

CUMULATIVE RISK ASSESSMENT WEBINAR SERIES

Wednesday, February 27, 2013 3:00 p.m. EST

The Patterns of Pollution: Perspectives from an Environmental Attorney and a GIS Scientist on the Identification and Assessment of Environmental Justice Communities

Nick DiLuzio
Project Manager &
GIS Analyst
NewFields

David Deganian
Visiting Assistant
Professor of Law
Barry University

Next Month's Webinar March 20, 2013

epa.gov/ncr/CRAwebinar/next

**A Semi-quantitative Framework for Cumulative Risk
Assessment of Waterborne
Contaminants**

D.J. Crawford-Brown
Professor and Director
Cambridge Centre for
Climate Change Mitigation Research
University of Cambridge

Join us for the monthly webinar series presenting the latest research findings in cumulative risk assessment and impacts.

EPA's Risk Assessment Forum Cumulative Risk Assessment (CRA) Technical Panel along with EPA's National Center for Environmental Research is currently developing guidelines on CRA to advance the science further and introduce additional strategies for examining combinations of chemical, physical and biological stressors while factoring in population vulnerabilities.
