I. Project Title:

Washington River Protection Solutions LLC - Proposed Actions For CY 2013 Scheduled To Take Place Under CX Bl.23, "Demolition and Disposal of Buildings"

II. Project Description and Location (including Time Period over which proposed action will occur and Project Dimensions - e.g., acres displaced/disturbed, excavation length/depth, area/location/number of buildings, etc.):

Washington River Protection Solutions LLC (WRPS) will demolish and dispose of buildings during Calendar Year 2013. WRPS will perform all activities in accordance with the categorical exclusion (CX) limitations set forth in 10 CFR 1021, Appendices A & B to Subpart D, & CX Bl.23. WRPS' facilities include all those identified in the Tank Operations Contract Sections J.13 and J.14. Activities would include, but are not limited to:

- Demolition and subsequent disposal of buildings, equipment, support structures (including, but not limited to, smoke stacks and parking lot surfaces), and any associated construction or demolition debris/waste (including disposal of any related, incidental quantities of polychlorinated biphenyls and asbestos containing or contaminated materials), but for only those items or facilities where there will be no potential for release of substances at a level, or in a form, that could pose a threat to public health or the environment.

- Demolition work includes the isolation, disconnection, and removal of utilities, machinery, equipment, or other items such as maintenance and custodial supplies or other materials.

- In addition, buildings, structures, and materials would be decontaminated as necessary.

- Materials will be recycled, reused, or disposed of as appropriate.

All locations are currently disturbed, industrial zones which are culturally exempt (see PNL-7264 & Battelle 9405630) &/or covered under NHPA Section 106 review, HCRC# 2003-200-044. The majority of the WRPS facilities are classified as historical non-contributing/exempt properties under DOE/RL-97-56, Revision 1. To ensure there will be no ecological/biological or cultural impacts, prior to work initiation, 1) any non-exempt facilities or work will have the appropriate cultural reviews obtained as needed, 2) ecological reviews will be obtained if needed, 3) all work activities (including associated staging &/or laydown areas) will be performed within or contiguous to an already developed area (where active site utilities & roads are readily accessible & no habitat/vegetation will be disturbed), 4) all equipment and structures will be walked down for wildlife/migratory birds prior to any demolition or removal, & 5) if any cultural or ecological issues are identified, the identified issue(s) will be appropriately dealt with as required by relevant company or Hanford Site procedures & regulations.

III. Reviews (if applicable):
