Operations Division  
Operations Manager, Completed Works

Mr. Tim Doody  
President  
Southeast Louisiana Flood Protection  
Authority - East  
UNO Technology Park  
CERM Building Room 422  
2045 Lakeshore Drive  
New Orleans, Louisiana 70122

Mr. Garret Graves  
Chairman  
Coastal Protection and Restoration Authority  
Board of Louisiana  
1501 North 3<sup>rd</sup> Street  
Capitol Annex Building  
Baton Rouge, Louisiana 70802

Ms. Marcia St. Martin  
Executive Director  
Sewerage and Water Board of New Orleans  
625 Joseph Street  
New Orleans, Louisiana 70165

Dear Mr. Doody, Mr. Graves, and Ms. St. Martin:

You are hereby informed that the contract for the Lake Pontchartrain and Vicinity (LPV), Hurricane and Storm Damage Risk Reduction System, LPV-104.01a, London Avenue to IHNC Authorized Level (W912P8-09-D-0048, Task Order 0004), in Orleans Parish, Louisiana, has been completed. This project was completed by the United States pursuant to Public Law 109-148, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico and Pandemic Influenza Act, 2006, and Public Law 109-234, Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery 2006.

A final inspection of the project was conducted on November 7, 2012, and all contract work was performed in accordance with the approved plans and specifications and meets the 100-year event design criteria. For operations and maintenance guidance, refer to the interim operation, maintenance, repair, replacement, and rehabilitation (OMRR&R) manual, Volume 1 and

Volume 2, previously provided to you. Please note, Volume 3 of the OMRR&R manual will be provided in the near future which will provide the final OMRR&R information associated with above referenced contract. Please see enclosed the following items:

- a. As-built contract drawings – Enclosure 1
- b. Notification of Contract Completion (NCC) survey data – Enclosure 2
- c. Final inspection attendance roster – Enclosure 3

The punch list items identified during the pre-final inspection have been corrected and inspected by representatives of the Southeast Louisiana Flood Protection Authority - East, the Coastal Protection and Restoration Authority Board of Louisiana (CPRAB), formerly known as Coastal Protection and Restoration Authority (CPRA), and by our office. The Bermuda grass has been established and with proper maintenance should continue to improve in density and root structure.

The NCC survey data includes a table presenting elevations at stations that can be compared to the construction plans. The data represents a centerline profile of the levee and was obtained within 60 days of the date of this letter. The survey data reflects the elevations of the levee are above the elevations required to provide a 100-year level of risk reduction in 2012. The levees were constructed with overbuild to allow for the natural occurrence of settlement and subsidence. The data also represents a centerline profile of the floodwall. The survey data reflects the elevations of the floodgate/floodwall are within the tolerance of the elevations required by the construction plans.

In accordance with the Cooperation Agreement between the Department of the Army and the Southeast Louisiana Flood Protection Authority – East and the Sewerage and Water Board of New Orleans dated February 13, 2007, and the Project Partnership Agreement between the Department of the Army and CPRA (now known as CPRAB) dated September 22, 2008, the Southeast Louisiana Flood Protection Authority - East and CPRAB shall undertake the OMRR&R of this completed project feature of the Lake Pontchartrain and Vicinity, Hurricane and Storm Damage Risk Reduction System in Orleans Parish.

In this connection, maintenance is construed as keeping all completed works in working condition to serve the purpose for which they were designed.

If there are any questions concerning your OMRR&R responsibilities, please call Ms. Amy Powell, Operations Manager, Completed Works, or Ms. Karen Clement, Assistant Operations Manager, Completed Works, at (504) 862-2241 and (504) 862-2313, respectively.

Sincerely,

Edward R. Fleming  
Colonel, US Army  
District Engineer
