

**APPENDIX D – ACKNOWLEDGEMENTS**

The authors, Roger Surdahl, J. Heather Woll, and Rick Marquez, would like to express their appreciation to the following individuals without whom this project could never have been a success:

- Specific FHWA CFLHD Engineers for providing information and technical comments used to develop this document and for reviewing the document:
  - Brian Dabling, Project Engineer
  - Randy Everett, Construction Operations Engineer
  - Michael Peabody, Materials Engineer
  - Ron Andersen, Materials
  - Randall Caley, Materials
  
- The construction contractor for his effort in scheduling and coordination during the application and processing of the products:
  - Mario Zappa, Project Manager, A & S Paving, Construction Contractor, Tucson, Arizona
  
- The manufacturers and suppliers of the stabilization and dust palliatives used on the project:
  - Todd Hawkins, Midwest Industrial – Soil Sement
  - John Sedwick, Nature Plus, Inc. – Terrazyme
  - Eugene Nutsch, Idaho Enzymes, Inc. – Permazyme
  - Klif Rader, Desert Mountain Corp. – Caliber, Lignosulfonate, Mag/Lig, and Mag/Cl
  
- The Buenos Aires NWR staff for providing information and on site assistance during the 24-month evaluation, and especially:
  - Wayne Shifflett, Refuge Manager
  - Sally Gall, Refuge Operations Specialist
