

NEPA REVIEW SCREENING FORM

Document ID Number:

DOE/CX-00053 Rev. 1

I. Project Title:

Washington River Protection Solutions LLC - Proposed Actions For CY 2013 Scheduled To Take Place Under CX B3.1, "Site Characterization and Environmental Monitoring"

II. Project Description and Location (including Time Period over which proposed action will occur and Project Dimensions - e.g., acres displaced/disturbed, excavation length/depth, area/location/number of buildings, etc.):

Washington River Protection Solutions LLC (WRPS) will perform site characterization and environmental monitoring during Calendar Year 2013. WRPS will perform all activities in accordance with the categorical exclusion (CX) limitations set forth in 10 CFR 1021, Appendices A & B to Subpart D, & CX B3.1. WRPS' facilities include all those identified in the Tank Operations Contract Sections J.13 and J.14. Excluding aquatic environments, activities would include, but are not limited to:

- Intrusive Activities (both small and large scale) such as installing groundwater and vadose zone wells, monitoring the groundwater and vadose zones, performing groundwater tracer tests, excavating and sampling test pits. Drilling methods would primarily be standard cable tool, auger, cone penetrometer, sonic drilling, or rotary drilling technologies. All wells will be abandoned or closed in accordance with applicable state regulations and company procedures.
- Non-Intrusive Activities such as site surveys & collection of environmental media & data. Activities can include geophysical, radiological, meteorological, chemical, air, water, cultural, & ecological.
- Site, construct, & operate one or more small-scale laboratory buildings/facilities, or renovate rooms in an existing building/facility, in order to facilitate sample handling & analysis.
- As need to support the implementation of the described actions, may also undertake actions required to disconnect, store, move, relocate, and reinstall testing and sampling equipment and associated materials.

All locations are currently disturbed, industrial zones which are culturally exempt (see PNL-7264 & Battelle 9405630) &/or covered under NHPA Section 106 review, HCRC# 2003-200-044. The majority of the WRPS facilities are classified as historical non-contributing/exempt properties under DOE/RL-97-56, Revision 1. To ensure there will be no ecological/biological or cultural impacts, prior to work initiation, 1) any non-exempt facilities or work will have the appropriate cultural reviews obtained as needed, 2) ecological reviews will be obtained if needed, 3) all work activities (including associated staging &/or laydown areas) will be performed within or contiguous to an already developed area (where active site utilities & roads are readily accessible & no habitat/vegetation will be disturbed), 4) all equipment that is to be moved or relocated will be walked down for ecological or cultural concerns prior to being moved, & 5) if any cultural or ecological issues are identified, the identified issue(s) will be appropriately dealt with as required by relevant company or Hanford Site procedures & regulations.

III. Reviews (if applicable):

Biological Review Report #: N/A

Cultural Review Report #: PNL-7264, Battelle Letter 9405630, HCRC#2003-200-044, & DOE/RL-97-56 R1
