

# Appendices H and I of the 2011 FDIC National Survey of Unbanked and Underbanked Households

---

Detailed State and MSA Tables

September 2012

---

  
**Members of the FDIC Unbanked/Underbanked Survey Study Group**

Division of Depositor and Consumer Protection: Susan Burhouse, Sarah Campbell, Timothy Critchfield, Keith Ernst, Ryan Goodstein, Yazmin Osaki, Luke Reynolds, and Sherrie Rhine

Division of Insurance and Research: David Chapman, Eric Robbins, and Katherine Samolyk

Legal Division: Leneta Gregorie

**Lead Authors**

Susan Burhouse and Yazmin Osaki

**Lead Statistical Analysts and Advisors**

Sarah Campbell, David Chapman, and Ryan Goodstein

**Contributors:**

Michael Bachman, Karyen Chu, Peggi Gill, Anirudh Sarna, Francis Solomon, David Spanburg, Masseh Tahiry, and Kathy Zeidler

Notes:

<sup>a</sup> For comparability purposes, the estimates include households that have an account, but used non-bank check cashing, non-bank money orders, payday loans, rent-to-own, and pawn shops in the last year. The estimates exclude non-bank remittances and refund anticipation loans because the 2009 survey did not ask about non-bank remittances and asked about the use of refund anticipation loans in the last five years as opposed to the last year.

\* Indicates differences that are statistically significant at the 10% level.

Figures do not always reconcile to totals because of rounding.

2009 data revised September 2012. Refer to 2009 and 2011 FDIC National Survey of Unbanked and Underbanked Households and Technical Notes for terms, definitions, and methodological discussion.

**Table H-5 2011 Household Bank Account Type by State**

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Non-homeowner	389	28.5	69	17.8	190	49.0	16	4.2	111	28.5	2	0.4	301	77.5	207	53.2

Notes:

Figures do not always reconcile to totals because of rounding.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

2009 data revised September 2012. Refer to 2009 and 2011 FDIC National Survey of Unbanked and Underbanked Households and Technical Notes for terms, definitions, and methodological discussion.

\* Indicates differences that are statistically significant at the 10% level. 2009 estimates have been revised based on new weights provided by Census.

^ For the MSA results presented in the tables of this report, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB. The reasons for such exclusions are given in Appendix E of the full report, FDIC Technical Notes.

Figures do not always reconcile to totals because of rounding.

Wichita, KS	222	57	25.9	229	70	30.6	4.7

Notes:

<sup>a</sup> For comparability purposes, the estimates include households that have an account, but used non-bank check cashing, non-bank money orders, payday loans, rent-to-own, and pawn shops in the last year. The estimates exclude non-bank remittances and refund anticipation loans because the 2009 survey did not ask about non-bank remittances and asked about the use of refund anticipation loans in the last five years as opposed to the last year.

<sup>\*</sup> Indicates differences that are statistically significant at the 10% level.

<sup>^</sup> For the MSA results presented in the tables of this report, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB. The reasons for such exclusions are given in Appendix E of the full report, FDIC Technical Notes.

2009 data revised September 2012. Refer to 2009 and 2011 FDIC National Survey of Unbanked and Underbanked Households and Technical Notes for terms, definitions, and methodological discussion.

Figures do not always reconcile to totals because of rounding.

Notes:  
 Figures do not always reconcile to totals because of rounding.  
 - = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.  
 ^ For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

At Least \$75,000	193	23.4	-	-	3	1.4	176	91.3	14	7.3
<b>Homeownership</b>										
Homeowner	534	64.8	7	1.3	46	8.7	437	81.9	43	8.1
Non-homeowner	290	35.2	77	26.7	81	27.9	128	44.2	3	1.2

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

<b>Homeownership</b>										
Homeowner	1,555	63.9	60	3.8	344	22.1	1,128	72.6	23	1.5
Non-homeowner	878	36.1	179	20.4	326	37.1	359	40.9	14	1.6

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

<b>Homeownership</b>																
Homeowner	376	62.7	9	2.5	335	89.0	-	-	28	7.5	4	1.1	363	96.4	335	89.0
Non-homeowner	224	37.3	27	12.0	164	73.1	10	4.5	19	8.4	4	2.0	182	81.5	174	77.7

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Homeowner	156	69.5	1	0.7	123	79.2	2	1.0	28	18.3	1	0.9	152	97.5	125	80.2
Non-homeowner	68	30.5	10	14.1	34	49.3	5	6.8	20	29.8	-	-	54	79.1	38	56.1

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

At Least \$75,000	249	29.1	-	-	22	9.0	221	88.6	6	2.4
<b>Homeownership</b>										
Homeowner	558	65.0	2	0.4	55	9.9	491	88.0	9	1.7
Non-homeowner	300	35.0	24	8.0	65	21.8	199	66.3	12	3.9

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

At Least \$75,000	345	24.9	-	-	47	13.7	298	86.3	-	-
<b>Homeownership</b>										
Homeowner	850	61.4	31	3.7	163	19.2	643	75.7	12	1.4
Non-homeowner	534	38.6	144	27.1	146	27.3	230	43.1	13	2.5

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

Between \$30,000 and \$50,000	108	25.1	13	11.9	24	22.2	69	63.6	3	2.3
Between \$50,000 and \$75,000	71	16.6	NA	NA	NA	NA	NA	NA	NA	NA
At Least \$75,000	116	26.9	-	-	27	23.3	89	76.7	-	-
<b>Homeownership</b>										
Homeowner	292	67.9	-	-	58	19.7	232	79.4	3	0.9
Non-homeowner	138	32.1	50	36.6	25	17.8	60	43.5	3	2.1

Notes:

Figures do not always reconcile to totals because of rounding.

NA = Not available because the sample size was too small to make an accurate estimate.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.

Notes:

Figures do not always reconcile to totals because of rounding.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

For the MSA results presented in this table, response data may not be included for a few of the smaller counties included in the official MSA definitions prepared by OMB.
