFMP is designed to provide support to military family members with special needs. The Medical function provides identification, enrollment and clearance to ensure appropriate medical and educational services are available for family members before they PCS to a new location. The Family Support function provides information, referrals, parent education and recreational events. The worldwide network of EFMP-Family Support offers transition assistance from installation to installation.

The Ramstein EFMP-Family Support has partnered with community organizations to develop adaptive activities for families with special needs.

Ramstein Library

Help us celebrate the new special needs resources and Pedro the Therapy Dog at the Ramstein Library! You can join us for an Adaptive Story Time, browse resources and sign up for a time to read to Pedro. Pedro listens to kids while they read out loud, reducing some of the stress of learning to read. The library resources are open to all ID card holders.
