

**ADJUSTED  
GROSS  
REVENUE-LITE  
STANDARDS  
HANDBOOK**

**Effective for 2005 and Succeeding Insurance Years**

**Rev. November 2004**

## **Adjusted Gross Revenue-Lite (AGR-Lite) Standards**

### **Effective for 2005 and Succeeding Crop Years**

The Adjusted Gross Revenue Standards Handbook applies to AGR-Lite except as noted below.

1. The AGR-Lite insurance plan code is *61*.
2. The AGR-Lite insurance crop code is *0061*.
3. The AGR-Lite program is available in the states of *AK, CT, DE, ID, MA, ME, MD, NC, NH, NJ, NY, OR, PA, RI, VT, WA*, and *WV*. See Exhibit 1 for a list of approved states and counties and Exhibit 2 for the commodity codes applicable to each county.
4. Enter “-Lite” after AGR in the headings of all forms.
5. Producers may not purchase AGR if they purchase AGR-Lite.
6. Producers have the option, but are not required, to purchase other crop insurance plans provided by the Act (except AGR).
7. There is no limitation on the percentage of animal receipts. Therefore, animal receipts may constitute up to 100 percent of the farm sales. However, since RMA has a legislatively limited annual allocation for animal and animal product expenses, insurance may be denied if the allocation for animals and animal products becomes exhausted.
8. The producer must make IRS income tax records for the previous 5 years available for inspection at the time of enrollment to substantiate the five-year income and expense history for AGR-Lite. These records must also be available for inspection upon request by authorized individuals. In the event that a claim is filed, hard copies of these tax forms and any amendments must be provided to us.
9. If the producer purchases either the 75 percent or 80 percent levels of coverage, the historical information required to complete the Agricultural Commodity Profile Reports must be provided for the most recent 2 years used to calculate the AGR-Lite history.
10. An AGR-Lite Histories Calculation Worksheet is provided to transfer the appropriate information from the IRS Schedule F 1040 (for the 5 year histories). This form should be completed according to the instructions provided herein and should be kept in the company’s files.
11. An Actual Commodity Report is provided to record actual farm commodity experience for the year. This form must be completed if an indemnity is to be paid. The adjuster should complete the worksheet according to the instructions provided herein.
12. If an indemnity is to be paid, copies of the tax forms (specifically IRS Schedule F 1040 or other IRS Schedules that contain allowable income and expense information) used to calculate the 5-year histories and the year of the claim must be secured and accompany claim forms.
13. Although IRS Schedule F 1040 is heavily referenced, the policy and the AGR Standards Handbook provide broad authority to use a variety of tax forms when necessary to capture allowable farm income.
14. See Exhibit 3 (page 68) for a list of items required at time of application and for annual policy renewal.

COLLECTION OF INFORMATION AND DATA (PRIVACY ACT)

To the extent that the information requested herein relates to your individual capacity as opposed to your business capacity, the following statements are made in accordance with the Privacy Act of 1974, as amended (5 U.S.C. 5521a). The authority for requesting information to be furnished on this form is the Federal Crop Insurance Act, (7 U.S.C. 1501 et seq.) and the Federal crop insurance regulations contained in 7 C.F.R. chapters IV.

Collection of the social security account number (SSN) or the employer identification number (EIN) is authorized by section 506 of the Federal Crop Insurance Act (7 U.S.C. 1506), and is required as a condition of eligibility for participation in Federal crop insurance program. The primary use of the SSN or EIN is voluntary; however, failure to furnish that number will result in denial of program participation and benefits.

The balance of the information requested is necessary for the insurance company and FCIC to process this form to: provide insurance; provide reinsurance; determine eligibility; determine the correct parties to the agreement; determine and collect premiums or other monetary amounts (including administrative fees and over payments); and pay benefits. The information furnished on this form will be used by Federal agencies, FCIC employees, insurance companies, and contractors who require such information in the performance of their duties. The information may be furnished to: FCIC contract agencies, employees and loss adjusters; reinsured companies; other agencies with the United States Department of Agriculture; The Department of Treasury including the Internal Revenue Service; the Department of Justice, or other Federal or State law enforcement agencies; credit reporting agencies and collection agencies; other Federal agencies as requested in computer matching programs; and in response judicial orders in the course of litigation. The information may also be furnished to congressional representatives and senators making inquiries on your behalf. Furnishing the information required by this form is voluntary; however, failure to report the correct and complete information requested may result in rejection of this form; rejection of any claim for indemnity, replanting payment, or other benefit, ineligibility for insurance; and a unilateral determination of any monetary amounts due.

NONDISCRIMINATION STATEMENT

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington D.C. 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

**AGR-Lite Histories Calculation Worksheet Completion Instructions**  
Verify or make the following entries.

**HEADING**

**Item   Information Required**

- A.   **IRS Accounting Method?:** The accounting method (*cash* or *accrual*) used to file income taxes with the IRS for the insurance year.
- B.   **Insurance Year:** The current insurance year (e.g., 2005). For a fiscal tax year, also enter the month and year the fiscal year begins and the month and year the fiscal year ends (e.g., 5/2005 – 4/2006).
- C.   **Producer Information:** The *name* of the insured that identifies exactly the person (a legal entity which must be the same as for income tax purposes) for whom the Farm Report is completed. Enter the insured's complete *address* and *telephone number*. Enter the *social security number* or the *tax identification number* for the entity. Enter the *type of tax entity* (sole proprietor, partnership, a corporation, estate, trust, etc.). Enter the insured's assigned *policy number* (applicable if a carryover policy).
- D.   **Agency Information:** The *name, address, telephone number, and code number* of the agent that provides insurance service to the insured.
- E.   **State(s) and County(ies):** Enter the applicable state and county or independent city and codes in which agricultural commodities will be produced that are expected to generate allowable income. [See Part 3, Section 20, Par. (B) for complete instructions.]
- F.   **Other Insurance:** Enter the *commodities* on which other insurance policies are in force and the corresponding *policy numbers* (if applicable).

**PART I INCOME**

- G.   **Tax Year(s):** Enter the IRS tax years, in the top box of each column under Item G corresponding to the allowable income and allowable expenses for each tax year reported for AGR history purposes (e.g., for 2005 insurance year, enter 2003, 2002, 2001, 2000, 1999). Five tax years are required to document the historic revenue. Entities, in the business of farming, that do not file the Schedule F for tax purposes must complete substitute Forms Schedule F to be eligible for AGR-Lite coverage. This is necessary to account for allowable income and expenses in the same manner as producers who file the Schedule F form.
- 1040F Line #:** Enter the allowable income (rounded to the nearest whole dollar) taken from the applicable IRS tax records for each tax year. More detailed instructions are provided in the AGR Standards Handbook, Sections 6 and 19. If allowable income is reported on other lines or on other schedule forms, it may be utilized (see AGR-Lite Policy, Section 1 – Allowable Income).
- H.   **Allowable Income:** Total the columns for each tax year.

I. **Indexing calculations (if applicable):** (*Calculations of AGR*)

*Preliminary Adjusted AGR:* Agents must calculate and enter preliminary AGRs on the Farm report for new insureds. Preliminary AGRs are necessary to provide applicants with estimated premium and estimated coverage that will be provided. The preliminary AGR is calculated using the same procedures as used to calculate the approved AGR. The approved AGR must be issued by the insurance provider verifier. If the approved AGR is less than 95 percent of the preliminary AGR, the insured may submit a written request for reconsideration or request mutual cancellation of the AGR policy. Such requests must be made within 30 calendar days of the date the approved AGR was mailed or was otherwise made available to the insured.

*Indexed average AGRs (if applicable):* Indexed average AGRs may be calculated for operations with increasing revenue and may increase the effective coverage. To qualify for indexing: 1) at least one of the two most recent tax year's allowable income (in the AGR base period) must be greater than the average AGR, and 2) the insurance year's total expected income (Item 18, Intended Agricultural Commodity Report) indicated on the Annual Farm Report, as approved by the insurance provider, must be greater than the average AGR. Note: If the income trend factor is greater than 1.000, average expenses must be indexed in the same manner.

Calculate indexed average AGR as follows. (Note: The premium calculator on the RMA Web Page automatically calculates the indexes.)

Step 1: Divide each tax year's allowable income, (line H) for each year by the preceding tax year's allowable income and round to three decimal places. The factor may not exceed 1.200 (20% cap) or be less than .800 (20% cup).

*Example:* (2000's allowable income \$110,000) ÷ (1999's allowable income 100,000) = 1.100

(2001's allowable income \$134,000) ÷ (2000's allowable income \$110,000) = 1.218 (capped at 1.200)

*Capping Example:* If 2000's allowable income was \$70,000 ÷ 1999's allowable income was \$100,000 = .700 would be capped at .800.

Step 2: Total the results obtained in Step 1, divide by four, rounding to three decimal places. Multiply the result by itself three times (fourth power). The index is capped at 1.000 so will never be lower than one.

*Example:* (1.100 + 1.200 + 0.900 + 1.200) ÷ 4 = 1.100<sup>4</sup> = 1.464

Step 3: Multiply the income trend factor obtained in Step 2 times the average AGR and round to the nearest dollar.

*Example:* Average AGR \$121,920 X 1.464 = \$178,490

J. **5-Year Total Adjusted AGR:** Total the annual income for the 5 years (add line H across).

K. **5-Year Average Preliminary Adjusted AGR:** Calculate the average AGR by dividing Item J by 5.

L. **AGR Index Factor:** Calculate this factor according to the instructions in I, Steps 1 and 2, above. (The factor in example above is 1.464.)

M. **Indexed Adjusted Preliminary AGR (if applicable):** Calculate by multiplying the entries on lines K times L.

## **PART II EXPENSES**

N. **Tax Year(s):** Repeat the entries shown under Part I, item G, above at the top of each column. (For 2005 insurance year, enter 2003, 2002, 2001, 2000, 1999).

**1040F Line #:** Enter the expense information for each line for each year (rounded to the nearest whole dollar) from applicable IRS tax records. More detailed instructions are provided in the AGR Standards Handbook. The allowable expenses for five consecutive tax years are used to calculate the average allowable expenses. Allowable expenses that are incurred but not shown on tax forms because they are already subtracted from income (producer reported net sales income) will be used to calculate approved expenses and allowable expenses for the insurance year.

O. **Subtotal (line 35 plus Part I line 2):** Calculate the subtotal for each year by adding the two lines above line O.

P. **Subtotal (lines 16 through 31):** Total lines 16 through 31 of each column.

Q. **Allowable expenses (line O minus line P):** Subtract line P from line O in each column.

R. **Indexing calculation (if applicable):**

Step 1: Divide each tax year's allowable expenses (line Q) by the preceding tax year's allowable expenses and round to three decimal places. The factor may not exceed 1.200 (20% cap) or be less than .800 (20% cup).

*Example:* (2000's allowable expenses are \$95,000) ÷ (1999's allowable expenses are \$93,500) = 1.016  
(2001's allowable expenses \$107,200) ÷ (2000's allowable expenses \$95,000) = 1.129, and etc.

*Capping Example:* If 2000's expenses were \$70,000 ÷ 1999's allowable expenses were \$93,500 = .749 would be capped at .800.

Step 2: Total the results obtained in Step 1, divide by four, and round to three decimal places. Multiply the result by itself three times (fourth power).

*Example:* (1.016 + 1.129 + 0.950 + 1.200 = 4.295) ÷ 4 = 1.074<sup>4</sup> = 1.331

Step 3: Multiply the expense trend factor obtained in Step 2 times the average allowable expenses and round to the nearest dollar.

*Example:* Average allowable expenses \$103,632 X 1.331 = \$137,934

**Indexed expenses (if the approved AGR is based on indexing):**

Calculate indexed average expenses as follows: (Note: The premium calculator on the RMA Web Page automatically calculates the indexes.)

*Factored down* if the approved AGR is less than the average allowable income. The average of the allowable expenses is multiplied by the factor (to three decimal places) resulting from dividing the approved AGR by the average of the allowable income.

*Example:* If the approved AGR is \$80,000, the average allowable income is \$100,000, and the average allowable expenses are \$90,000, the approved expenses are: \$90,000 X (\$80,000 ÷ \$100,000) = \$72,000.

Factored up if eligible for indexed AGR and the approved AGR is greater than the average allowable income and less than the indexed AGR. The average allowable expenses are multiplied by the factor (to three decimal places) resulting from dividing the approved AGR by the average of the allowable income.

*Example:* If the approved AGR is \$120,000, the average allowable income is \$100,000, and the indexed AGR is \$146,400, and the average allowable expenses is \$90,000; the approved expenses are  $\$90,000 \times (\$120,000 \div \$100,000) = \$108,000$ .

Issuance of Approved AGR: The approved AGR is issued by the insurance provider (verifier) and is used to calculate the insured's AGR coverage and premium. The agent's calculation is preliminary for estimation purposes.

- S. **5-Year Total Adjusted Expenses:** Total the annual expenses for the 5 years (line Q across).
- T. **5-Year Average Preliminary Adjusted Expenses:** Calculate the average allowable expenses by dividing item S by 5.
- U. **Page \_\_\_ of \_\_\_ Pages:** If more than one sheet, so indicate (e.g., 1 of 2).

Note: If the individual qualifies for an Indexed AGR, the allowable expenses must be indexed as well.

- V. **Expenses Index Factor:** Calculate this factor according to the instructions for R, Steps 1 and 2, above. (Factor in example is 1.331.)
- W. **Indexed Adjusted Preliminary Expenses (if applicable):** Calculate by multiplying the entries on lines T times V.
- X. **Notes:** Include specific notations that explain unique information above. (Example: Original tax forms were schedule C rather than schedule F.)
- Y. **Producer's Signature and Date:** Producer must sign and date, certifying to the accuracy of the data.
- Z. **Agent's Signature and Date:** Agent must sign and date.

### TRANSFER OF INFORMATION

The applicable information from lines H through M and Q through W (excluding V) must be transferred to the Annual Farm Report, columns 7 through 9. Also complete Items 19A and 20 of the Annual Farm Report.

### RETENTION OF HISTORIES CALCULATION WORKSHEET

This worksheet must remain a part of the applicant's official file.

**COLLECTION OF INFORMATION AND DATA (PRIVACY ACT)**

To the extent that the information requested herein relates to your individual capacity as opposed to your business capacity, the following statements are made in accordance with the Privacy Act of 1974, as amended (5 U.S.C. 5521a). The authority for requesting information to be furnished on this form is the Federal Crop Insurance Act, (7 U.S.C. 1501 et seq.) and the Federal crop insurance regulations contained in 7 C.F.R. chapters IV.

Collection of the social security account number (SSN) or the employer identification number (EIN) is authorized by section 506 of the Federal Crop Insurance Act (7 U.S.C. 1506), and is required as a condition of eligibility for participation in Federal crop insurance program. The primary use of the SSN or EIN is voluntary; however, failure to furnish that number will result in denial of program participation and benefits.

The balance of the information requested is necessary for the insurance company and FCIC to process this form to: provide insurance; provide reinsurance; determine eligibility; determine the correct parties to the agreement; determine and collect premiums or other monetary amounts (including administrative fees and over payments); and pay benefits. The information furnished on this loan will be used by Federal agencies, FCIC employees, insurance companies, and contractors who require such information in the performance of their duties. The information may be furnished to: FCIC contract agencies, employees and loss adjusters; reinsured companies; other agencies with the United States Department of Agriculture; The Department of Treasury including the Internal Revenue Service; the Department of Justices, or other Federal or State law enforcement agencies; credit reporting agencies and collection agencies; other Federal agencies as requested in computer matching programs; and in response judicial orders in the course of litigation. The information may also be furnished to congressional representatives and senators making inquiries on your behalf. Furnishing the information required by this form is voluntary; however, failure to report the correct and complete information requested may result in rejection of this form; rejection of any claim for indemnity, replanting payment, or other benefit, ineligibility for insurance; and a unilateral determination of any monetary amounts due.

**NONDISCRIMINATION STATEMENT**

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotope, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington D.C. 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

## Actual Commodity Report Completion Instructions

Complete at time of claim.

Verify or make the following entries.

### HEADING

#### Item Information Required

- A. **IRS Reporting Method?:** The accounting method (*cash* or *accrual*) used to file income taxes with the IRS for the insurance year.
- B. **Insurance Year:** The insurance year that coverage will be in effect (e.g., 2005). For a fiscal tax year different than calendar year, enter the month and year the fiscal year begins and the month and year the fiscal year ends (e.g., 5/2005 – 4/2006).
- C. **Producer Information:** The *name* of the insured that identifies exactly the person (a legal entity which must be the same as for income tax purposes) for whom the Actual Commodity Report is completed. Enter the insured's complete *address* and *telephone number*. Enter the *social security number* or the *tax identification number* for the entity. Enter the *type tax entity* (sole proprietor, partnership, corporation, estate, trust, etc.).
- D. **Agency Information:** The *name*, *address*, *telephone number*, and *code number* of the agent that provides insurance service to the insured. Also enter the insured's assigned policy number (applicable if a carryover policy).
- E. **State(s) and County(ies):** Enter the applicable state and county or independent city and codes in which agricultural commodities will be produced that are expected to generate allowable income. [See Part 3, Section 20, Par. (B) for complete instructions.]
- F. **Other Insurance:** Enter the *commodities* on which other insurance policies are in force and the corresponding *policy numbers* (if applicable).

### ACTUAL COMMODITY REPORT

- G. **Commodity Name and Code:** Enter the name of any agricultural commodity that was produced or purchased for resale during the insurance year. Commodities fed or to be fed to animals on the farm are counted as animal production and therefore are not listed. (See Exhibit 2 on page 27 for the acceptable breakdown of commodities and their codes). The insurance provider must enter the applicable agricultural commodity code. Each different agricultural commodity must be listed on a separate line. Commodities purchased for resale must also be listed. If purchased for resale, place "PR" immediately behind the agricultural commodity's name.

If more than one production cycle/harvest of the agricultural commodity is harvested during the insurance year, the acreage, production, and income may be summed on a single line. For crops produced in a greenhouse, enter "greenhouse". If more than one greenhouse is accounted for on one line, enter the number of greenhouses immediately behind "greenhouse".

- H. **Amount (acres, # head, area, etc.):** For field crops, enter the number of acres to tenths that produced (e.g., 40.0 acres of processing cucumbers) and if a perennial crop, list ONLY bearing acres. For animals, enter the number produced during the insurance year. For commodities grown in greenhouses, enter the total square feet for the number or greenhouses listed on the line. For commodities purchased for resale, enter the total number/amount purchased for resale. For animal products (milk, wool, honey, etc.) enter the total tons, hundredweight, or pounds respectively that were produced.
- I. **Yield or Quantity Produced:** Enter the total amount of the commodity produced per unit. Enter the abbreviation for the unit of measure after the total amount of production. For data acceptance purposes, a numeric code corresponding to the unit of measure must be submitted. See Exhibit 5 of the AGR Standards Handbook for unit of measures, abbreviations, and unit numeric codes.
- J. **Value (price per unit):** Enter the average value (contracted value if produced under a contract with a specified price) of the agricultural commodity in the unit of measure marketed (tons, cwt., bu., lbs., etc.). For example, the average market price of cucumbers (processing) is \$155 per ton; therefore, \$155 is entered. For crops produced in a greenhouse, enter the gross income per square foot relative to the crops produced. For commodities purchased for resale (exception: animals marketed in pounds) enter the market price less the cost or other basis. For animals that are marketed in pounds, enter the average market price. If the commodity is sold, use the actual average value. If the commodity is not sold, use the value assigned on the ending inventory report.
- K. **Total Value:** Enter the total dollars or value from each agricultural commodity (by line) produced during the insurance year. Multiply column H times column I times column J and enter the result in column K.  
*Example:* 10 acres X 2.2 tons per acre X \$155 per ton = \$3,410.
- L. **Total Income:** Enter the sum of the dollars reported in column K for all commodities reported. Round to the nearest whole dollar.
- M. **Blank Section**
- N. **Notes:** Document any changes to the farming operation for the insurance year that changed the expected income as compared to the historic AGR. [See AGR Standards Handbook for additional instructions.] Changes such as tax entity, tax accounting method, the size of the farming operation (decrease in acreage or share), marketing method to be used (fresh market, processing, wholesale, retail), condition of a perennial crop, removal of perennial crop's root stock, failure to replace expendable commodities, etc., must be reported. The estimated effect of the change to the AGR must be described in detail.
- O. **Page \_\_\_ of \_\_\_ Pages:** If more than one sheet, so indicate (e.g., 1 of 2).
- P. **Producer's Signature and Date:** The insured must sign and date, certifying to the accuracy of the data. Insurance providers may not accept unsigned Actual Commodity Reports.
- Q. **Agent's Signature and Date:** The insurance agent's signature and date.
- R. **Page \_\_\_ of \_\_\_ Pages:** If more than one sheet, so indicate (e.g., 2 of 2).

**Exhibit 1**  
**List of States and Counties where AGR-Lite Program is Approved for 2005**

<b>State</b>	<b>Approved Counties</b>
Alaska	All boroughs except North Slope and Northwest Artic (Kobuk)
Connecticut	All counties
Delaware	All counties
Idaho	All counties
Maine	All counties
Maryland	All counties except Baltimore City
Massachusetts	All counties
New Hampshire	All counties
New Jersey	All counties except Hudson
New York	All counties except Bronx, Hamilton, Kings, Nassau, New York, Putnam, Queens, Richmond, Rockland, and Westchester
North Carolina	All counties
Oregon	All counties
Pennsylvania	All counties except Philadelphia
Rhode Island	All counties
Vermont	All counties
Washington	All counties
West Virginia	All counties

### Exhibit 1, continued

Use the following information to determine which category your state and county are in.  
Refer to the AGR Standards Handbook for categories and states not listed here.

## **Exhibit 3**

### **Forms Completion Checklist**

#### **Checklist of Forms Required at time of Application**

1. Application (FCI-12 AGR or similar form).
2. AGR-Lite Histories Calculation Worksheet (or similar form).
3. Complete Annual Farm Report (FCI 821AGR or similar form).
4. If 75% or 80% level of coverage are selected, complete an Agricultural Commodity Profile (FCI-823 AGR or similar form) for the last two crop years (2003 and 2004 when applying for 2005).
5. A beginning Inventory Report (applicable FCI 822 AGR or FCI 824 AGR or similar forms).

#### **Checklist of Forms Required by 1/31 for Second and Each Successive Years that Policy is in Force**

1. Complete Annual Farm Report (FCI 821AGR or similar form).
  - A. Update Allowable Income and Expenses History (drop oldest year and include most recent year).
  - B. Complete intended commodities information for coming year.
2. Acquire a beginning Inventory Report (applicable FCI 822 AGR or FCI 824 AGR or similar forms).
