Please note that the email address in the FR notice on page 24480 "E-mail: owdocket@epa.gov" is incorrect. The correct email to submit comments to the docket is ow-docket@epa.gov. As before, please include EPA-HQ-OW-2011-0409 in the subject line of the message.

Estimated Total Annual Cost: \$1,356,320, includes \$20 in annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 1,667 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease reflects EPA's updating of burden estimates. The decrease is due to an increase in computer-generated product transfer documents.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9300-9]

In the Matter of the Taylor Lumber and Treating Superfund Site, Sheridan, Oregon, Amendment to Agreement and Covenant Not To Sue, Pacific Wood Preserving of Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: This Amendment to Agreement and Covenant Not to Sue ("Amendment") amends the 2002 Agreement and Covenant Not To Sue, Docket CERCLA-10-2002-0034 ("Original Agreement"), entered into by and between the United States on behalf of the U.S. Environmental Protection Agency ("EPA") and Pacific Wood Preserving of Oregon ("PWPO"). In accordance with the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9601 *et seq.* ("CERCLA"), notice is hereby given of the proposed Agreement between the EPA and PWPO, subject to the final review and approval of the EPA and the U.S. Department of Justice.

The 2002 Original Agreement with PWPO provided a covenant not to sue for response costs at the Taylor Lumber and Treating Site, which PWPO was acquiring, in exchange for several obligations related to site operation and a commitment not to use certain hazardous products, including pentachlorophenol, at the Site. This Amendment removes the restriction on pentachlorophenol use and extends PWPO's commitment to collect and treat groundwater and maintain the asphalt cap until January 31, 2022, or for as long as PWPO owns or operates on the

Property, whichever is later. This Amendment includes additional commitments including submittal of annual environmental audit reports; implementation of institutional controls; payment of EPA future oversight costs; and, a revised Statement of Work for future work to be performed by PWPO.

EPA and Army Corps of Engineers Guidance Regarding Identification of Waters Protected by the Clean Water Act

AGENCY: Environmental Protection Agency (EPA); and U.S. Army Corps of Engineers, Department of the Army, Department of Defense.

ACTION: Notice of availability and request for comments.

SUMMARY: The Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers (the Corps) are publishing

for public comment proposed guidance that describes how the agencies will identify waters protected by the Federal Water Pollution Control Act Amendments of 1972 (Clean Water Act or CWA or Act) and implement the Supreme Court's decisions on this topic (*i.e.*, *Solid Waste Agency of Northern Cook County v. U.S. Army Corps of Engineers (SWANCC)* (531 U.S. 159 (2001)) and *Rapanos v. United States* (547 U.S. 715 (2006)) (*Rapanos*)). The agencies believe that under this proposed guidance the number of waters identified as protected by the Clean Water Act will increase compared to current practice and this improvement will aid in protecting the Nation's public health and aquatic resources.

The proposed guidance is consistent with the principles established by the Supreme Court cases and is supported by the agencies' scientific understanding of how waterbodies and watersheds function.

In addition, the agencies believe that when the revised guidance is finalized and goes into effect, it will improve CWA program predictability and clarity regarding the scope of "waters of the United States" protected under the Act and that this improvement will have benefits for both the government and regulated parties. When finalized, this guidance would supersede previously issued guidance on this matter. This guidance will apply to all CWA programs, including section 303 water quality standards, section 311 oil spill prevention and response, section 401 water quality certification, section 402 National Pollutant Discharge Elimination System permits, and section 404 permits for discharges of dredged or fill material. The agencies seek public comment on all aspects of the proposed guidance, including interpretations and scientific underpinnings.

In addition to this guidance, the agencies expect to propose revisions of existing regulations to further clarify which waters are subject to CWA jurisdiction, consistent with the Supreme Court's decisions. Public comment on any such revisions will be requested at the time they are proposed.

SUPPLEMENTARY INFORMATION: EPA and the Corps are seeking public comment on proposed joint agency guidance regarding identification of waters protected by the Clean Water Act. The agencies' intention is that the final joint guidance will supersede the "Joint Memorandum" providing clarifying guidance on SWANCC, dated Jan. 15, 2003 (68 FR 1991, 1995), and "Clean Water Act Jurisdiction Following the U.S. Supreme Court's Decision in *Rapanos v. United States & Carabell v. United States*," dated December 2, 2008, and available at <http://water.epa.gov/lawsregs/guidance/wetlands/CWAwaters.cfm>. Until that final guidance is issued, both the 2003 and 2008 CWA jurisdiction guidance remain in effect.

Congress enacted the Clean Water Act (CWA) "to restore and maintain the chemical, physical, and biological integrity of the Nation's waters" (33 U.S.C. 1251(a)). One of the mechanisms adopted by Congress to achieve that purpose is a prohibition on the discharge of any pollutants into "navigable waters" except in compliance with other specified sections of the CWA (33 U.S.C. 1311(a) and 1362(12)(A)). In most cases, this means compliance with a permit issued

pursuant to CWA section 402 (33 U.S.C. 1342) or section 404 (33 U.S.C. 1344). The CWA provides that "[t]he term 'navigable waters' means the waters of the United States, including the territorial seas" (33 U.S.C. 1362(7)). EPA and the Corps have further defined the term "waters of the United States" in regulations (40 CFR 230.3(s) and 33 CFR 328.3(a); substantively similar regulatory definitions appear at 40 CFR 110.1, 112.2, 116.3, 117.1, 122.2, 232.2, 300.5, part 300 App. E, 302.3 and 401.11).

The U.S. Supreme Court has addressed the scope of waters of the United States protected by the CWA in three cases, two of which are specifically addressed by the draft guidance. In *SWANCC*, the Court addressed the question of CWA jurisdiction over isolated ponds, and concluded that CWA jurisdiction could not be based solely on the presence of migratory birds. In *Rapanos*, the Court addressed the question of CWA jurisdiction over wetlands adjacent to tributaries, and issued five opinions with no single opinion commanding a majority of the Court. Neither *SWANCC* nor the opinions in *Rapanos* invalidated any of the regulatory provisions defining "waters of the United States." The Court also addressed the question of CWA jurisdiction in an earlier case, *Riverside Bayview Homes*. While not specifically addressed in the current guidance, this case informed the Court's decisions in the latter two cases.

The agencies believe it is advisable to replace existing guidance documents interpreting *SWANCC* and *Rapanos* in order to implement the CWA in a manner that is consistent with those opinions, reflects the best available science, and recognizes recent field implementation experience. By reflecting such developments, the proposed guidance made available today for public comment is expected, once it is finalized after considering all comments received, to provide clearer direction to field staff in implementing the Court decisions and reduce uncertainty in the regulated community.
