

**U.S. Army Corps of Engineers – Charleston District  
Checklist for 2012 Nationwide Permit Review  
Nationwide Permit 7**

**Outfall Structures and Associated Intake Structures  
(10/404)**

SAC#: \_\_\_\_\_

Applicant Name: \_\_\_\_\_

Waterway/Location: \_\_\_\_\_

Project Name: \_\_\_\_\_

**\* A Pre-Construction Notification (PCN) is required for all activities authorized by NWP 7**

1. Is the activity related to the construction or modification of outfall structures and associated intake structures, where the effluent from the outfall authorized, conditionally authorized, or specifically exempted by, or otherwise in compliance with regulations issued under the National Pollution Discharge Elimination System (Section 402 of the Clean Water Act) program?

Yes\*                      \_\_ No

2. Is the construction of the intake structure directly associated with an authorized outfall structure?

Yes\*                      \_\_ No                       NA

3. Are all of the applicable NWP General and Regional Conditions satisfied, including endangered species, and cultural resources, and if any Federally listed species and/or designated critical habitat occurs in the action area, have you made an effect determination and properly documented it in the administrative record?

Yes\*                      \_\_ No

4. Is the activity located adjacent to an authorized federal navigation project? These federal navigation areas include Adams Creek, Atlantic Intracoastal Waterway (AIWW), Ashley River, Brookgreen Garden Canal, Calabash Creek, Charleston Harbor (including the Cooper River and Town Creek), Folly River, Georgetown Harbor (Winyah Bay, Sampit River, and Bypass Channel), Jeremy Creek, Little River Inlet, Murrells Inlet (Main Creek), Port Royal Harbor, Savannah River, Shem Creek (including Hog Island Channel & Mount Pleasant Channel) Shipyard Creek, Village Creek, and Wando River.

Yes\*                       No

5. Is the intake structure screened to prevent entrainment of juvenile and larval organisms AND is the inflow velocity of the associated intake structures limited to  $\leq 0.5\text{ft/sec}$ ?

Yes\*       No       NA\*

6. Does the activity occur in the immediate vicinity of the outfall AND is the activity necessary for the overall construction or operation of the outfall (e.g. pump equipment, rip-rap)?

Yes\*       No       NA\*

7. Does the activity include ancillary activities such as construction of access roads, installation of utility lines leading to or from the outfall or intake structures, construction of buildings, distant activities, etc?

Yes       No\*

8. Is the activity proposed in designated critical resource waters or their adjacent wetlands? (critical resource waters include NOAA-managed marine sanctuaries and marine monuments, and National Estuarine Research Reserves)

Yes       No\*

TO QUALIFY FOR THE NWP, UNLESS OTHERWISE NOTED, EVERY NUMBERED ITEM MUST HAVE A CHECKED BOX.

\* - REQUIRES A PRE-CONSTRUCTION NOTIFICATION (PCN) TO THE DISTRICT ENGINEER. **SEE THE SEPARATE PCN CHECKLIST TO ENSURE THE PROSPECTIVE PERMITTEE SUBMITS THE REQUISITE INFORMATION.**

Remember, determination of completeness must be made within 30 days of the date of receipt. If all required information is not provided, the prospective permittee will be notified that the preconstruction notification (PCN) is still incomplete and the review will not commence until all requested information has been received. If the applicant has not received any written notice from the DE within **45 days** of the date of receipt of the PCN, ***the verification is issued by default.***
