Federal Content Manager's Monthly Forum Call

November 15, 2012

Agenda

1. Clearance Requirements
2. Technical Requirements
3. Technical Implementation
4. User Interface of Different Survey Types
5. Demo of the Admin Tool
6. Q&A

Clearance Requirements

- Surveys used in the VOC tool must be cleared by OMB.

- Some agencies have fast-track clearances, so contact your CIO's office.

Technical Requirements

- **Ruby 1.9.3 and Rails 3.0.13** (and a few standard gems)

- **MySQL 5.5.x** but can be modified to work with most databases but untested

- **Two environments:** administrative/back-end interface and end user/survey taker interface

Other Technical Details

- FISMA-compliant architecture
- 508-compliant with ongoing testing and monitoring

Technical Implementation

iFrame	Web Service (AJAX)
• HTML and CSS to style the survey • Javascript	• JSON-P to get the survey contents • Javascript (jQuery) to insert the survey content into the page • CSS to style the survey • JSON-P/Javascript to submit the survey and show results/thank-you page

Different Survey Types

- Site-Level Survey
  - Example: http://www.stopbullying.gov/survey/feedback/index.html
- Page-Level Survey
  - Example: http://www.healthcare.gov/law/full/index.html
- Polls
  - Example: http://comment-app.hhs.gov/surveys/50

QUESTIONS
