INSTRUCTIONS FOR COMPLETING THE 2007 SALTWATER TRIP LOGBOOK FORMS

WHEN TO COMPLETE A LOGBOOK

Client Information: The sport fish license number must be recorded for all paying clients, “comped” anglers, and crew that fished during any part of the trip.

The logbook must be completed at the end of each day of fishing or each trip within a day as described below through the last trip of the season.

The guide that leads the trip is required to fill out this logbook per the following schedule:

RETURNING TO A DOCK:

- Complete the logbook either before offloading any clients OR offloading any fish from the vessel. If no fish were kept, complete the logbook before offloading any clients.

NO DOCKING FACILITIES (e.g., trailered vessels):

- Complete the logbook before the vessel or guide departs the launch/landing site AND:
 1. before offloading any fish from the vessel.

OR

 2. before offloading any clients from the vessel.

If no fish were kept, complete the logbook before the guide departs the launch/landing site.

NO VESSEL USED (aircraft, highway vehicles, walk-in, ATVs, etc.):

- Complete the logbook before the guide leaves the fishing site. Fishing site is defined as the location where fishing activity took place.

A TRIP IS DEFINED as one outing with one group of clients that ends when that group of clients and their fish (if fish were kept), are off-loaded or dropped off.

MULTIPLE TRIPS PER DAY

Each trip of multiple trips in a day should be logged on a separate logbook sheet. Complete the logbook at the end of each trip as described above.

MULTIPLE DAY TRIPS

Complete the logbook at day’s end for each day of the trip.

WHEN TO COMPLETE A LOGBOOK (cont’d)

Do not complete trip information for those days when guided fishing activity did not occur. If a multi day trip of five days occurred and only three days were fished, only three logbook sheets should be completed and returned.

RETURN THE LOGBOOK REPORTS WEEKLY

All charter fishing activity that occurs between April 2, 2007 through September 30, 2007 must be received by ADF&G offices or postmarked by the WEEKLY schedule provided on the inside of the front cover of this book.

Fishing activity that occurs prior to April 2, 2007 is due to ADF&G by April 16, 2007, activity after September 30, 2007 must be received by ADF&G offices or postmarked by January 15, 2008.

RESPONSIBILITY OF OWNER & GUIDE

It is the responsibility of the guide to ensure that daily trip activity is accurately recorded as previously described.

It is the responsibility of the business owner (owner of the sport fish operator’s license) to ensure that all data for fishing activities from January 1, 2007 through December 31, 2007 is submitted to ADF&G in the manner previously described.

TRANSFERRING A LOGBOOK

A logbook is issued to a specific business for a specific vessel. If a new vessel is added to the same business, that vessel must be registered and a new logbook will be issued from a local ADF&G office.

If another vessel is substituted for the primary vessel during a temporary period, the substituted vessel must have a current AK no. or a U.S.C.G. documentation number and be registered with ADF&G (see contact information on the right). Vessel decals must be displayed on the substitute vessel. The original logbook can be used on the substitute vessel as long as the original vessel **does not return to service**. See vessel registration instructions.

VESSEL REGISTRATION

A vessel used in sport fishing guide activities is required to register with ADF&G. All vessels must have a current AK no. issued by the Div. of Motor Vehicles (DMV) or a U.S.C.G. documentation number prior to registering with ADF&G. **If the vessel has an AK no., the AK no. must be displayed during guided fishing operations.**

VESSEL REGISTRATION (cont’d)

If a vessel is purchased, leased, or borrowed in mid-season, secure a current AK no. for it, and notify ADF&G (see contact information below). New decals can be acquired from ADF&G, or decals from an unused vessel can be transferred. All vessels used in the sport fishing guide industry with clients onboard, must have two decals visibly displayed. A new logbook must be issued to this vessel if this vessel is intended to be used for the remainder of the season.

VESSEL DECALS/RENEWAL TAGS

One set of ADF&G decals will be issued per registered vessel. Decals must be applied and visible on both sides of the vessel. Decals do not have to be applied directly to the hull of the vessel. Decals can be adhered to wood, fiberglass or Plexiglas which in turn is secured to both sides of the vessel. Decals can be transferred from one vessel to another, as long as the receiving vessel has a current AK no. from DMV and has been registered with ADF&G. Decals are designed to withstand several years of use. Annual renewal stickers or tags will be issued as vessels are registered. Annual renewal tags are to be adhered directly to the decal in the designated area.

WHAT A GUIDE MUST HAVE IN POSSESSION WHILE GUIDING

While engaged in providing sport fishing guide services, a sport fishing guide shall have the following readily available for inspection by request of a representative of the department or a peace officer of the state:

- Valid sport fishing guide license;
- Copy of the current ADF&G sport fishing operator’s (business owner) license of the guide’s employer;
- Valid Alaska sport fishing license, tags, stamps or permits that are required to engage in the sport fishery for which guide services are being provided;
- Identification card issued to the sport fishing guide by a state or federal agency that bears a photo of the sport fishing guide.
- **Other agencies may have additional requirements (e.g. U.S.C.G.). It is your responsibility to determine what those requirements are.**

INSTRUCTIONS FOR COMPLETING THE 2007 SALTWATER TRIP LOGBOOK FORMS

BUSINESS AND VESSEL INFORMATION	
Business Owner License Number	The license number issued to you by the Dept. of Fish and Game (ADF&G) upon meeting all the requirements to become a sport fish charter business.
Guide License Number	The 2007 guide license number issued by ADF&G to the guide that led that fishing trip.
TRIP and CATCH INFORMATION	
Date	The date for each trip taken. If two or more trips were taken on the same day, that date would appear on as many data sheets as there were trips. Although the date would be the same, client information and trip specifics may differ. For a multi-day trip, write down the date in which fishing effort took place. Write down the month and day.
Port or Community of Off-Loading	The port or community where clients and/or fish are off-loaded at the conclusion of the trip. On a multi-day trip, indicate the community where fish and clients are eventually off-loaded.
Total no. of clients on the vessel.	The total no. of paying clients on board the vessel. Include even those who did not catch anything and those that did not fish. Do <u>not</u> include crew members or "comped" anglers. A "comped" angler is an angler who is not paying for this charter, it can include family, friends or other acquaintances.
Primary Stat Area Fished	The 6-digit area code where most of the fish were caught or targeted on this trip. Write this code down next to either salmon or bottomfish, depending on what was primarily caught. An operator must decide if gear and fishing methods were effectively targeting salmon, bottomfish, or both fishing groups. If no fish were caught, write the 6-digit code for the location primarily fished on this date and trip. Refer to the maps provided.
No. of Boat Hours Fished	The number of boat hours where at least one rod/line was being fished. Record only number of hours spent fishing, NOT hours spent running to or from fishing areas. Round to the nearest whole hour.
Page no.	On each logsheet, record the page no. if multiple pages were necessary to fit in all the client information. Note the total no. of pages used for that trip.

TRIP and CATCH INFORMATION (cont'd)	
Recording Catch Information	After completing the Primary Stat Area Fished in the Trip Information on the left side of the page, continue to record the catch information under salmon or bottomfish , depending on whichever species were primarily caught or targeted. Indicate the number of fish Kept (retained) and Released (let go) by species type.
EXAMPLE 1: One target Salmon	If bottomfish are caught when targeting salmon only, record the number of bottomfish in the appropriate columns in the bottomfish section. Trip Information on the left should still reflect salmon as the targeted species. If salmon were targeted but no salmon were caught, record the trip and stat area fished information within the salmon section under Trip Information .
EXAMPLE 2: One target Bottomfish (incl. Halibut)	If salmon are caught when targeting bottomfish only, record the number of salmon in the appropriate columns in the salmon section. Trip Information on the left should still reflect Bottomfish as the targeted species. If bottomfish were targeted but no bottomfish were caught, record the trip and stat area fished information within the bottomfish section under Trip Information .
EXAMPLE 3: Two targets Salmon and Bottomfish	Record the maximum number boat hours spent fishing simultaneously for both salmon AND bottomfish in the Trip Information, Primary Stat Area section. For example, if mooching or jigging for 7 hours record 7 hours in the salmon effort row, and 7 hours in the bottomfish effort row.

Individual Angler Information	
Sport Fishing License No.	Record the 2007 Alaska Sport Fishing License no., resident PID (permanent license no.) or DAV (disabled veteran license no.) of each client, comped angler, and crew that fished, before beginning sport fishing. Record anglers under 16 years of age as "Youth angler 1, Youth angler 2" etc., uniquely identifying them as 1, 2, or 3.
Residency, Crew status and "Comped" anglers	Next to each fishing license number: Circle <u>C</u> if angler is a Crew member , Circle <u>X</u> if angler is " Comped " (nonpaying), All other anglers, Circle <u>N</u> for Nonresident or <u>R</u> for resident DO NOT MARK RESIDENCY FOR CREW and "COMPED", CIRCLE "C" or "X" ONLY.

Special Notes and Instructions	
"Shakers"	King salmon that are under the 28" minimum size (Southeast Region only) that must be released upon capture, unless caught in designated terminal harvest areas.
Pelagic Rockfish	Includes black and dusky rockfish (commonly called "black bass") and yellowtail rockfish. These species of rockfish are uniformly gray, green, brown, or black (see rockfish ID chart in your regulation booklet).
Yelloweye Rockfish	Commonly called "red snapper". Primarily orange with a pale yellow stripe on body. Distinctive yellow eyes. Measures up to 36 inches.
Other Non-pelagic Rockfish	All other rockfish not mentioned above. Includes quillback, and copper rockfish, as well as numerous other species.
Salmon Shark	This is a single species <i>Lamna ditropis</i> . These sharks are large, firm, dark brown or black on top, with white bellies with dark blotches. Do not include spiny dogfish ("sand shark") or sleeper sharks ("mud sharks") in this category.
Other Fish (optional)	Record all OTHER fish kept that do not fit into any existing category of fish. This column is optional , intended to assist you in keeping track of other species of fish that were kept. It is not mandatory that you fill this column out.
Proxy Fishing Instructions	

If a paying client is also proxy fishing for a beneficiary, that client **MUST** have the fishing license of the person for whom he/she is fishing. Write down the license number of the recipient of the fish (beneficiary), followed by a "P" to indicate proxy, e.g. **7123456-P**.

Use two lines on the logbook data sheet, one for the angler's license number and one for the beneficiary's license number. Indicate **R** for Resident in the adjacent column. Beneficiaries and those fishing for them **must** be residents of Alaska.

For **permanent** licenses (residents only), write down the entire license number, including the preceding alpha character, which can be a **P, D, T or Z**, i.e. **Z50148- P**.

Federal law prohibits the taking of more than two halibut per person per day. You may **NOT** take two bag limits of Halibut on the same day, even when proxy fishing.
