

6/26/10

Field Teams,

Please fill out an “Information Needs Related to Beach Surveys and Grooming” form

- 1.) **When** – At the end of every segment you survey where noticeable grooming or disturbance has occurred on the beach face.
- 2.) **What is Considered Grooming** – Grooming is any kind of human disturbance to the beach face that may have resulted in the removal of bird carcasses.
- 3.) **Types of Disturbances** – Clean-up crew actions; heavy equipment usage; plowing; berm building; hand tools such as hand raking or shoveling; basically anytime sand is moved or disturbed.
- 4.) Please fill out the form completely and be as specific as possible as the type of grooming, frequency, and other useful observations.

If you have any questions please give me a call.
