GENERAL STATEMENT(S):

See the County Special Provisions document and the County FCI-33, CROP INSURANCE ACTUARIAL MAPS, for determination of high risk or unrated areas.

CROP STATEMENT(S):

Contact your agent regarding possible premium discounts, options, and/or coverage that may be available.

Any acreage in this county with a high rate area designation on the FCI-33 CROP INSURANCE ACTUARIAL MAP/FCI-33 CROP INSURANCE ACTUARIAL SUPPLEMENT will have a rate derived from the actuarial table based on the applicable approved yield and adjusted by the "ADDITIONAL COVERAGE AND HIGH RISK RATES" table, when: 1) the approved yield is based on less than 6 years of actual production history that includes such acreage, or 2) the acreage of the insured crop in the high-risk rate area comprises more than 30% of the acreage in the unit.

SPECIAL PROVISIONS OF INSURANCE
2003 AND SUCCEEDING CROP YEARS

The irrigated practice (002) is applicable to furrow or sprinkler irrigation methods only. Acreage that is irrigated by any other method must be reported and insured as non-irrigated practice (003) unless a written agreement to insure the acreage on an irrigated basis is requested and approved.

The total per acre of fixed costs expenses and land fees expenses may not exceed 50% of the per acre approved yield for the unit times the expected market price.

The increase in covered expenses for determining premium due to replanting is \$20.00 per acre.

The total variable costs expenses may not exceed \$400.00 per acre. If such costs exceed the dollar amount and are less than the expected gross income a request to approve a higher amount may be made to the insurance provider.

INSURANCE AVAILABILITY STATEMENT(S):

The Federal Crop Insurance Corporation (FCIC) makes crop insurance available for all producers, regardless of race, color, national origin, religion, sex, age, or handicap.
