

# Communities, States, and the Hosting “Process”

Timothy A. Frazier

January 16, 2013

# Community/State Considerations

---

- Benefits
- Incentives
- Risks
- Long-term commitment
- Participation/oversight
- Recourse

# Local Community Decision/Consent

---

- Information
- Elected officials
- Leaders
- Business
- Industry
- Public in the community

# State Decision/Consent

---

- Based on community support or opposition
- Jobs
- Taxes
- Enforceable agreements
- Participation of other States
- Politics
- U.S. Senators and Representatives (Congress)

# What facilities and benefits?

---

- Consolidated Storage Facility (including R&D)
- Commercial Reprocessing Facility
- Commercial MOX Fuel Fabrication Facility
- Disposal Facility

# Parting thoughts

---

- There is no “process”
- Legislation to provide framework for process
  - Community and State informed
- Incentives purposefully not defined to allow for flexibility
- The more communities and States involved the better.
  - There is plenty of SNF to go around and there will be more.
- National Solution – Regional Implementation
