

solid propellant; J.L.Fergus, Jr., R.L. Barebo and E.S. Gall, tests on special equipment for a satellite vehicle; K.C. Faehl, rotor blade vibratory stress investigation; A. L. Cannell and D. R. Frank, testing of retro-rocket motors; C. F. Nokes, Jr., investigation of a solid-propellant rocket motor.

* * * *

Jo Mitchell and Mary Ward, who regularly lend their talents to the RTF offices, take a brief "coke" break. The 13 foot exhaust ducting may be put to better use but it will never carry a nicer cargo.
