TECHNOLOGY
ACCESS

June 20, 1994

JUN 21 1994

Carol Rasco
Assistant to the President for Domestic Policy
Second Floor, West Wing
The White House
1600 Pennsylvania Avenue
Washington, DC 20500

Dear Ms. Rasco:

On behalf of the entire Alliance for Technology Access, I want to thank you for accepting our invitation to speak at our upcoming annual Institute. We are delighted to know that you will be available to keynote our luncheon on Tuesday, July 19, 1994. This letter is intended to confirm the date and time of your speech.

The luncheon will take place at the site of our meeting, the Sheraton City Centre Hotel in the City Centre Ballroom. It is located at:
1143 New Hampshire Avenue, N.W.
Washington, D.C. 20037

*202-775-0800 Lower Lobby
Level
Stairs - R L
elevator R*

The luncheon will begin at 12:00, with your speech immediately following the meal. We have allowed until 2:00 for the lunch and your speech.

As you know, our organization is concerned with access to enabling technology for children and adults with disabilities. However, as parents and consumers, we are concerned with a wide range of issues which will directly affect us. We would be pleased to have you speak about whichever topic may be of most interest to you, including key domestic agenda items of the Clinton administration which are important to people with disabilities and their families.

I have enclosed a copy of the agenda for your information. If you have any further questions regarding this event, please do not hesitate to contact me. I will be in touch with Pat Romani to ensure that your participation is both enjoyable and inspiring for you. We know you will provide us with great vision and direction.

We look forward to meeting you on July 19th. Again, thank you so much for your gracious acceptance.

Sincerely,

Jacquelyn Brand

AUG 22 REC'D

August 11, 1994

Ms. Carol Rasco
Senior Advisor for Domestic Policy
The White House
East Wing
Washington, DC 20050

Dear Ms. Rasco:

It was a pleasure meeting you last month at the Alliance For Technology Access institute in Washington. Your remarks were certainly a high point during the week's activities and also reinforced the fact that the philanthropic efforts of Mattel Toys are right on target with the Clinton Administration.

We have pursued our own initiatives during the past five years in an effort to target effectively and efficiently major areas of need.

For example, we have supported children in special education through an annual program called, "Get Wise To Words", which provides access to learning through technology and builds skills in reading and writing through various educational software programs. Our evaluation shows that student skills jump almost two grades levels. And through a major partnership with the Alliance For Technology Access, we are ensuring the success of this project by relying on the vast experience and knowledge of the ATA members who support each of our schools.

This year we launched a major health care program called, "Helping Kids Grow". This \$2 million dollar program is establishing collaborative efforts by bringing together community-based health clinics, Head Start centers and/or low income housing complexes for the purpose of expanding and enhancing the delivery of health services in disadvantaged communities. Our Washington, DC partners include DC Head Start, Frederick Douglass Child Development Center and Carver Terrace Dwellings.

Each of our initiatives depends on partnerships. By identifying groups who share in our mission and who

already have wonderful programs in place, we are able to stretch our resources effectively and efficiently in order to stimulate change and create stronger infrastructures. As a result, our investments are wise and the results impactful.

I've enclosed additional information on the Mattel Foundation and its programs. If ever you see an opportunity to work together or if we can be of assistance to you, please don't hesitate to call.

Again, it was a pleasure meeting you. Best of luck to you and the Administration in your efforts to make a real difference in cities throughout our country.

Janice Nakayama
Manager
Mattel Foundation

Encl.

University scientist Stephen Hawking. You should note the book's recent publication, which they expect USA Today to cover, and I will give you a synopsis/highlights when I receive it. See below and attached extract; please let me know if you would like to see the whole book.

Potential remarks

• I understand that Howard Moses opened your conference on Sunday evening, so I know that you better understand that "all means all" in the Department of education and in this Administration. You now can better appreciate that this Administration knows from first-hand experience the importance of inclusion and workplace accommodations. [see letter of invitation and agenda as App. A; Carol, Judy took a fall sometime this weekend and Howard gave her speech instead; but I understand that she is recovering ok and is at work today]

• Commend your centers for introducing nearly 100,000 people to use the latest technology to permit inclusion in schools, in the workplace, and in social settings. [see App. B]

• Congratulate you on your recent publication of the book, Computer Resources for People with Disabilities: A Guide to Exploring Today's Assistive Technology. When a dozen writers can collaborate and produce a text that is highly readable, understandable and empowering, you have a great achievement! You have managed to weave together personal stories with solutions, technological tools, helpful resources, and the key concepts. As the authors' put it, "we believe in every person's right to be productive and independent and to achieve his or her desired quality of life. And we believe the most noble application of technology is to support those rights." [p. 3] Well, this Administration shares those beliefs, for as President Clinton has so frequently said: "We do not have a single person to waste."

• I wish I could convey the excitement of my recent visit to the Defense Department's CAP program where I witnessed the latest advances in computer and telecommunication accessibility for our Federal employees with disabilities. They even told us that synthesized voices come not only in male-female variants, but in regional accents. And from reading Stephen Hawking's wonderful foreword to your Computer Resources book, I've now learned that he too speaks with an American accent. I quote from this world-renowned British physicist:

"Computerized speech synthesizers have improved a great deal in recent years, and this is important: not only does one want to be understood, but also does not want to sound like Mickey Mouse or Dalek. My voice may be a bit tinny and American, but it is almost human." [p.viii]

elaborate on your visit to Dinah Cohen's Cap program

I only wish I were along w/ others in Hamp's life. Much earlier in his life.

Agenda - luncheon speaker ^{tired} or invigorated/share
What can I add?
I can add COMMITMENT & a challenge

1. The Administration understands the important role of technology in including people with disabilities in every aspect of society.

2. The President's oft-quoted belief that we have not "a single person to waste" resonates deeply both in this audience and in what we as an Administration are attempting to do.

3. As planning for the National Information Infrastructure moves forward, the Clinton Administration intends to reflect the diversity of needs of all our people and recognizes the importance of the concept of universal design.

4. Our commitment to the empowerment of individuals with disabilities is also reflected in:

- our implementation of the ADA whose 4th Anniversary will be celebrated at the White House next week;
- in the Technology-Related Assistance for Individuals with Disabilities Amendments which stresses consumer responsiveness, and systemic change;
- and in the planning for the reauthorization of IDEA that is now ~~going~~ underway.

5. Since we are all interested in technology in its broadest terms, I will describe for you some exciting new developments I've observed or read about lately.

Elderly therapist

Something to do - ^{work} play living

Someone to love - freeing parents to be ^{loving} parents

Something to ~~hope~~ for - safety
Exercise } healthy - courage
your } well. reform
constit. right

The challenge → nametag, electroan tinker - but in 6 mos.

What are the marks of success

Wisdom } Every child shall be empowered to develop to ^{can you say you've} ^{done anything} ^{different} ^{> eq}
us towards } her/his full potential.

these goals:

when preparing paper:

What child's face are you thinking about?

Well, when it all comes down to the end
what is my personal success factor?

• I wish I could fully capture the excitement of high school students with various disabilities demonstrating the latest computer equipment to a Washington Annenberg conference, equipment that had helped them to succeed and prosper in their own classrooms. These are students with great expectations. When one student now enrolled as a college freshman was already looking ahead to Law School, and a spot in the Oval Office one day. Obviously it doesn't hurt to plan ahead! Despite his cerebral palsy and vision problems, he has learned to use the tools that can bring him into the supermarkets of information.

• I have my own experiences and recollections of my son Hamp's encounters with technology, and his ability to put his people-person skills to good use whether in his current job or his encounters with the President.

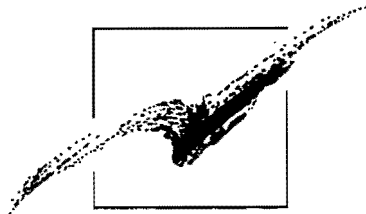

• Thanks to Joseph Shapiro, your keynote speaker yesterday and his article "Mothers of Invention" I gather you have some understanding of how parents like Jackie Brand and myself came to develop our advocacy and public policy skills through the disability movement. Our movement clearly remains a work of invention that is in progress. It is a movement that is changing expectations and options by persons with disabilities. [Carol Jackie just told me that Shapiro in his key note made extensive reference to you and to Jackie by drawing on the "Mothers ... article].

*Yummy
Heaps* - Carol -- are there anecdotes you could tell linked to the Arkansas Technology Resource Center since it is funded through the Federal Tech Assistance for Individuals with Disabilities Act, and is part of the national network of the Alliance for Technology Access that you are addressing? [see App. C, brochure about the Arkansas Center].

If you need any further information, please permit me to supplement these materials in the week of July 11th.

p.s Both for light relief and possible future references in speeches re changing media portrayals of what a person with a disability can do, you may enjoy seeing "Forest Gump", the new Tom Hanks movie. While this is not cinema verite, the tale of Alabama mom who believes that her son with leg braces and IQ 7 no different from his other classmates and deserves to go to regular school with them is a powerful one. Forest manages to get to the Oval Office a couple of times, star on 'Bama football, Congressional Medal of Honor, entrepreneurial success, and with the love of his childhood sweetheart. Not that's what I call inclusion!

PROGRAM

Sunday, July 17

7:00 - 9:00 PM

City Centre Ballroom
*Registration, welcome reception,
hors d'oeuvres*

Opening Session

Keynote speaker: Judith E. Heumann,
Assistant Secretary for the Office of Special
Education and Rehabilitative Services, U.S.
Department of Education

Monday, July 18

8:00 - 10:00 AM

City Centre Ballroom
*Late registration
General session*

Welcome: Jackie Brand, Executive Director,
Foundation for Technology Access

Keynote speaker: Joseph P. Shapiro, *US
News and World Report*, author of *No Pity:
People with Disabilities Forging a New Civil
Rights Movement*

10:15 - 11:15

Potomac Room
Mac Basics
Cindy Storm & Krista Barton, TCTA,
Virginia Beach, VA; Bridgett Perry, FTA

Participants will become familiar with and be
able to navigate the desktop and control panel
functions. Other skills introduced will

include editing, cut and paste, menu bar
functions, Easy Access features and basic
problem solving. Participants will begin to
feel comfortable with their friend Mac and
will gain the skills necessary to begin
independent exploration.

Dupont Room
*Windows for Beginners with Some DOS on
the Side*
Craig Boogaard, CCCD, Salt Lake City, UT

This session will allow beginners to explore
Windows and basic DOS commands.
Examples of items that will be covered
include moving from DOS to Windows and
back, starting applications from within
Windows, and using the programs that are
part of Windows. The session will conclude
with the DOS commands to copy disks and
files, make and change directories, and other
basic DOS commands.

Foggy Bottom Room
*Access Windows and Make it Talk, with
GUS*
Dave Grass, NICAT, Rockford, IL; Melody
Ram, CAC, Santa Monica, CA

Learn about GUS, a multimedia, Windows-
based system which uses digitized speech for
augmentative communication with switches
and scanning or touch sensitive screen on a
laptop. Explore SAW (Switch Access to
Windows) for on-screen scanning to access
any Windows program with user-defined or
commercially available symbols.

New Hampshire I
*PROXi: Integrated Environmental Control
for Macintosh & Windows*
Randy Marsden, Madenta Communications

PROXi, an exciting new environmental
control product, allows persons with
disabilities complete control over the
telephone, lights, TV's, and an intercom.
All forms of computer access may be used,
including voice recognition, scanning,

pointing, and keyboard. Macintosh and Windows platforms will be demonstrated. Advanced training will show how to control PROXi using Ke:nx™ set-ups and IntelliKeys™ overlays.

New Hampshire II

Alliance Center Directors' Forum

Russ Holland, Techspress, Utica, NY,
facilitator

This session will provide an issue discussion and peer support forum for center directors. The agenda will be collaboratively developed prior to the session and adjusted as necessary during the course of the session. This will begin an ongoing forum in which center directors can address common and dissimilar issues faced in their centers and provide collaborative support in their solution.

11:30 - 12:30

Potomac Room

Collaboration Breeds Success: Some Ideas for Collaborative Consultation

Ann Grady, Denver, CO; Russ Holland,
Techspress, Utica, NY

This session will provide a values-based framework for collaborating with consumers during a consultation session. Practical suggestions and options will be offered by the presenters and through interaction with the participants.

Dupont Room

Access DOS and Access DOS for Windows
Dave Grass, NICAT, Rockford, IL

Participants will learn how to use Access DOS and Access DOS for Windows, with hands-on experience.

Foggy Bottom Room

Access with Darci Too

Darci Lynds and her grandfather Jim Lynds,
WestTest Engineering Corporation

Participants will learn how to demonstrate DARCI TOO, an alternative input device for IBM and Apple Computers. Special emphasis will be placed on using the system's built-in setup routine, on an IBM. A device which uses the PCMCIA bus for computer access will also be presented.

New Hampshire I

Ke:nx 3.0: New Features

Bob Keller, Don Johnston, Inc.

Combine computer access for the Macintosh with communication. Ke:nx 3.0 enables the use of high quality Macintalk II and Macintalk II Pro voices and new icon libraries to add communication function to all the familiar access methods readily available for the Macintosh through Ke:nx.

New Hampshire II

Let's all play!

Alice Wershing, Center for Accessible
Technology, Berkeley, CA

A gathering to exchange information on using toys, successful adaptations and toy loan programs. We will talk about things that have worked and what we have learned from our experience. This informal session will focus on having fun and playing with toys!

12:30 - 2:30

City Centre Ballroom

Cold Lunches - Hot Topics

Facilitated round-table discussions on topics of interest to everyone. Opportunity to informally share successes, failures and ideas on a wide range of topics, from the latest in on-line services to the best of funding strategies. Check the extended list and pick the topic of your choice.

In addition, Bob Glass, Program Director, FTA, will present the latest Alliance Impact Report and summarize the findings.

2:45 - 3:45

Potomac Room

Doors: Complete Computer Access for the Macintosh

Randy Marsden, Madenta Communications

This session will include hands-on training for all the Doors computer access products (ScreenDoors, Telepathic, and RevolvingDoors). Also, sneak peeks at what's new at Madenta: Magic Cursor (Universal Dwell Selector), HeadMouse (completely wireless head pointing), and Telepathic 2.0 (with support for foreign languages). Free demo disks included. Basic Mac skills presumed.

Dupont Room

Writing To Read 2000 & Stories and More 2
Dave Grass, NICAT, Rockford, IL

Mattel project trainers will learn training techniques for presenting *Writing To Read 2000, Stories & More II*, IntelliKeys integrated with *Kidware*, and *IntelliTalk* (beta version) for IBM. Anyone who is interested in learning about the products or the process is welcome to join the session.

Foggy Bottom Room

Word Prediction and Abbreviation Expansion Training

Bill Kilroy, Microsystems

This in-depth training session on accessibility software for individuals with limited computer keyboarding capabilities will feature Microsystems Software Inc's HandiWORD software. Learn how word prediction and abbreviation expansion software can aid slow typists, probe or pencil users, or one finger typists. Learn how to install, configure, customize and use HandiWORD in both DOS and Windows environments.

New Hampshire I

Learning with IntelliKeys

Arjan Khalsa, Melinda Harrington,
IntelliTools

How to plug all students into the standard curriculum using IntelliKeys and related software. Find the giraffe, touch the yellow triangle, check out the insides of a frog. An introduction of how IntelliKeys, Overlay Maker, IntelliPics, and Click It! work together to adapt math, science, and language arts curriculum.

New Hampshire II

Financial Management: The Basic Tools

Mary Lester, Program Developer, FTA

This session will provide people with some of the basic tools for financial management and explain how to use them effectively. The Financial Manual published by the National Minority AIDS Council will be supplied to participants at a cost of \$5.00 each.

4:00 - 5:30

City Centre Ballroom

Legislative Update

Panel: Chris Button, UCPA; Andrew Imparato, Counsel to Senate Committee on Disability chaired by Sen. Harkin; Susan Heegaard, (invited), aide to Sen. Durenberger; Russ Holland, moderator

Learn about recent developments in current and proposed legislation related to disability and assistive technology.

5:30 - 7:30

Dinner on your own

7:30 - 9:30 PM

**City Centre Ballroom
and other conference rooms**

The Vendor Event

ATA vendors are the presenters

Have fun. Learn from our vendors. Great prizes! Gather at the City Centre Ballroom for instructions. Our vendors have planned an informative, sometimes puzzling, evening of excitement and intrigue. Be there!

Tuesday, July 19

8:00 - 9:30 AM

City Centre Ballroom

General Session

Continental Breakfast hosted by Skills Bank Corporation

Remarks: Kathy Hurley, Vice President, Skills Bank and FTA Board member, Garry McDaniels, President, Skills Bank

Keynote Speaker: Rick Douglas, Executive Director, President's Committee on Employment of People with Disabilities

9:45 - 12:00

Potomac Room

Double session

HOT SPOTS and COOL Intelli - TOOLS

Arjan Khalsa, Melinda Harrington,
IntelliTools

Come get your hands on the latest, hottest Intelli - Tools and learn how to present a workshop on IntelliTools' products. Hands-on, advanced training in IntelliPics, Click It! and Overlay Maker. Prerequisite: comfort with Macintosh, previous knowledge of IntelliKeys, Overlay Maker, and IntelliTalk.

New Hampshire II

Double session

*Management Focus: Impact, Collaboration,
and Board Resources*

Sylvia Clark, NEC Foundation

Three timely management topics that address the HOW's of our work and lead to improved service delivery

- how to effectively express the impact of our efforts
- how to work with other agencies in order to better serve people, and
- how to assure that we have appropriate board resources to advance our mission.

Part 1

Measuring outcomes for people

Dr. James Gardner, CEO, Accrediting

Council, Services for People with Disabilities

Results matter. Advocates, people with disabilities, their families and funders are asking about outcomes. Definitions of quality have moved beyond the measurement of what the organization does to what outcome it enables the person to accomplish. Responsiveness to the individual's priority outcomes is more important than compliance with organization process. The outcomes for people that result from the provision of service can be measured.

Part 2

Successful Collaboration

Paul G. Hearne, Esq., President, The Dole Foundation

Coordination, cooperation, collaboration. Coalitions, partnerships. No matter what term is used, "working together" is increasingly called for in human services, government and community organizations. Hear about the successful ingredients, as gleaned from The Funding Partnership for People with Disabilities. Learn about a prospective new funding source, as well.

Part 3

*Finding and Keeping the Boardmembers
You Need*

Brooke W. Mahoney, Executive Director,

Volunteer Consulting Group, Inc.
This session builds on a major research project done by the presenter for the W. K. Kellogg Foundation. Focused, practical advice for boardmembers and managers concerned about building and motivating boards.

9:45 - 10:45

Dupont Room
Voice Recognition
IBM staff

Participants will learn how to use Voice Type II, and hear about recent advancements in the area of voice recognition.

Foggy Bottom Room
Talking about Augmentative Communication
Sue Murn, Techspress, Utica, NY

Discussion of the pros and cons of augmentative communication devices. Demonstration and hands-on with augmentative communication devices, high and low tech. Exploration of funding process and sources.

New Hampshire I
Accessible Software for Young Learners
Mary Ann Trower, Edmark Corporation

Participants will learn how to use the built-in features in Edmark's early childhood software to make accommodations for individual children using a Touch Window or scanning. Software will include Bailey's Book House, Sammy's Science House, Millie's Math House, Thinkin' Things, and Kid Desk.

11:00 - 12:00

Dupont Room
Speechviewer II, ThinkAble, and more
IBM staff

Participants will learn how to use and demonstrate Speechviewer II and other members of the IBM Independence Series.

Foggy Bottom Room
Speaking Dynamically
Jean Isaacs, Bluegrass Technology Center, Lexington, KY

Share setups you have made using Speaking Dynamically, the Mac-based communication program from Mayer-Johnson. See what others have created.

New Hampshire I
Kids Stuff!
Alice Wershing, Center for Accessible Technology, Berkeley, CA; Penny Ellis, EastTN STAC, Powell, TN

This session will present ideas for software to used with young children. Thematic activities and creative uses of software will be described, demonstrated and exchanged.

12:15 - 2:00

City Centre Ballroom
Luncheon

Honored Guest Speaker: Carol Rasco, Assistant to President Clinton for Domestic Policy

2:15 - 4:30

Potomac Room
Double session
Advanced Ke:nx, Hands-On Bob Keller, Don Johnston, Inc.

Combine the built in scripting language of Ke:nx with the powerful "markers" features and other "Power Mouse" functions of Ke:nx to provide unique access to the Macintosh. Add digitized speech and custom icons to make a personalized setup. Prerequisite: previous experience with Ke:nx. Basic Mac skills presumed.

2:15 - 3:15

Dupont Room

Oh say, can you see?

Bob Hill, LLRC, Lansing, MI; staff of LINC, Baltimore MD; staff of STAR, Jackson TN

This session will deal with computer access needs for users who are blind, or visually impaired. We will cover access methods for large print output, speech output, and braille input and output.

Foggy Bottom Room

Outreach Projects for Fun and Profit

Bob Glass, FTA Program Director Pat Cashdollar, TRCD, Dayton, OH; Glenda Anderson & Linda Rass, TASC, Huntsville, AL

Outreach projects are among the most rewarding programs of Alliance centers in terms of personal satisfaction, impact, and fundability. This session shares what we know about successfully addressing diversity, operational aspects and resource development. The group will also address the uniquely valuable role of Alliance centers for performing the mandated outreach activities of the reauthorized Tech Act with excellence.

New Hampshire I

"Talknology" for Promoting Literacy Learning in Children with Developmental Disabilities

Jane D. Steelman and David Koppenhaver, The Center for Literacy and Disability Studies, Chapel Hill, North Carolina

Speech feedback, or "talknology," in combination with other computer-based supports addresses some of the literacy learning difficulties experienced by children with disabilities. In this presentation, we will share software and learning principles for assisting children with developmental disabilities to make sense of and use written language.

New Hampshire II

Fees and Contracts: Simple to Sophisticated
Lisa Wahl, Center for Accessible Technology, Berkeley, CA, and Margaret Doumitt, STAR Center, Jackson, TN

This session will consider the range of charges for services provided by your center. We'll start with basic membership fees and consider the pros and cons. We'll examine the technical, administrative, and support staff required to develop and fulfill contracts with schools, individuals, and rehabilitation entities.

3:30 - 4:30

Dupont Room

Where's the Open Apple on the PC Keyboard?

Donna Heiner, James Bohr, LLRC, Lansing, MI

Many of us have searched in vain for the Open Apple Key on the PC keyboard. In this session, we'll show you how to find it (virtually speaking, of course). The presenters will discuss and demonstrate a variety of switch interfaces and cause & effect software for computers running MS-DOS and Windows. Participants will be able to help parents and professionals select the appropriate interface and software. Public domain software will be available for copying at a later time.

Foggy Bottom Room

How to Begin a Lending Library

Terry Trzaska, TRCD, Dayton, OH; Jean Isaacs, Bluegrass Technology Center, Lexington, KY; Anita Harris, PLUK, Billings, MT

A variety of ways, from simple to sophisticated, to set up and track software and equipment that ATA Centers loan to members. Fee schedules and forms will be shared.

New Hampshire I
*A Magic Carpet Ride Through the
Elementary Curriculum*

Suzanne Feit, Cyndy Hoberman, & Karin
James, SACC, Simi Valley, CA

Imagine a world that comes to life through
active student participation, collaboration,
cooperation and technology integration. This
is a 'whole new world' for integrating
technology into the curriculum. As you
embark on your future ventures, remember
that the journey can be just as important as
the destination!

New Hampshire II
Fund Raising for Fun and Profit

Nancy Perry, LINC, Baltimore, MD; Carol
Adams, Computer CITE, Orlando, FL

This session will provide several
perspectives on effective fund raising
techniques for the very young and the well
established ATA center.

4:45 - 6:00 PM

City Centre Ballroom
Vendor Forum

Jackie Brand, moderator

An open discussion between centers and
vendors to enhance relationships and explore
ideas for the next generation of products.

7:00 - 9:00*

City Centre Ballroom

hors d'oeuvres

*Keynote Speaker:
Judith E. Heumann, Assistant Secretary for the
Office of Special Education and
Rehabilitative Services,
US Department of Education*

Judith E. Heumann

In June, 1993, Judy Heumann was sworn in as President Clinton's assistant secretary for special education and rehabilitative services in the U. S. Department of Education. Since having polio at the age of eighteen months, she has known discrimination firsthand. She was able to begin her career as a teacher in the New York City school system only after she sued the Board of Education, which had turned her down for a teaching position because she could not walk. One of the first to recognize that discrimination against disabled people was a civil rights issue, she has championed the cause of equality for disabled people around the nation and around the world. She has worked tirelessly to change laws, policy, and perceptions about people with disabilities. While serving on U.S. Senator Harrison Williams' staff, she helped develop legislation that became the Education for All Handicapped Children Act (P.L. 94-142) and worked on the development of regulations for Section 504 of the Rehabilitation Act. Later, she helped draft federal and state legislation that led to the creation of more than 200 independent living centers nationwide. Ms. Heumann was the recipient of the Henry B. Betts Award in 1990, in recognition of her other outstanding efforts to improve the quality of life for people with disabilities. Assistant Secretary Heumann oversees the Office of Special Education Programs, the Rehabilitation Services Administration, and the National Institute on Disability and Rehabilitation Research. She has strongly committed herself to aligning these programs with President Clinton and Education Secretary Riley's agenda: to promote the inclusion, independence, and empowerment of disabled people throughout society.

General Session
Monday, July 18
City Centre Ballroom

8:00 AM to 10:00 AM

Continental Breakfast

Welcome: Jackie Brand, Executive Director,
Foundation for Technology Access

Keynote Speaker:
Joseph P. Shapiro

Mr. Shapiro serves as Senior Editor for *U.S. News & World Report* and has covered social policy issues for the magazine since 1987. He was the recipient of an Alicia Patterson Foundation Fellowship to study the disability rights movement. His work has appeared in *The Washington Post*, *The Progressive*, *The Disability Rag*, and many other publications. He is the author of *No Pity: People with Disabilities Forging a New Civil Rights Movement* (Times Books/Random House, 1993).

GREAT PRIZES!

Gather at the City Centre Ballroom for instructions.
Our vendors have planned an informative,
sometimes puzzling, evening of excitement and intrigue.
Put on your thinking cap.

“The game is afoot!”

BE THERE!

Morning Session

Tuesday, July 19

8:00 to 10:00 AM

Continental Breakfast
sponsored by Skills Bank Corporation

Remarks:

Kathy Hurley, Vice President, Skills Bank Corporation
Gary McDaniels, President, Skills Bank Corporation

Keynote:

Rick Douglas

Rick Douglas serves as the Executive Director of the President's Committee on Employment of People with Disabilities, based in Washington, D.C. He has led the agency in the implementation and communication of presidential policy on issues of employment, access, accommodation, and inclusion for Americans with disabilities. He has traveled to 47 states, met with hundreds of business, government and disability rights groups, with a message for full inclusion, rights, and employment of America's 49 million people with disabilities. Douglas brings experience in government and rehabilitation to the President's Committee, having been Director of Vocational Rehabilitation for the state of Vermont for six years prior to joining the President's Committee. He also brings experience in communications and marketing from his many years in multi-national product marketing as USA Advertising Director for British Airways. His advocacy experience comes from twenty years of personal history as a person with a disability, having been diagnosed with multiple sclerosis in 1974.

Tuesday, July 19
City Centre Ballroom
12 noon to 2:00

Luncheon

Keynote Speaker:

Carol Hampton Rasco

Ms. Rasco serves as Assistant to the President for Domestic Policy. She is a native Arkansan who worked with President Bill Clinton in the Arkansas Governor's office for ten years. In her current position, she supervises and coordinates the work of the White House staff of the President's Domestic Policy Council. She also serves on the Department of Education's National Education Goals Panel. In Arkansas, Ms. Rasco was Governor Clinton's senior Executive Assistant responsible for the staff and operations of the Governor's office as well as policy coordination. From 1985 through 1992, she was also Governor Clinton's Liaison to the National Governors' Association. During this period, she worked closely with the NGA's Washington staff both during Governor Clinton's Chairmanship and while he was lead Governor on welfare reform, child care and health care reform.

TUESDAY AFTERNOON

9:00 to 10:00 AM**

**The Reauthorized Tech Act, 1994:
and What It Means to the Alliance**

**Guest speaker:
Carol Cohen**

**Program Manager: Assistive Technology Tech Act Program
Team Leader: Knowledge Dissemination and Utilization
National Institute on Disability and Rehabilitation Research, Department of Education**

Carol Cohen is an assistive technology specialist with an extensive background in service delivery and related consumer responsive services. She was the Director of Adaptive Services at ENABLE in Syracuse, New York for over 10 years. Ms. Cohen has over twenty years experience in the assessment, treatment, and program planning for individuals with severe disabilities requiring augmentative systems of communications, as well as other expertise in service delivery systems/models and funding strategies, and administration of assistive technology programs. She is a clinically certified speech-language pathologist.

Bob Williams

**our speaker on
Wednesday, July 20
Reception
USA Today
4:00 to 6:00 PM**

Bob Williams is known nationally for his articulate advocacy and strategic leadership in the disability arena. Appointed by President Clinton in August, 1993, as the Commissioner for the Administration on Developmental Disabilities, an agency within the United States Department of Health and Human Services, Bob Williams is responsible for a network that increases the independence, productivity, and community inclusion of an estimated 4 million Americans with developmental disabilities and their families. Prior to his appointment, he worked as a policy associate with UCPA's Governmental Activities Department in Washington, D.C., where he played a key role in gaining passage of the Americans with Disabilities Act. Mr. Williams is also a poet and writer. Perhaps his best known works are included in his first volume of poetry, "In a Struggling Voice." He was born with cerebral palsy and uses an augmentative communication system. He has served as president of Hear Our Voices.

Visioning the Future of the Alliance

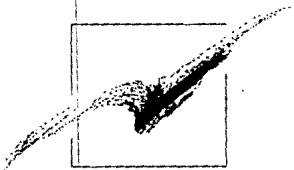

New Hampshire Ballroom
Thursday, July 21
1:30 to 5:00

A participatory process for designing our preferred future,
looking 3-5 years into the future of the Alliance

Facilitator: Kathleen S. Osta

Kathleen Osta is a Senior Associate of HeartWork, Inc.'s office in Phoenix, Arizona. HeartWork, Inc. is a San Francisco-based organizational development firm that consults with organizations that are seeking strategies to effectively plan for the future and address changes in the business arena. She also offers keynote presentations, facilitation and training services to senior management teams in business, the public sector, and non-profit organizations. Using "care-frontation," that is, balancing the need for productivity with compassion, she brings a rare enthusiasm and clarity with clients. Ms. Osta has a background in the field of serving kids with disabilities.

Alliance Materials

ALLIANCE
— for —
TECHNOLOGY
ACCESS

The Alliance for Technology Access (ATA) is a growing movement of people across the country who are working to redefine human potential through the powerful and imaginative application of computer technology. It consists of a network of assistive technology resource centers whose members share a common vision—and an uncommon commitment to improving the quality of life for children and adults with disabilities.

The ATA was born out of a desire to demonstrate how technology can be used by everyone to transform limitations into opportunities. The group works toward this goal by providing access to the assistive technologies and related services that enable people to achieve productivity, independence, and success according to their individual needs and interests. Based on a spirit of collaboration and partnership, the ATA is driven by adults and children with disabilities, their families and friends, teachers and therapists, employers, service providers, technology vendors, professional organizations, and community agencies. All share the belief that meaningful and lasting change occurs when the search for technological solutions begins with individuals defining their own dreams and expectations.

Each center is an independently incorporated organization, tax-exempt under Section 501(c)(3) of the Internal

Revenue Code, with its own name, governing board, and corporate structure. All are dedicated to serving people of all ages with disabilities of all kinds and have comprehensive, multifaceted programs that reflect specific community needs, as well as local talents and resources.

Although each center is unique in many ways, all ATA centers provide services that help parents, teachers, employers, and children and adults with disabilities to explore computer systems, adaptive devices, and software. These services may include:

- Guided exploration and technical consultations
- Hands-on computer demonstrations
- Information and resource services
- Technical assistance to employers
- Equipment, software, and video loans

July 19 - OK

THE WHITE HOUSE

Carol H. Rasco

Dear Ed -

I was very touched
by your letter and
appreciated very much
your kind words and
receipt of the book and
the paper. I am so
grateful there are people
like you who are
helping the citizens of
this world understand
the retarded.

Sincerely,
Carol

July 22, 1994

Carol Rasco
Assistant to the President for
Domestic Policy
The White House
1600 Pennsylvania Avenue
Washington, DC 20500

Dear Carol:

I was in attendance at the luncheon at which you spoke. I was quite moved by the remarks you made about your son. I have studied and worked with the mentally retarded now for 40 years. Unfortunately, I hear with great frequency about the lack of sensitivity by professionals who minister to the retarded. The basic problem is that too many of these professionals approach the retarded individual as nothing more than "a disordered brain" or "low IQ." Retarded individuals such as your son are, of course, whole people who, like the rest of us, develop mechanisms to adapt to the world in the best way they can.

I am sending along a short book and a paper in which I spell out my views about the retarded. Please let me know if there is any way I can be of help to you.

Cordially,

Edward Zigler
Sterling Professor of Psychology

EXECUTIVE OFFICE OF THE PRESIDENT

30-Jun-1994 03:41pm

TO: Carol H. Rasco
FROM: Patricia E. Romani
Domestic Policy Council
SUBJECT: Call from J. Brand re. July 19 speech

Carol,

Jacquelyn Brand phoned and expressed her gratitude that you are going to speak at July 19 event. She wanted you to know they are planning

12:00 -12:30 Lunch
12:30 Speech Time (as long/short as CHR wishes)

✓
20-30 minutes - no Q&A

Jacquelyn would be honored to introduce you however, if you wish either Jenny Heiple or Janet Hargett to do the honors she would understand. (Totally up to you.)

✓
It's up to them; I don't do the picking & choosing.

Do you need any audio-visual equipment? no ✓

Do you have any access concerns? no ✓

Do you want/need any particular requirements? no ✓

Wanted to know "general topic of your remarks" for Domestic Policy Agenda program. Let me take quick look at info in event folder ✓

Please advise and I'll contact Jacquelyn with your wishes.

Thanks, Pat

ACCESS

June 20, 1994

JUN 21 1994

Carol Rasco
Assistant to the President for Domestic Policy
Second Floor, West Wing
The White House
1600 Pennsylvania Avenue
Washington, DC 20500

Dear Ms. Rasco:

On behalf of the entire Alliance for Technology Access, I want to thank you for accepting our invitation to speak at our upcoming annual Institute. We are delighted to know that you will be available to keynote our luncheon on Tuesday, July 19, 1994. This letter is intended to confirm the date and time of your speech.

The luncheon will take place at the site of our meeting, the Sheraton City Centre Hotel in the City Centre Ballroom. It is located at:
1143 New Hampshire Avenue, N.W.
Washington, D.C. 20037
202-775-0800 Lower Lobby level Stairs - R L elevator R

The luncheon will begin at 12:00, with your speech immediately following the meal. We have allowed until 2:00 for the lunch and your speech.

As you know, our organization is concerned with access to enabling technology for children and adults with disabilities. However, as parents and consumers, we are concerned with a wide range of issues which will directly affect us. We would be pleased to have you speak about whichever topic may be of most interest to you, including key domestic agenda items of the Clinton administration which are important to people with disabilities and their families.

I have enclosed a copy of the agenda for your information. If you have any further questions regarding this event, please do not hesitate to contact me. I will be in touch with Pat Romani to ensure that your participation is both enjoyable and inspiring for you. We know you will provide us with great vision and direction.

We look forward to meeting you on July 19th. Again, thank you so much for your gracious acceptance.

Sincerely,

Jacquelyn Brand
Jacquelyn Brand

MEMORANDUM TO CAROL H. RASCO

FROM: Stanley S. Herr

SUBJ: Speech notes for Alliance for Technology Access, 7th Annual training Institute, July, 19, 1994

DATE: July 1, 1994

Time and Place: 12:00 to 2:00 p.m., Tuesday, July 19, 1994
(luncheon and your keynote session)
Sheraton City Centre Hotel
1143 New Hampshire Avenue, N.W.
Washington, DC 20037

City Centre Ballroom

Points of Contact:

Hotel Phone for conference organizers:
Jacquelyn (Jackie) Brand, Executive Director, Foundation for
Technology Assistance

Audience:

Currently there are 200 participants expected. Audience is mainly families of children and adults with disabilities (about one-half), with the remainder being professional service providers, vendors of accessible technology and representatives of nonprofit organizations. Participants are expected from all parts of the country.

Session:

You will be introduced by Jackie Brand, unless you prefer that the honor go to one of your friends from Arkansas like Ginny Heiple or Janet Hargett. I told her that I thought you would want to leave that decision up to their organization, but she seems equally happy doing it or having someone who knows you do it. If you have a preference, please let me know and I'll call Ms. Brand back.

Time: talk can begin about 12:45 -- 30 minutes or further time as you wish.

Primary messages of interest to this audience:

1. The Administration understands the important role of technology in including people with disabilities in every aspect of society.

E X E C U T I V E O F F I C E O F T H E P R E S I D E N T

01-Jul-1994 04:53pm

TO: Carol H. Rasco
FROM: Stanley S. Herr
Domestic Policy Council
CC: Patricia E. Romani
SUBJECT: RE: responses

I did not make much headway here as of yet.

I put a call in to Bobbie Simpson (501) 682-6697, and left a detailed message with his assistant Steve Warner to relay to Boobie to send you and/or Mike Lux any names of Ark. folks for the ADA event.

I've asked Peggy Smith in Kathi's office to kindly follow-up with Mr. Simpson on Teusday, and with Sheryl Dicker and her husband for their clearance info.

Since there was no ADA meeting today, I think there is still plenty of time to get our names in to Mike L.

have a good 4th !!

Sharon Keidong
