

APPENDIX H – ACKNOWLEDGEMENTS

The authors – J. Heather Woll, Roger Surdahl, Randy Everett, and Ron Andresen – would like to express their appreciation to the following individuals who helped make this project a success.

- Specific FHWA CFLHD engineers and managers for providing information and oversight in support of this unusual project:
 - Wendy Hilgers, Project Designer
 - Milt Ashby, Project Engineer
 - Michael Peabody, Materials Engineer
 - Seth Greenwell, Construction Engineer
 - Bob Welch, Technical Services Engineer

- The construction contractor for his efforts in scheduling and coordination during the application and processing of the products:
 - Rance Bare, Project Manager, Desert Sage Contractors, Inc., Idaho Falls, Idaho

- The manufacturers and suppliers of the stabilization and dust palliatives used on the project:
 - John Sedwick, Nature Plus, Inc. – TerraZyme
 - Lou Snow, DustPro, Inc. – Lignosulfonate
 - Eugene Nutsch, Idaho Enzymes, Inc. – PermaZyme
 - Todd Hawkins, Earth Care Consultants – Soil Sement
 - Klif Rader, Desert Mountain Corp. – Caliber and Mag/Lig

- The Seedskafee National Wildlife Refuge staff for providing information and onsite assistance during the two-year evaluation, and especially:
 - Carol Damberg, Refuge Manager
 - Bart McDermot, Assistant Refuge Manager
 - Gene Smith, Maintenance Manager
