Adopt a technical amendment to the Memorials and Museums Master Plan.

Commission Action

The Commission adopt a technical amendment that will:

Delete four sites in the Reserve from the list of sites appropriate for museums, memorials, and commemorative works: site 10 -- Constitution Gardens south of Constitution Avenue; site 18 -- South of Ash Road at the National Park Service horse stables, West Potomac Park; site 43 -- along the Potomac River shoreline in West Potomac Park (south of Lincoln Memorial); and site 70 -- along the Potomac River shoreline in West Potomac Park (west of FDR Memorial). Further, to implement this decision, NCPC will modify the maps on its website, and will place in each printed version of the Plan an amending page reflecting this action.
