

New Look in Cafeteria

There's a 'new look' in the A&E Cafeteria. Flowers adorn the tables and soft music fills the air. And the coffee and lunch periods are that much more pleasant.

Nation Wide Food Service, which operates the cafeteria will distribute bulletins each week on menu's of the week, including a weekly special.

Every month a game of chance will be played in both cafeterias. This month, free meals will be given each day to several lucky patrons. This is how it works:

An alarm clock will be placed at the cash register in each cafeteria. At intervals, the alarm will sound and the lucky person who is about to pay for his lunch will get his meal 'on the house'.
