

# 185<sup>th</sup> ARW Commander's Environmental Strategy

**Brian A. Miller, Colonel, IA ANG  
Commander**

The 185<sup>th</sup> Air Refueling Wing in Sioux City, Iowa is committed to conducting its refueling mission in an environmentally responsible manner that will protect human health, natural resources, and the environment. This commitment goes beyond compliance and encompasses integration of the following sound environmental practices into our daily decisions and activities:

- Committed to comply with applicable federal, state, and local environmental laws and regulations and other requirements;
- Actively seek opportunities for pollution prevention and waste reduction;
- Promote conservation and sustainable use of natural and manmade materials;
- Build environmental concerns into all policies, programs, and missions;
- Strive for continual improvement in our environmental performance, over and above regulatory requirements;
- Set environmental goals, measure progress, and take corrective actions, when necessary; and
- Work in partnership with our employees, suppliers, regulators, and residents of Siouxland communities to promote our commitment to environmental excellence.

Compliance with this Environmental Strategy is the responsibility of every member of the 185<sup>th</sup> Air Refueling Wing and everyone working on behalf of the 185<sup>th</sup> Air Refueling Wing, in accordance with his or her roles and responsibilities within the organization.
