## Relative Unemployment Rates in Appalachia, 2008 (County Rates as a Percentage of the U.S. Average)

An unemployment rate is the number of unemployed persons as a percentage of the civilian labor force. The percent of the U.S. average is computed by dividing the county unemployment rate by the national average and multiplying by 100 . The map uses critical breaks such as the national average to organize the data into groups of common values.

|  | Percent of the U.S. Average <br>  <br> U.S. average $=5.8 \%$ |
