Background

The Progress Report (PPR) was designed to ensure that grantees of the Senior Corps' programs (RSVP, Foster Grandparent and Senior Companion Programs) address and fulfill legislated program purposes; meet agency program management and grant requirements; track and measure progress to benefit the local project and its contributions to senior volunteers and the community; and to report progress toward work plan objectives agreed upon in the granting of the award.

Current Action

CNCS seeks to renew and revise the current OMB-approved Progress Report. In August of 2013, Senior Corps revised its OMB approved Grant Application Instructions. The revised Grant Application Instructions incorporated new standard national performance measures for Senior Corps programs. The revised PPR will align with the new national performance measures, and allow grantees to enter actual data and progress towards plans and targets set in the Grant Application.

The revised PPR will be used in the same manner as the existing PPR to report progress toward accomplishing work plan goals and objectives, reporting volunteer and service outputs, reporting actual outcomes related to self-nominated performance measures meeting challenges encountered, describing significant activities, and requesting technical assistance. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on August 31, 2013.

Revision of Information Collection; Comment Request

AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service (CNCS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. Sec. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning its proposed revision of its Senior Corps Grant Application (424-NSSC) (OMB Control Number 3045-0035). CNCS proposes to revise the Senior Corps Grant Application with the following modifications to:

- Align language with standard national performance measure requirements; revise the Grant Application Narrative questions to clarify new concepts;
- Simplify language and wording of questions;
- Revise questions to better express the desired outcomes;
- Facilitate stronger alignment between narrative sections and the performance measures work plans. The proposed revisions do not change the estimated respondent burden.
