_____ (Signature of person authorized to sign)		<b>ORIGINAL SIGNED BY</b> _____ (Signature of Contracting Officer)	<b>7-12-2010</b>

- A. The purpose of this modification is to make administrative changes to the contract.
- B. The modification updates the following sections:

Section C: Performance Work Statement

**C.2.3.5 Hanford Site Services Interface Management**

**From:**

- k. The Contractor shall provide updates to the following Hanford Site Data Systems:
- i. Chemical Inventory Tracking System (CITS): Site wide database that keeps track of all hazardous chemicals, their locations and quantities. This requires a Hanford account, but not a license.
  - ii. Laboratory Information Management System (LIMS): Laboratory Information Management System accumulates analytical data directly from instruments and from manual input. It also includes tools to convert data to the proper electronic format. This will be provided by the TOC without charge to the LAS&T contractor.
  - i. HANford Data Integrator (HANDI): Site wide financial reporting software. This requires a Hanford account, but not a licenseHDTs (Hanford Document Tracking System): No longer required.
  - ii. Reserved
  - iii. HILLS (Hanford Information Lessons Learned Sharing): This Web site contains Hanford related operating experience articles including Lessons Learned, Safety Bulletins, Recalls, and other types of information that can be used for preventing recurrence of events, and sharing of good work practices. This requires a Hanford account, but not a license.
  - iv. Hanford Information Systems Inventory (HISI): Site wide database tracking controlled software that is safety significant. This requires a Hanford account, but not a license.
  - v. Integrated Document Management System (IDMS): Hanford Site approved electronic records management tool. This requires a Hanford account, but not a license.
  - vi. Integrated Training Electronic Matrix (ITEM): Site-wide system used to track training. This requires a Hanford account, but not a license.
  - vii. Material Safety Data Sheets (MSDS) System: Site wide database used for retrieving Material safety data sheets for chemicals used by Hanford contracts. This requires a Hanford account, but not a license.
  - viii. Primavera (P6): Scheduling software used for budgetary and life cycle planning as well as tracking monthly progress. The LAS&T Contractor will be required to purchase software and a license for this data system.
  - ix. Reserved

- x. System Change Request (SCR): The SCR system maintains and stores work records for system development efforts. This requires a Hanford account, but not a license.
- xi. Sunflower Asset Management System (SAMS) Property Management Database: This requires a Hanford account, but not a license.

**To:**

**C.2.3.5 Hanford Site Services Interface Management**

- k. The Contractor shall provide updates to the following Hanford Site Data Systems:
  - i. Chemical Inventory Tracking System (CITS): Site wide database that keeps track of all hazardous chemicals, their locations and quantities. This requires a Hanford account, but not a license.
  - ii. Laboratory Information Management System (LIMS): Laboratory Information Management System accumulates analytical data directly from instruments and from manual input. It also includes tools to convert data to the proper electronic format. This will be provided by the TOC without charge to the LAS&T contractor.
  - iii. HANford Data Integrator (HANDI): Site wide financial reporting software. This requires a Hanford account, but not a license.
  - iv. Reserved
  - v. HILLS (Hanford Information Lessons Learned Sharing): This Web site contains Hanford related operating experience articles including Lessons Learned, Safety Bulletins, Recalls, and other types of information that can be used for preventing recurrence of events, and sharing of good work practices. This requires a Hanford account, but not a license.
  - vi. Hanford Information Systems Inventory (HISI): Site wide database tracking controlled software that is safety significant. This requires a Hanford account, but not a license.
  - vii. Integrated Document Management System (IDMS): Hanford Site approved electronic records management tool. This requires a Hanford account, but not a license.
  - viii. Integrated Training Electronic Matrix (ITEM): Site-wide system used to track training. This requires a Hanford account, but not a license.
  - ix. Material Safety Data Sheets (MSDS) System: Site wide database used for retrieving Material safety data sheets for chemicals used by Hanford contracts. This requires a Hanford account, but not a license.
  - x. Primavera (P6): Scheduling software used for budgetary and life cycle planning as well as tracking monthly progress. The LAS&T Contractor will be required to purchase software and a license for this data system.
  - xi. Reserved
  - xii. System Change Request (SCR): The SCR system maintains and stores work records for system development efforts. This requires a Hanford account, but not a license.
  - xiii. Sunflower Asset Management System (SAMS) Property Management Database: This requires a Hanford account, but not a license.

Richland, WA 99352

**Section I:**

Contract Clause I.82, FAR 52.245-1 Government Property (JUN 2007) – Alternate I (JUN 2007) is deleted in its entirety.

C. All other terms and conditions remain unchanged.

between contractors shall not constitute government-furnished services or government-furnished information. The Government shall not be held responsible for the delivery or non-delivery of services between Hanford Site contractors. Contractors shall attempt to resolve any disputes regarding service interfaces and the provision of services among themselves. If contractors are unable to achieve a timely resolution of issues between themselves regarding interfaces or the appropriate delivery of services, contractors may seek direction from the Contracting Officer. To the extent contractors attempt to litigate disputes between themselves regarding interfaces or the appropriate delivery of services, all costs associated with such litigation shall be unallowable under this Contract.

- k. The Contractor shall provide updates to the following Hanford Site Data Systems:
- i. Chemical Inventory Tracking System (CITS): Site wide database that keeps track of all hazardous chemicals, their locations and quantities. This requires a Hanford account, but not a license.
  - ii. Laboratory Information Management System (LIMS): Laboratory Information Management System accumulates analytical data directly from instruments and from manual input. It also includes tools to convert data to the proper electronic format. This will be provided by the TOC without charge to the LAS&T contractor.
  - iii. HANford Data Integrator (HANDI): Site wide financial reporting software. This requires a Hanford account, but not a license.
  - iv. Reserved
  - v. HILLS (Hanford Information Lessons Learned Sharing): This Web site contains Hanford related operating experience articles including Lessons Learned, Safety Bulletins, Recalls, and other types of information that can be used for preventing recurrence of events, and sharing of good work practices. This requires a Hanford account, but not a license.
  - vi. Hanford Information Systems Inventory (HISI): Site wide database tracking controlled software that is safety significant. This requires a Hanford account, but not a license.
  - vii. Integrated Document Management System (IDMS): Hanford Site approved electronic records management tool. This requires a Hanford account, but not a license.

- ix. Material Safety Data Sheets (MSDS) System: Site wide database used for retrieving Material safety data sheets for chemicals used by Hanford contracts. This requires a Hanford account, but not a license.
  - x. Primavera (P6): Scheduling software used for budgetary and life cycle planning as well as tracking monthly progress. The LAS&T Contractor will be required to purchase software and a license for this data system.
  - xi. Reserved
  - xii. System Change Request (SCR): The SCR system maintains and stores work records for system development efforts. This requires a Hanford account, but not a license.
  - xiii. Sunflower Asset Management System (SAMS) Property Management Database: This requires a Hanford account, but not a license.
- I. The work area for the Contractor is a nuclear facility and is managed and controlled by the TOC. Therefore the programs, work scope, personnel, etc., are not completely mutually exclusive. Specific agreements must be established to address respective responsibilities and actions. These agreements will be in addition to the general Hanford Site Services and Interface Requirements Matrix in Section J.

Typical subject areas for specific agreements with the TOC:

- i. Work load, resources or facility availability that might impact overtime or delivery of results.
- ii. Personnel who are shared in the short term between the TOC and lab contractor.
- iii. Use of procedures common to both contractors
- iv. Offices, equipment and supplies
- v. Procurement,
- vi. Non-disclosure agreements,
- vii. Programs, such as;
  - 1. Special Nuclear Material,
  - 2. Radiation control,
