OTCnet 1.2.5 Release Notes

OTCnet 1.2.5 Release Overview

The OTCnet Team has made a number of changes to the OTCnet Online and Offline applications including Check Capture, Check Processing Reports, Check Processing Interface and Confirming Deposits to improve the overall system performance of the OTCnet system.

The sections below define the specific changes that have been implemented in the 1.2.5 Release.

Check Scanning and Processing

Online and Offline Application

Check Capture

- Response time is improved when a user accesses the Automated Terminal Detection function via Batch Management or Check Scan.

Online Application

Check Capture

- Response time is improved when a user selects the Save button on the Check Scan page to save check images and details

Check Processing Reports

- Users are able to expand the organization hierarchy for organizations that have multiple levels (more than 2 levels). The user now can generate the report and view endpoint data at the HLO and lower levels. The impacted reports include CIRA Transmission Summary Report, CIRA Transmission (Detailed) Summary Report, Agency CIR Report, LVD Contents Report, OTC Endpoint Check Cashing Policy Report, OTC Verification Groups Report, Organization Hierarchy Report, 215 Deposit Ticket Report, 5515 Debit Voucher Report and FMS Statistical Report.

Offline Application

Check Capture

- Automated Terminal Detection for offline Check Capture now functions properly when the following Java Security Settings are enabled within the Java Control Panel:
 - Check certificates for revocation using Certificate Revocation Lists (CRLs)
 - Enable online certificate validation

Check Processing Interfaces

- When interfacing with the DDS Database, OTCnet will send an update when closing the batch and when transmitting the batch. The third transmission, which deals with the acknowledgement, will no longer be sent. (Note: This modification is only applicable to the select user groups that use the DDS Database)

OTCnet
Deposits Made SimpleSM

Deposit Processing

Online Application

Confirming Deposits

- Financial Institution Deposit Confirmer users will experience improved performance when completing the following functions during the deposit confirmation process: Search, Search by Voucher Number, View Voucher and View Voucher Event Log.
