Preface	iii
The Interviewer	iv
Jacob H. Douma: Biographical Sketch and Career Information	vii
Childhood
University of California at Berkeley	4
Waterways Experiment Station	12
Bureau of Reclamation	20
Los Angeles Engineer District	32
Wolf Creek Dam, Nashville District	32
Hydraulic Engineer	34
Flood Control Dams and Channels	34
Los Angeles District during World War II	37
Los Angeles District Personnel	40
Involvement in Professional Engineering Organizations	43
Tujunga Wash Flood Channel	44
Visit of Lt. Gen. Wheeler and Gail Hathaway	46
Structural Branch, Engineering Division, Civil Works, Office of the Chief of Engineers	47
Pine Flat, Fort Randall, Garrison, and Oahe Dams	51
Ohio River Locks and Dams	54
Dams on the Columbia and Snake Rivers	56
Improvements in Modeling	58
Design Criteria	59
Engineering Division, Civil Works, OCE	62
Hydraulics and Hydrology Branch, OCE	64
Coastal Engineering	66
Committees on Tidal Hydraulics and Channel Stabilization	69
Committee on Streambank Erosion	73
Retirement	74
Consulting Work	76
Tarbela Dam, Pakistan	76
Reza Shah Kabir Dam, Iran	78
Pardee Dam, East Bay Municipal Utility District (EBMUD)	81
Rafferty Dam, Canada	83
Susitna Dam, Alaska	87
Horse Mesa Dam	88
National Academy of Engineering	90
Environment and Engineering in the 1970's	91

Computer Modeling	94
Impact of New Technology	95
Cavitation Erosion	97
Design Considerations: Spillway Gates	98
Miscellaneous Civil Works Projects	103
Old River Control Structure	103
Sacramento-San Joaquin River System	105
Tunnel and Reservoir Project (Chicago)	105
Passamaquoddy Tidal Power Project	106
Bonne Carré Spillway	106
Jetties at the Mouth of the Columbia River	107
Head of Passes, Mississippi River	109
Humboldt Bay Jetties	109
Most Difficult Hydraulic Engineering Problem: Mica Dam	110
Glossary	113
