Protecting America's Heroes

U.S. ARMY

NSSC Mission/Vision

Mission

To research, develop, acquire and sustain equipment and technology to maximize combat effectiveness and survivability of freedom's defenders.

Vision

The U.S. Army NSSC will be the leader of the research, development, acquisition and sustainment of freedom's defenders.

NSSC Objectives

- **Structure a sustainable NSSC**
- **Foster an atmosphere of teamwork and cooperation which creates synergy across the Natick Soldier Systems Center**
- **Develop a strategic plan for the installation**
- **NSSC as an active participant in the community**

Project Purpose

- **Identify a vision to guide future growth and development at NSSC**
- **Create goals and design objectives to guide the planning process**
- **Develop a comprehensive master plan that capitalizes on the unique strengths and opportunities of the NSSC**

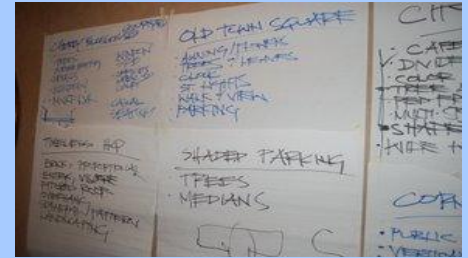

Planning Vision and Goals

Planning Vision: To be a **sustainable research and development community** that fosters mission excellence through **state-of-the-art buildings** organized into a **walkable campus**.

Goal 1: Sustainable Research and Development Community. Provide a community that maximizes mission readiness and environmental stewardship.

Goal 2: State-of-the-Art Buildings. Prepare a plan that fosters mission excellence through attractive, excellently-equipped research and development facilities.

Goal 3: Walkable Campus. Provide a walkable community that is safe, convenient, and comfortable.
