# Bullying Prevention & Response Base Training Module

# Table of Contents

- Greetings & Goals
- Bullying Defined
- The Many Forms of Bullying
- Ten Key Findings About Bullying
- Best Practices in Bullying Prevention & Response
- Misdirections in Bullying Prevention & Response
- Case Studies: Approaches to Consider in Bullying Prevention & Response
- Action Planning & Group Brainstorm
- Next Steps: Putting What You Learned into Practice
- Feedback
- In Conclusion

# Greetings & Goals

# Today's Goals

- Define bullying, the many forms it takes, and its effects
- Discuss best practices in preventing bullying and response when you see bullying happen
- Highlight compelling examples of strategies that work
- Demonstrate how to create an action plan and execute an event in your community

# Bullying Defined

# What is bullying?

- Bullying is unwanted aggressive behavior(s) among school-aged children that:
  - Involves a real or perceived power imbalance
  - Is repeated or has potential to be repeated over time
- Bullying can include threats, rumors, physical or verbal attacks, and purposely excluding someone from a group

*Source: Centers for Disease Control and Prevention (in preparation)*

# Challenges in Defining and Identifying Bullying

- Is the behavior aggressive?
  - Or is it rough play, joking, all in fun?
- What makes something repetitive?
  - What if it is a one-time occurrence?
- What counts as a power imbalance?

## Challenge #1:

**Is the behavior unwanted aggression or is it rough play?**

- Unwanted aggression is when one child uses intentional harmful behaviors – threatened or actual – against another child
- Cues for adults:
  - The relationship between the children and youth
  - Expressions, body language, atmosphere

## Challenge #2: The Question of Repeated Behavior

- The child must either:
  - Experience multiple incidents of aggression (there is a pattern of aggression), OR
  - There is a strong concern that a single aggressive behavior has a high likelihood of being followed by more incidents of aggression

## Challenge #3:

### What constitutes a power imbalance?

- A power imbalance may be characterized by:
  - Physical characteristics
    - Age, size, strength
  - Popularity or association with popular peers
  - Background/demographic characteristics
    - Member of majority/minority group, socio-economic status
  - Abilities and skills
    - Academic, physical, artistic
  - Access to money, resources, information
  - Being outnumbered
  - Presence of weapons

# Bullying and Illegal Behaviors

- Bullying behaviors sometimes cross a legal line
- In 2010, the US Department of Education Office for Civil Rights issued a Dear Colleague letter on harassment and bullying (see [www.StopBullying.gov](http://www.StopBullying.gov))
- School districts may violate students' federal civil rights when:
  - Peer harassment is based on race, color, national origin, sex, or disability
  - The behavior is serious enough that it creates a hostile environment
  - The harassment is encouraged, tolerated, not adequately addressed, or ignored by school employees

# The Many Forms of Bullying

# Bullying May Involve:

- Different Types of Behavior
  - Physical
    - Use of physical force, such as hitting, kicking, using threatening gestures, shoving
  - Verbal
    - Oral or written communication, such as name-calling, graffiti, verbal threats
  - Relational
    - Behaviors designed to harm the reputation and relationships of a targeted child, such as rumor-spreading, posting embarrassing images online, social isolation of peers
  - Damage of Property
    - Theft or destruction of a child's property

*Source: Centers for Disease Control and Prevention (in preparation)*

# Bullying May Involve:

- Direct and indirect behavior:
  - **Direct bullying** is aggressive behavior(s) that are directly communicated to a targeted child (e.g., pushing, verbal taunting, mean text messages)
  - **Indirect bullying** is aggressive behavior(s) that are not directly communicated to the targeted child (e.g., spreading false rumors)

*Source: Centers for Disease Control and Prevention (under review)*

# Cyberbullying and Traditional Bullying

- Cyber or electronic bullying is a form of bullying
- There are differences between cyberbullying and other “traditional” forms of bullying:
  - Difficulty of determining what constitutes *repetition* and *power imbalance* online
  - Frequency
  - Disinhibition
  - Accessibility

# Ten Key Findings About Bullying

**Finding #1:**  
Many Children  
Are Involved In Bullying

# How many children and youth are bullied?

- **20%** of high school students were bullied on school property at least once in the previous 12 months (Centers for Disease Control and Prevention, 2009)
- **28%** of students ages 12-18 were bullied at school during the 2008/2009 school year

*(National Center for Educational Statistics, 2011)*

# How are children and youth bullied?

- Forms of bullying at school (*NCES, 2011*)
  - 19% made fun of, called names, or insulted
  - 17% subject of rumors
  - 9% pushed, shoved, tripped, spit on
  - 6% threatened with harm
  - 5% excluded from activities on purpose
  - 4% forced to do things they didn't want to do
  - 3% had property destroyed
- 6% of students ages 12-18 had been cyberbullied (anywhere) during the 2008/2009 school year (*NCVS, 2009*)

# How likely are children and youth to bully others?

Source: Olweus & Limber (2010)

# The Many Roles Children & Youth Play in Bullying

- Bullying is best understood as a group phenomenon, in which children and youth may play a variety of roles, including those who:
  - Initiate the bullying
  - Join in the bullying
  - Support/appreciate the bullying but don't join in
  - Observe the bullying but are disengaged
  - Dislike the bullying, but don't act
  - Try to help

## **Finding #2:**

**There are Similarities and Differences Among Boys and Girls in Their Experiences With Bullying**

# Boys' and Girls' Experiences of Being Bullied

- There are not vast differences in the percentages of boys and girls who are bullied
- Boys are typically bullied by boys; girls are bullied by boys *and* girls

## % Bullied in Grades 6-12 (NCES, 2009)

# Differences in the Types of Bullying Experienced by Boys and Girls *(NCES, 2011)*

# Gender Differences in the Frequency with Which Boys and Girls Bully Others

- Most studies find that boys are more likely than girls to bully their peers. On average, boys are:
  - 1.7x as likely to bully
  - 2.5x as likely to bully and also be bullied (bully-victims)

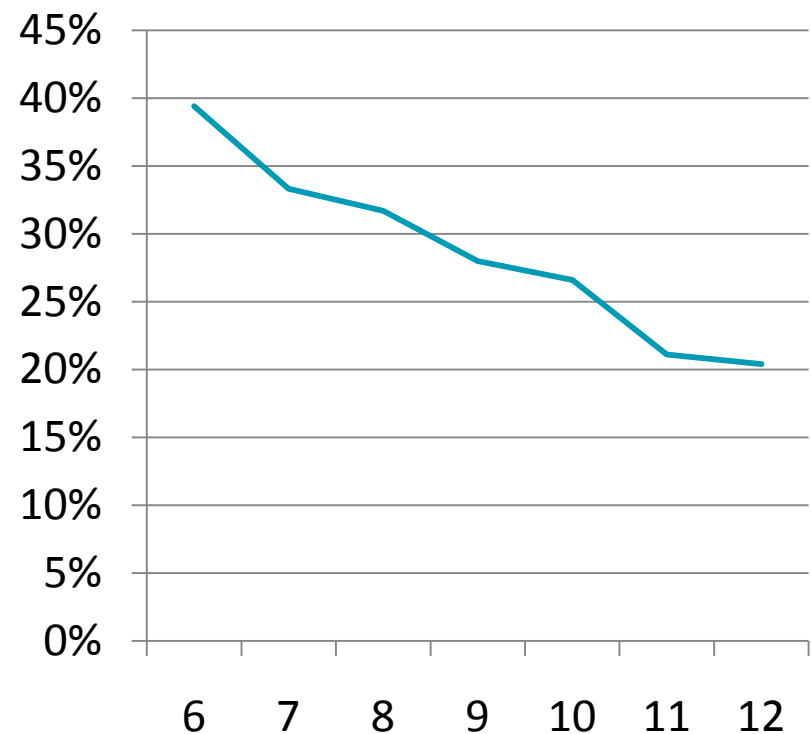

# Finding #3:

## Children's Experiences with Bullying Vary by Age

# Age Trends in the Frequency of Being Bullied

- Children are most likely to be bullied in elementary grades
- The likelihood decreases through middle school and high school

**% Bullied in Grades 6-12  
(NCES, 2011)**

# Age Trends in the Type of Bullying Experienced (NCVS, 2009)

# Age Trends in the Frequency of Bullying Others

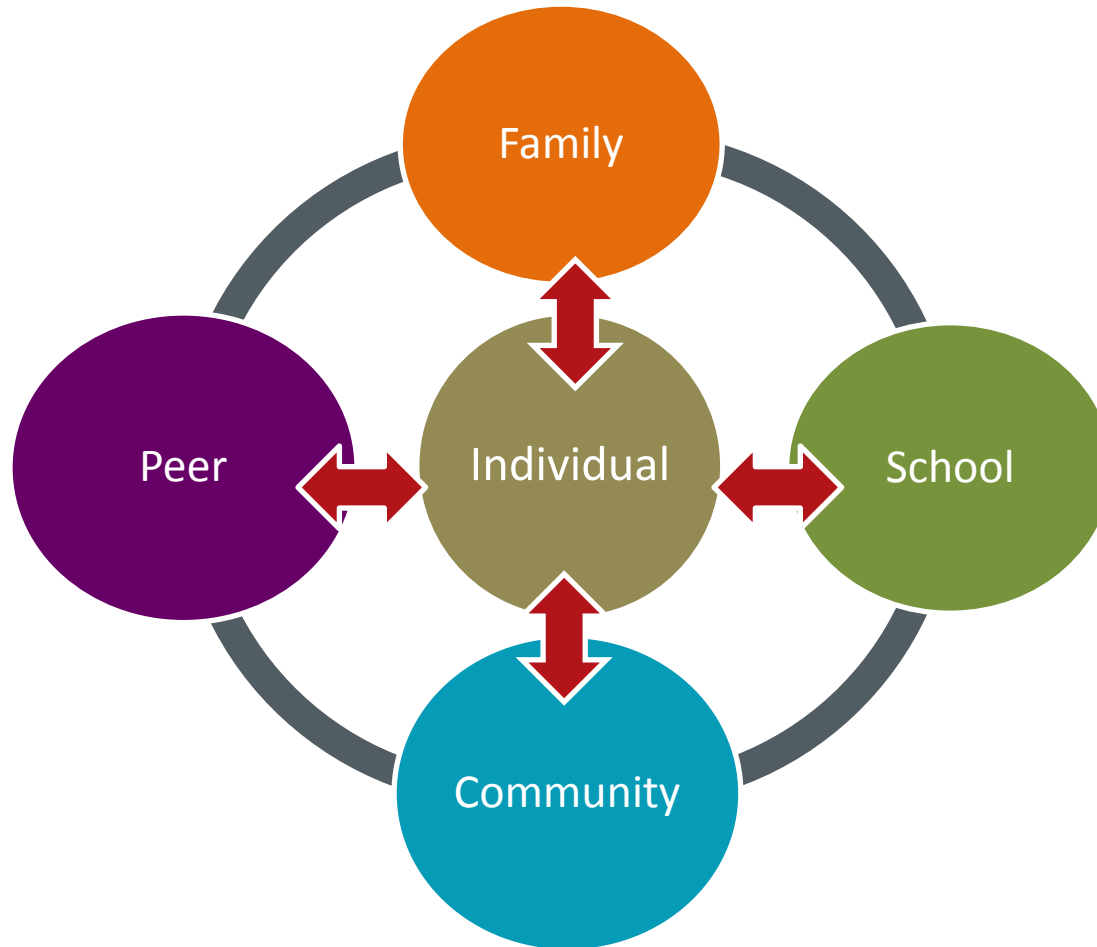

Source: Olweus & Limber (2010)

# Finding #4:

## There Are Multiple Risk Factors for Bullying

# Risk Factors for Bullying

# Examples of **Individual Factors** Related to Involvement in Bullying

- Temperament
- Social competence
- Alcohol and drug use
- Depression
- Presence of a disability
- Sexual orientation

# Examples of **Peer Factors** Related to Involvement in Bullying

- Exposure to aggressive, violent, delinquent peers
- Having at least one close friend
- Support from peers

# Examples of **Family Factors** Related to Involvement in Bullying

- Parental engagement
- Parental conflict, use of drugs & alcohol
- Domestic violence
- Parenting style
- Child maltreatment

# Examples of **School Factors** Related to Involvement in Bullying

- School climate
  - Students' sense of belonging to the school
  - Degree of respect and fair treatment
- Good adult supervision
- Awareness and responsiveness of staff

# Examples of **Community** Factors Related to Involvement in Bullying

- Neighborhood safety
- Connection to adults in neighborhood

## Finding #5:

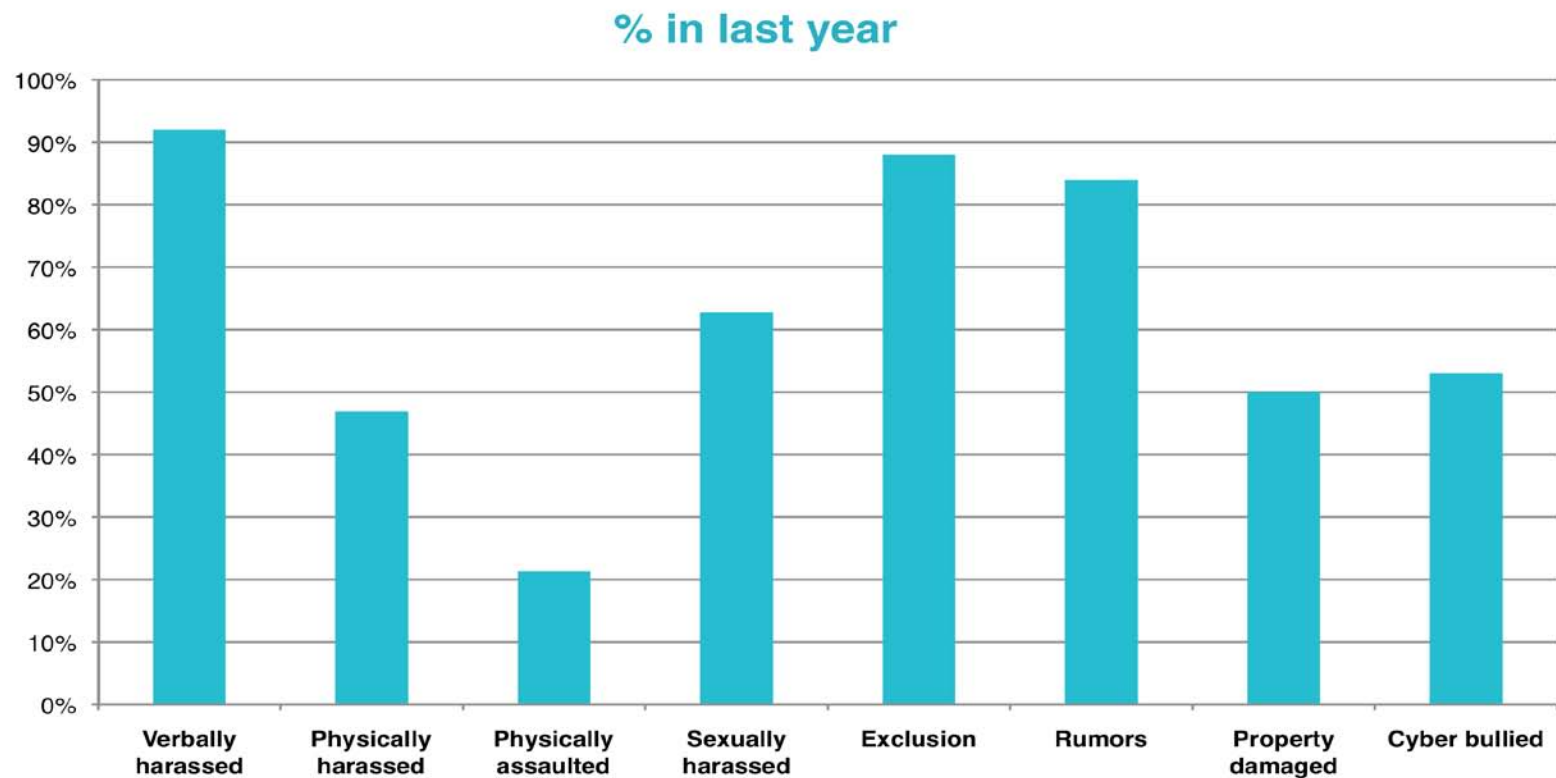

Although Any Child May  
be Targeted, Some Are at  
Particular Risk of Being Bullied

# Children and Youth At Higher Risk for Being Bullied

- Those who:
  - Have learning disabilities
  - Have Attention Deficit Hyperactivity Disorder (ADHD)
  - Have Autism Spectrum Disorder (ASD)
  - Have special health care needs or chronic diseases
  - Are overweight or underweight
  - Speak another language at home
  - Are questioning their sexual orientation or who are lesbian, gay, bisexual, or transgender
  - However, even if a child has these risk factors, it doesn't mean that they will be bullied

# Harassment and Assault at School Among LGBTQ Students

*2009 National School Climate Survey*

## **Finding #6:**

**Bullying Can Affect the Health,  
Mental Health, and Academic  
Well-Being of Children  
Who are Targeted**

# Mental Health Consequences

- Children who are bullied experience:
  - Lower self-esteem
  - Greater loneliness
  - Greater anxiety
  - More depression
- Bullying leads to later internalizing problems
- These problems also “invite” further bullying by peers.

# Bullying and Risk of Suicide

- Bullied children & youth are more likely than non-bullied peers to have:
  - Depressive symptoms
  - Harmed themselves
  - High levels of suicidal thoughts
  - Attempted suicide
  - Remember to always be aware of the warning signs and if someone you know is in suicidal crisis or emotional distress, please call 1-800-273-TALK (8255). Find out more information regarding warning signs and risk factors at [www.suicidepreventionlifeline.org](http://www.suicidepreventionlifeline.org).

# Key Studies of Bullying and Suicide

- Klomek et al.'s (2008) study of high school students
  - Frequent exposure to direct and indirect bullying was associated with depression, suicidal thoughts, and attempts.
  - The more types of bullying experienced, the higher the risk

# Key Studies of Bullying and Suicide

- Hinduja & Patchin's (2010) study of middle school students
  - Youth involved in traditional bullying or cyberbullying had more suicidal thoughts and attempts than others
  - Those who had been bullied were at higher risk
  - Children's experience of being bullied is one of many factors that place a child at risk for suicide

# Health Consequences of Bullying

- Children and youth who are involved in bullying are more likely to experience psychosomatic problems:
  - Headaches, backaches, stomach pain, sleep problems, poor appetite, bed-wetting
- The highest risks are for children who are bullied and those who are “bully-victims”

# Academic Consequences of Bullying

- Children and youth who are bullied are more likely to:
  - Want to avoid school
  - Have lower academic achievement
- Several longitudinal studies suggest that children's experiences of being rejected by peers or bullied in other ways may lead to lowered academic achievement

# Finding #7:

Children Who Bully Are More Likely Than Others to Be Engaged in Other Antisocial Behavior

# Concern for Children and Youth Who Bully

- Children and youth who bully others are more likely than their peers to:
  - Exhibit delinquent behaviors
  - Dislike school, drop out of school
  - Drink alcohol and smoke
  - Hold beliefs supportive of violence
  - Bring weapons to school
  - Think of suicide and attempt suicide

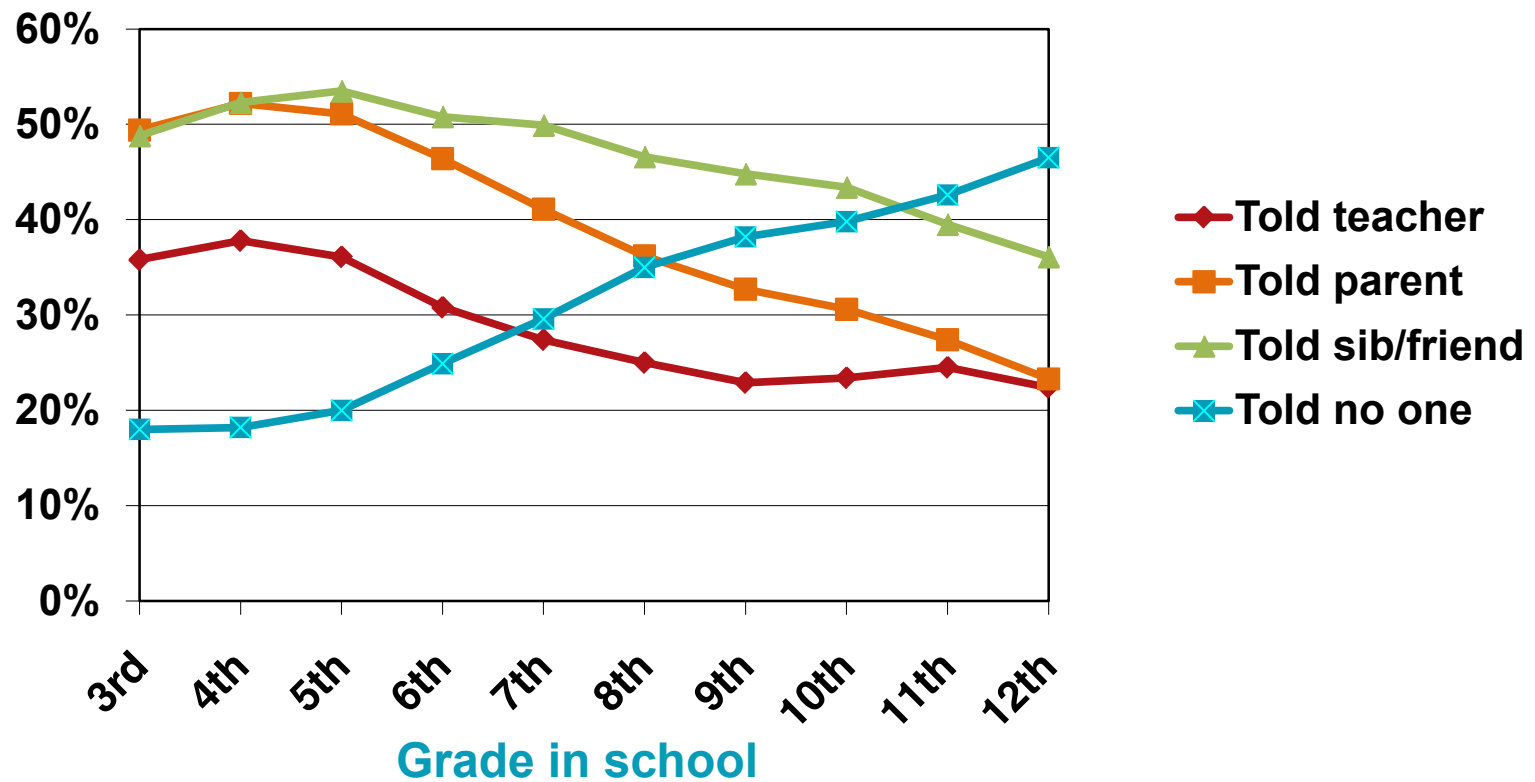

**Finding #8:**  
Many Children  
Do Not Report Bullying  
Experiences to Adults

# Likelihood of Reporting

- **50-75%** of children and youth do not tell school personnel, are a bit more likely to tell parents
- Varies by age and gender
  - Older youth and boys are most reluctant to report bullying

# Percentage of Bullied Children & Youth Who Have Reported Being Bullied

Source: Olweus & Limber (2010)

# Why are children & youth reluctant to report being bullied?

- Negative messages about “tattling” and “snitching”
- Concern about retaliation
- Gender stereotypes
- Lack of confidence in adults’ actions

**Finding #9:**  
Many Children and Youth  
Are Concerned About Bullying

# Peers' Feelings and Attitudes About Bullying

- Most children & youth have negative feelings about bullying and feel sympathy for bullied peers
  - 90% of elementary students said they felt sorry for students who are bullied
  - Sympathy is somewhat greater among younger children and girls

# Peers' Actions as Witnesses

- Sympathy often does not translate into action
- When bystanders try to help a bullied child, they are often effective in stopping it
- Younger children and girls are more likely to indicate that they:
  - Report bullying
  - Respond directly to help
  - Tell an aggressor to stop

**Finding #10:**  
A Variety of Laws in the U.S.  
Address Bullying

# Federal Laws and Bullying and Harassment

- Schools that receive federal funding must address discrimination based on a number of different personal characteristics
  - Title VI of the Civil Rights Act of 1964 prohibits discrimination based on race, color, or national origin
  - Title IX of the Education Amendments of 1972 prohibits discrimination based on sex
  - Section 504 of the Rehabilitation Act of 1973 and Title II of the ADA (1990) prohibits discrimination based on disability

# School Districts and Federal Civil Rights

- School districts may violate federal civil rights laws when:
  - Peer harassment based on race, color, national origin, sex, or disability is sufficiently serious that it creates a hostile environment, and
  - The harassment is encouraged, tolerated, not adequately addressed, or ignored by school employees

# State Laws and Bullying

- State and local lawmakers have taken action to prevent bullying and protect children.
- Through laws (in their state education codes and elsewhere) and model policies (that provide guidance to districts and schools), each state addresses bullying differently.

# Provisions of State Laws

- Almost all require school districts to develop policies on bullying
- Most define bullying (but do so differently)
- Common required or suggested elements in school policies:
  - Responsibilities for reporting and investigating bullying incidents
  - Consequences or sanctions for students who bully
  - Communication of policy to students, parents, staff
  - Education and/or prevention

# Best Practices in Bullying Prevention & Response

# #1: Focus on the Social Climate

- Bullying prevention requires changes in social climates
  - Changes in attitudes, norms, and behaviors takes time and commitment
- Creating safe and caring places for youth involves a comprehensive effort on the part of everyone

## #2: Conduct Community-Wide Bullying Assessments

- Collect local data on bullying, climates, and the extent of youth violence
- Use the data to:
  - raise awareness, monitor where bullying is happening, evaluate the need for training, tailor programs to meet needs, measure efforts
- Assess perspectives of youth, parents, school staff and other youth-serving professionals
- Ensure that procedures are consistent with FERPA and PPRA

## #3: Seek Out Support for Bullying Prevention

- Early and enthusiastic support is critical from leaders of schools and youth programs
- Commitment from a majority of the staff is also important
  - School-based efforts have found that committed teachers are more likely to fully implement bullying prevention programs

## #4: Coordinate and Integrate Prevention Efforts

- Bullying prevention should be coordinated and integrated with other efforts
- A coordinating group or committee will help inform decisions on ways to combine, coordinate, or adopt strategies
  - School groups, such as safety committees represent the entire staff, parents, community volunteers, and youth leaders
  - Community groups may include representatives from many disciplines and partnering agencies

## #5: Provide Training in Bullying Prevention and Response

- Adults must understand the nature of bullying, its effects and how to prevent bullying, which includes effective policies and rules
- They also need direction and the skills to:
  - Stop bullying on the spot
  - Follow up routinely with youth involved in bullying and, if warranted, with their parents

## #6: Set Policies and Rules

- Consider establishing and enforcing rules and policies that address bullying
- Rules should apply to all children, set standards for behavior and cover a focused set of expected positive behaviors
- Follow up with positive and negative consequences

## #7: Increase Adult Supervision

- Focus on “hot spots” for bullying from previous incidents and reports by youth
- All adults should be on the lookout and know how to investigate bullying when suspected

## #8: Respond Consistently and Appropriately When Bullying Happens

- All staff should be prepared to respond appropriately and on-the-spot whenever they observe bullying
- Follow-up responses are often needed with involved students and parents
- Referrals to mental health professionals within or outside of school settings may be needed

## #9: Spend Time Talking with Children & Youth About Bullying

- Talking about bullying and its prevention helps youth to read social cues, appreciate differences, be understanding, and self-reflect
- Discussing bullying also helps staff gain insights and build trusting relationships with students
- Lessons about bullying, positive behaviors, and social-emotional skills can be incorporated in a school's curriculum

## #10: Continue Efforts Over Time and Renew Community Interests

- Bullying prevention should have no “end date”
- Communities need to continually assess prevention needs and outcomes, revise strategies and programs, and champion the benefits in children’s lives and to the community

# Misdirections in Bullying Prevention & Response

# Misdirections in Bullying Prevention & Response

- Zero Tolerance
- Conflict Resolution & Peer Mediation
- Group Therapeutic Treatment
- Overstating or Simplifying the Relationship Between Bullying and Suicide
- Simple, Short-Term Solutions
  - May help to raise interest and awareness and/or represent solid initial steps toward a more comprehensive plan.
  - But, should not be ends in and of themselves.

# Misdirections in Bullying Prevention & Response

Please visit [www.StopBullying.gov](http://www.StopBullying.gov) to watch this video

# **CASE STUDIES:**

## **Approaches to Consider in Bullying Prevention & Response**

**Project Change and FBI Community Outreach**

# Project Change: You Have The Power!

- A youth/adult nonprofit organization dedicated to promoting positive youth development through leadership experiences, quality community service, and safe and drug-free social activities
- Teen mentors work with younger students (middle and elementary) after school to raise awareness about bullying's characteristics, risks, and consequences
- Teen mentors help younger children learn about bullying prevention and develop projects to bring this valuable information to their schoolmates

# Project Change: You Have The Power!

## THE ACTION PLAN

- Work with an adult facilitator to coordinate with high school, middle school, and elementary school principals on setting up an after-school agreement
- Train high school teen mentors
- Recruit younger students for the bullying prevention group and begin holding meetings

# Project Change: You Have The Power!

## THE ACTION PLAN

- Establish an environment of confidentiality, safety, and tolerance
- Use federal resources to teach younger kids lessons about bullying
- Determine goals and an action plan (including video, a school assembly, and a bullying prevention-themed school spirit week)
- Present the final project to the school
- Evaluate and create a plan to continue the initiative next semester or school year

# An Approach to Consider

## Project Change

- Led by students with help from adults
  - Working with an adult advisor, youth take ownership of ending bullying in their schools and community
- Used HRSA materials to provide research base
  - Students access the latest statistics and response strategies through the federal website, [www.StopBullying.gov](http://www.StopBullying.gov)
- Created a plan where trainings lead to sustainable program
  - Middle school youth who work on a project may become mentors when they enter high school

# An Approach to Consider

## Project Change

- Expanded the trainings and scaled up
  - Starting in a single school, the project is expanding to schools within the district
  - Project Change created a toolkit documenting their methods to sustain & build on their youth leadership model over time

# FBI Community Outreach

- Began in Buffalo, NY, and expanded to a national initiative
- FBI Community Outreach Specialist, Vanita Evans received requests to assist the community in preventing and responding to bullying

# FBI Community Outreach

## THE ACTION PLAN

- Partner with a local cinema on opening weekend of a popular youth-focused movie
- Contact the federal government for assistance with resources to distribute, including DVDs, flyers, and Activities Guides

# FBI Community Outreach

## THE ACTION PLAN

- Recruit volunteers to staff an information table
- Communicate with parents and youth on bullying and identify advocates for future outreach
- Share success stories with colleagues in a national network of Community Outreach Specialists

# An Approach to Consider

## FBI Community Outreach

- Invited local business to play a role by donating space and snacks
  - Showing support for an important issue like bullying prevention benefits local business owners
- Made it youth-focused and held it in a fun environment
  - Cinema provided a built-in audience that matches the target age group
- Contacted HRSA for resources to leverage free, federal, research-based materials
  - Made possible by dialing 1.888.ASK. HRSA

# An Approach to Consider

## FBI Community Outreach

- Scaled up to a national initiative by sharing the approach with others
  - Vanita's colleagues across the country have held similar events and distributed resources to concerned parents and leaders in local communities

# Action Planning & Group Brainstorm

# Action Planning

- The **Action Planning Matrix**, which is included in the **Community Action Toolkit**, is designed to help participants at your community event understand the roles played by different stakeholders in successful bullying prevention and awareness efforts

# Stakeholder Brainstorm

- The first section includes a list of the many stakeholders you will want to consider engaging in your bullying effort, including:
  - Elected Officials/Community Leaders
  - Health & Safety Professionals
  - Law Enforcement Officials
  - Child Care/After-School & Out-of-School Professionals
  - Faith Leaders
  - Corporate & Business Professionals
  - Mental Health & Social Service Professionals
  - Educators (including Special Education Professionals)
  - Parents & Caregivers
  - Youth Leaders Organization Members
  - City/County Recreation Professionals
  - Others?

# Action Planning Matrix

- The second section includes the action steps that individuals and organizations can take to address bullying in their communities
- Action steps are divided into two categories:
  - **Awareness Raising:** Steps to raise awareness about the impact of bullying and best practices
  - **Prevention & Response:** Steps to take action through prevention and response methods

# Awareness Raising Action Steps

- Examples of **Awareness Raising** action steps include:
  - Hold an anti-bullying day in schools
  - Create a local fund for businesses to support bullying prevention
  - Create a community newsletter
  - Provide information on state/local bullying laws
  - Create an interfaith alliance
  - Host a town hall or community event
  - Submit op-eds and letters to the editor to local media
  - Help youth develop a media campaign
  - Hold a PSA contest
  - Others?

# Prevention & Response Action Steps

- Examples of **Prevention & Response** action steps include:
  - Develop a taskforce to assess bullying in schools
  - Conduct team building exercises with youth
  - Create a safety plan for children who are bullied
  - Develop screening processes to promote early detection and response
  - Train adults on gathering and using bullying data
  - Develop a follow-up procedure to monitor youth who have been bullied
  - Establish in-school committees
  - Monitor internet activities and mobile devices
  - Sponsor training sessions for adults on best practices in bullying prevention, response, and crisis planning
  - Others?

# Action Planning

- Use the **Action Planning Matrix** to identify and engage audiences listed down the left side of the page
- Determine areas of collaboration and next steps by reading across the top of the page

# Next Steps: Putting What You Learned into Practice

# Developing a Call-to-Action

- Successful bullying prevention and awareness efforts require support from many community stakeholders
- This is why organizing a community event/town hall will be a critical next step in your initiative
- Your event will provide a time to gather all of the stakeholders together to:
  - Kick-off your effort
  - Gain an understanding of the resources and expertise available in your community
  - Identify areas of collaboration
  - Build a timeline
  - **Develop a call-to-action that mobilizes the community**

# Developing a Call-to-Action

- A call-to-action that responds to bullying is multi-faceted
- It will include roles and responsibilities for stakeholders from across the community to contribute resources and expertise toward a common goal: **Effectively preventing and responding to bullying**

# Using the Community Action Toolkit

- This toolkit includes materials that will give you everything you need to put the research, ideas, and bullying prevention and response strategies into practice in your communities, including tools for:
  - Community Event Planning
  - Community Event Action
  - Community Event Follow-Up

# Using the Community Action Toolkit

- Specifically, the Community Action Toolkit includes:
  - Community Event Planning Tools
    - Landscape Assessment
    - Template Community Event Agenda
    - Community Engagement Tip Sheet
    - Guide to Mobilizing Communities in Bullying Prevention
  - Community Event Action Resources
    - Action Planning Matrix
    - Tips for Working with the Media
    - Bullying and Suicide: Cautionary Notes
  - Community Event Follow-Up Materials and Handouts
    - Funding Ideas for Future Bullying Prevention Efforts
    - StopBullying.gov Resources
    - Feedback Forms

# Community Event Planning

- **Landscape Assessment**
  - A tool to help you gain an understanding of how bullying affects your community and current efforts already underway
- **Template Community Event Agenda**
  - A customizable agenda to guide the structure of your event and distribute to participants

# Community Event Planning

- **Community Engagement Tip Sheet**
  - Tips for creating a diverse network of advocates who can support and sustain ongoing efforts in your community
- **Guide to Mobilizing Communities in Bullying Prevention**
  - Checklist of key stakeholders to engage in bullying prevention and response efforts

# Community Event Action

- **Action Planning Matrix**
  - A resource to help identify the action planning steps to address bullying in your community
  - This tool will also help participants understand their roles in preventing and responding to bullying
- **Tips for Working with the Media**
  - A how-to-guide for engaging reporters and promoting the event through local outlets, including newspapers, blogs, radio, and TV
- **Bullying and Suicide: Cautionary Notes**
  - An overview of bullying and suicide issues and approaches to avoid when addressing the topic

# Community Event Follow-Up

- **Funding Ideas for Future Bullying Prevention Efforts**
  - Helpful advice and information on pursuing funding for future bullying prevention efforts
- **StopBullying.gov Resources**
  - A step-by-step guide for efficiently and effectively accessing additional resources on StopBullying.gov
- **Feedback Forms**
  - Tools for understanding the impact of the Module Training and your community effort

# Feedback

# Understanding Our Efforts

- Community-based efforts to create behavioral changes benefit from feedback forms, which can:
  - Document and analyze the development and actual implementation of your strategy
    - What was implemented?
  - Determine how successful you were in achieving your desired outcomes

# Understanding This Effort

- Understanding this effort includes several pieces:
  - A feedback form for you to complete that helps us assess your training and whether the tools we provided you with were effective **(Form A)**
  - A feedback form to complete four months after the training to gain an understanding of how helpful the resources were in meeting your goals **(Form B)**
  - A feedback form for participants at your community event **(Form C)**
  - A four-month follow-up form for participants at community events **(Form D)**

# Feedback from Today's Audience - Form A

- Feedback on your experiences:
  - Satisfaction with the training
  - Strengths and weaknesses of the training module and toolkit
  - Clarity, ease-of-use, and adaptability of the module and toolkit
  - How you think you will use this information to organize a community event
  - Form A is available online at:  
<http://www.surveymonkey.com/s/KFCK7T6>

# Follow-Up Feedback from Today's Audience-Form B

- Four months following the event, we will assess:
  - What steps have been taken in your community post-event to prevent bullying?
  - What opportunities and challenges have been encountered?
  - What additional needs and resources are needed to proceed?
  - Form B is available online at:  
<http://www.surveymonkey.com/s/MCRFCFDB>

# Feedback from Participants at the Community Event-Form C

- Feedback Form for Participants:
  - What they learned about bullying and prevention
  - Clarity and usefulness of information and resources provided
  - Plans to implement their own prevention plans and strategies
  - Form C is available online at:  
<http://www.surveymonkey.com/s/MC26XSW>

# Follow-Up Feedback from Participants at the Community Event-Form D

- Four months following the event, we will assess:
  - What action steps have community members taken to address bullying?
  - What kind of support do community members need to stay engaged and continue their efforts?
  - What are the major challenges and opportunities that their community faces?
  - Form D is available online at:  
<http://www.surveymonkey.com/s/NMHKHL3>

# In Conclusion

- Recap of questions and next steps
- Thank you for participating
- Remember to visit [StopBullying.gov](http://StopBullying.gov) for additional resources
