**Part 2 Basic Provisions****40 Overview**

## Section 1 Determining Eligibility

41 Determining Producer Eligibility

---

## A

**Basic Requirements**

For a producer to be eligible for loans and LDP's, the producer, as landowner, landlord, tenant, or sharecropper, must have:

- produced the eligible upland or ELS cotton for which a loan or LDP is requested, as applicable
- for loans, beneficial interest in the cotton from the time of harvest through the date the loan is requested and must keep beneficial interest continuously until redemption of the cotton or until CCC takes title to the cotton
- for LDP's, beneficial interest in the cotton from the time of harvest through the date LDP is requested.

**Note:** See paragraph 45.6 for other eligibility requirements.

---

## B

**Beneficial Interest**

\*--[7 CFR 1427.5(e)] A producer is considered to have beneficial interest in--\* the cotton if all of the following remain with the producer:

- control of the cotton

**Notes:** A producer is considered to have control of the cotton if the producer keeps the ability to make all decisions affecting the cotton, including movement, sale, and pledging as collateral for loan.

\*--The producer is not considered to have lost control of the cotton if an option to redeem the loan collateral has been provided to another person or entity as long as the producer also keeps the right to redeem the collateral from loan.--\*

---

Continued on the next page

## 41 Determining Producer Eligibility (Continued)

---

### B Beneficial Interest (Continued)

- risk of loss

**Note:** A producer is considered to have the risk of loss in the cotton if the producer is responsible for any loss of or damage to the cotton. If the cotton is insured, any indemnity to be paid must be paid to the producer or the producer's account.

- title.

**Note:** A producer is considered to have title to the cotton if the producer has not sold or delivered the cotton, including the delivery of warehouse receipts, to the buyer.

**Important:** Once beneficial interest in the cotton is lost by the producer, the cotton remains ineligible for loan or LDP even if the producer regains control, risk of loss, and title.

---

### C Restrictive Contract Clauses

If a contract contains any of the following restrictive clauses, the producer is considered to have lost beneficial interest in the cotton at the time the contract was signed:

- buyer has the option to require the producer to obtain a loan or LDP on the cotton
- buyer can prohibit the producer from obtaining a loan or LDP, unless prior approval is obtained from the buyer.

**Note:** An addendum to the contract to remove any restrictive clause must be executed before ginning and initialed by both parties.

---

### D Payments

If a contract contains language that provides a payment to the producer or the producer's account, beneficial interest shall be considered divested at the time the payment is made.

---

Continued on the next page

**41 Determining Producer Eligibility (Continued)**

---

**D  
Payments  
(Continued)**

**Note:** See subparagraph J when payment is not associated with the sale of the cotton.

**Exception:** A producer is not considered to have divested beneficial interest in the cotton when a payment is received if the contract is an option to purchase, the payment is for the option to purchase, and the contract contains the following provision written exactly as shown:

"Notwithstanding any other provision of this option to purchase, title; risk of loss; and beneficial interest in the commodity, as specified in 7 CFR Part 1427, shall remain with the producer until the buyer exercises this option to purchase the commodity. This option to purchase shall expire, notwithstanding any action or inaction by either the producer or the buyer, at the earlier of: (1) the maturity of any Commodity Credit Corporation price support loan which is secured by such commodity; (2) the date the Commodity Credit Corporation claims title to such commodity; or (3) such other date as provided in this option."

---

**E  
Gin Direct  
Contracts**

If a contract specifies that title, control, or risk of loss is transferred to the buyer immediately at the time cotton is ginned, beneficial interest is considered to be lost by the producer immediately after the cotton is removed from the bale press.

**Note:** This cotton is not eligible for loan; however, the producer may receive LDP's under special gin direct LDP provisions through the County Office. Cotton clerks shall refer producers interested in gin direct LDP's to the County Office.

---

Continued on the next page

**41 Determining Producer Eligibility (Continued)**

---

**F**  
**Equity Sales** If a producer sells equity in the cotton, the cotton is immediately ineligible for a loan or LDP. If the cotton has been pledged as collateral for a loan, immediate repayment of loan principal and charges plus interest is required.

---

**G**  
**Succession in Interest** Succession of beneficial interest is allowed if succession is in both the beneficial interest of the cotton and the farming unit on which the cotton was produced.

**Note:** See paragraph 44 for heirs of a deceased producer.

---

**H**  
**Integrated Entities** The fact that a buyer may also be the storing warehouseman, lender, ginner, or other business shall not be considered a reason to cause beneficial interest to be transferred.

**Note:** If the contract between the buyer and the producer restricts the producer's ability to take possession of the cotton or warehouse receipts, then the producer would be considered to have lost control when the cotton or warehouse receipts are delivered to the integrated entity.

---

**I**  
**Cotton Rejected by Buyer** If cotton is delivered to a buyer or mill that rejects the cotton because minimum standards are not met, beneficial interest shall not be considered lost by the producer if the cotton is returned to the producer.

---

**J**  
**Payments Not Associated With Sale of Cotton** Payments by buyers to producers for services, such as transportation and storage, shall not cause beneficial interest to be transferred unless the payment is conditional on the eventual sale of the cotton.

---

**41 Determining Producer Eligibility (Continued)**

---

\*--K

**Combination  
Lease Agreement**

COC shall determine the type of lease, according to 1-PF, if both cash provision and share of crop production provision are contained in a lease agreement on a farm. Based on the COC determination, beneficial interest in the crop for the producers involved in the lease may be questioned.

When beneficial interest is questioned because of a combination lease, contact the Supervisory County Office for a beneficial interest determination.--\*

---

**42, 43 (Withdrawn--Amend. 5)**

**44 Heirs of a Deceased Producer**

---

A

**Succession of  
Interest**

- succeed to the beneficial interest of the deceased producer in both the cotton and the farming unit on which it was produced
  - assume the decedent's obligation under a loan if a loan has already been obtained.
-

45 Estates and Trusts

---

**A**

**Eligibility by  
Type**

The following shall be eligible if their representative authority is legally valid according to Part 1, Section 2:

- receiver of an insolvent debtor's estate
  - executor or an administrator of a deceased person's estate
  - ward of an incompetent person
  - guardian of an estate of a ward or an incompetent person
  - trustee of a trust estate.
-

**\*--45.5 Producers Who Are Warehouse Operators**

---

**A  
Policy**

Loans may be made to a warehouse operator who, in a producer's capacity, tenders to CCC warehouse receipts issued by the warehouse operator on cotton produced by the warehouse operator. This applies only in States where the issuance and pledging of warehouse receipts are valid under State law.--\*

---

**45.6 Other Producer Eligibility Requirements**

---

**A**

**HELC and WC Provisions**

Producers who do not comply with HELC and WC provisions are not eligible for price support loans or LDP's for the crop year in which noncompliance occurs.

---

\* \* \*

**B**

**Controlled Substances**

Producers who are convicted under Federal or State law of a controlled substance violation shall be ineligible for CCC loans and LDP's.

---

**46 Determining Cotton Eligibility**

---

**A  
Separate  
Commodities**

Upland and ELS cotton are considered separate commodities. Compliance with eligibility requirements for 1 kind of cotton will not be affected by the producer's noncompliance with respect to the other kind of cotton.

**Note:** ELS cotton is not eligible for LDP.

---

**B  
Basic  
Requirements**

The upland or ELS cotton must be:

- produced by the producer who tenders it for loan
- produced in the United States in the current crop year
- in existence and in good condition
- insured at the full loan value against loss or fire damage**
- produced on a farm for which acreage has been reported on FSA-578.**--\***

The cotton must not have been sold, purchased, or formerly placed under CCC loan and redeemed.

In addition, cotton is not eligible for loan or another LDP if LDP has been approved on this cotton.

**Note:** Producers cannot repay LDP's to cause the cotton to be eligible for a loan or a subsequent LDP.

**\*--Cotton for which LDP was requested but denied because of payment limitation remains eligible for loan.--\***

Cotton clerks who advance funds without contacting the applicable County Office shall be responsible for collecting any refunds from the producer because the maximum quantity was exceeded.

---

**47 Landlord-Tenant Provisions**

---

**A**

**Divided Cotton**

If the bales of cotton are divided among the producers entitled to share in the cotton, each landlord, landowner, tenant, and sharecropper may obtain a loan or LDP on that individual's separate share.

---

**B**

**Cotton Not  
Divided**

If the cotton is not divided, all producers who have a share in the cotton must obtain a joint loan or LDP.

**Note:** If 1 or more producers who share in the bale are considered ineligible for loan, the entire bale is ineligible for loan or LDP.

---

**C**

**Ineligible for

## 66 Liens and Lien Waivers

**A****Basic Requirement**

Cotton for loan must be free and clear of all liens and encumbrances when the loan \*--is disbursed, with the exception of the following:

- loans made to a producer who will immediately exchange a commodity certificate for the cotton loan collateral

Accept warehouse receipts showing "freight due" as collateral security for loans.

A joint disbursement of loan proceeds to the producer and lienholder does not satisfy the requirement for lien waiver.

**Note:** No additional liens or encumbrances shall be placed on the cotton after the loan is approved.

\* \* \*

**B****Determining Whether or Not Lien Exists**

To determine whether or not a lien exists, cotton clerks shall make a lien search on **all** cotton to be pledged for loan at the appropriate recording official's office.

**Note:** If actual notice of the existence of an unrecorded lien is provided to the cotton clerk by the lienholder in person or in writing, consider the lien an existing lien.

Unginned Cotton**

Use CCC-Cotton AA to process LDP applications when the following 3 conditions are met:

- producers request to “lock-in” AWP
- producer’s eligible cotton has been harvested

Such requests lock in the LDP payment rate that will be provided after the cotton is ginned and bale information is provided. Lock-in requests will expire if bale information is not provided within 30 calendar days after the final date of availability (May 31).

**Note:** Requests for LDP’s based on a locked-in rate, once submitted, may not be canceled or revised by the producer. However, cotton for which the lock-in is provided, but LDP is not provided because of payment limitation, is eligible to be pledged for loan. **Any initial AWP lock-in on CCC-Cotton AA does not apply to such loan.**

Complete CCC-Cotton AA according to this table if producers request a lock-in of AWP for harvested cotton in storage before ginning.

The undersigned producer(s) ("Producer"), hereby make application for a loan deficiency payment (LDP) in accordance with 7 CFR Part 1427 with respect to the upland cotton produced on the farm indicated above during the crop year indicated above. As a condition to receiving such loan deficiency payment, the Producer hereby represents and agrees as follows:

- The Producer agrees (1) that the production for which LDP is requested is eligible to be pledged as collateral for a CCC loan and does not reflect production previously used for an LDP and has not been or will not be pledged in the future as collateral for a CCC loan unless the LDP is denied due to payment limitation.
- The Producer is eligible to obtain a CCC loan with respect to their share of the upland cotton indicated on the attached production evidence provided by the Producer in the capacity of landlord, landowner, tenant, or sharecropper.
- With respect to the cotton indicated on the production evidence provided by the Producer:
  - The Producer has and always had beneficial interest in such cotton in accordance with the regulation governing the cotton loan program for the above indicated crop year.
  - Such cotton has not been acquired directly or indirectly from a share tenant or sharecropper.
  - If the Producer is a share tenant or sharecropper, each landlord who has an interest in such cotton has jointly signed this application.
  - Such cotton is in existence and is not false-packed, water-packed, mixed-packed reginned, or repacked.
- The Producer understands that (1) this application is subject to a determination by CCC of the Producer's eligibility to receive an LDP, and that this application and CCC's determination are subject to 7 CFR Part 1427; (2) CCC may require copies of all sales contracts applicable to the production represented by this application; (3) if CCC determines that the producer has misrepresented the eligibility of the production covered by this agreement, CCC shall require repayment of the entire LDP plus interest from the date of payment and assess liquidated damages in accordance with 7 CFR Part 1427.
- The Producer agrees that if this LDP application occurs after the cotton has been ginned, the LDP rate will be the rate in effect on the date (on or after the date of the last producer signature) that this application, **having been accurately completed** is received by FSA (submitted).
- Entry of information in Part B of this Application and Certification constitutes an irrevocable application for the AWP to be locked-in on the date **an accurately completed** application is received by FSA (submitted). For such applications, the producer agrees that the LDP rate will be based on the locked-in AWP. Such LDP rate will apply to the cotton bales produced from the unginned cotton identified in Part B. The Producer agrees to submit gin-provided documentation identifying the bales produced from the module/storage unit for which the AWP lock-in applies and agrees to pay liquidated damages for applications based on a locked-in rate not supported by bale-identifying documentation.
- The Producer agrees this request for LDP is irrevocable and cannot be canceled or revised unless the LDP is denied due to payment limitation.

  - (vii) **"Total Loan Amount"** means the amount so identified in the Note.
  - (viii) **"Loan Service Fee"** means the service fee deducted at loan disbursement and is calculated as follows: (A) for wheat, feed grains, oilseeds, peanuts, rice, and seed cotton, the smaller of 1/2 of 1 percent (.005) times the gross loan amount or \$45 per loan plus \$3 for each storage structure, warehouse receipt, rick or module, as applicable, over 1; (B) for ginned cotton, the smaller of 1/2 of 1 percent (.005) times the gross loan amount or \$7.50 per loan plus 90 cents for each bale; (C) for sugar, \$60 per loan; and (D) for distress loans, \$45 per loan.

- (d) **Applicable Sections.** Except as may otherwise be stated herein: (i) Sections 1 through 3, 5 through 8 and 12 are applicable to all loans; (ii) Section 4 is applicable to only nonrecourse loans; (iii) Section 9 is applicable to only farm-stored nonrecourse loans; (iv) Section 10 is applicable to only warehouse-stored nonrecourse loans; (v) Section 11 is applicable to only recourse loans.
  - (e) **Applicable Regulations.** The Note evidences a CCC loan made in accordance with Title 7 of the Code of Federal Regulations. Applicable parts of Title 7 of the Code of Federal Regulations are incorporated by reference as a part of the Note.
2. **EQUAL OPPORTUNITY.** Participation in CCC Programs is open to all eligible applicants without regard to race, color, religion, national origin, age, sex, marital status, or disability.
  3. **LOAN MATURITY.** The Note will mature at the earlier of the maturity date stated in the Note or any earlier date determined by CCC. If CCC makes demand for payment before the stated maturity date, the producer will be notified in writing of the accelerated maturity date.
  4. **LIQUIDATION OF NONRECOURSE LOANS.** On or before the loan maturity date, the producer may repay the loan by paying the amount due. If the producer repays the loan at a rate less than the sum of the loan principal plus charges and interest, the producer must provide to CCC evidence of production of the commodity which had been pledged as collateral for the loan. In lieu of repayment of the amount due, the producer may, in accordance with Sections 9 and 10, deliver the collateral to CCC. In the case of farm-stored loans, the producer shall bear all expenses of the delivery of the collateral to the delivery point stated in the delivery instructions issued by CCC. The producer will pay to CCC any costs incurred by CCC if the producer fails to deliver the collateral in accordance with such instructions. In no event will CCC pay to any party any amount which is received from the sale of the collateral if the sales proceeds are in excess of the amount required to settle the loan based on the quantity and quality of the commodity delivered to CCC as determined in accordance with the schedule of premiums and discounts. CCC will reimburse the producer for receiving charges paid by the producer to the warehouse upon delivery of the loan collateral except: (i) such payment by CCC will not exceed the receiving charge which CCC has agreed to pay to the warehouse; and (ii) no payment shall be paid by CCC if the warehouse has paid a premium to the producer for delivery of the loan collateral to the warehouse. If the producer has not paid such charges to the warehouse, the producer agrees to assign such payment to the warehouse and CCC shall issue such payment to the warehouse for the producer's account.
  5. **WAIVER OF PRESENTMENT.** The producer waives presentment for payment, demand, protest, notice of protest, and notice of non-payment of the Note.
  6. **COLLATERAL.** The kind, class, type, and quantity of the commodity which has been pledged by the producer as collateral for the satisfaction of the loan is described in the Note. With respect to farm-stored loans, the collateral consists of the entire quantity of the commodity which is stored as identified in the Note and any authorized replacement of such quantity. With respect to warehouse-stored loans, the collateral consists of the commodity represented by the warehouse receipts identified in the Note and any required supporting documents.
  7. **PRODUCER'S RESPONSIBILITY.**
    - (a) **General.** The producer must be in compliance with all applicable program requirements and must have beneficial interest in the commodity pledged as collateral for the loan.
    - (b) **Liens.** The producer must pledge commodities which are eligible for loan and which are free and clear of all liens, security interests, and other encumbrances. No additional liens or encumbrances shall be placed on the loan collateral after the loan is approved.
    - (c) **Movement of Collateral.** The producer will not move any collateral from the location stated in the Note without prior written approval of CCC and then only in accordance with instructions issued by CCC. If such movement is not completed as instructed by CCC and the producer's movement of loan collateral prevents CCC from obtaining a first lien on such collateral or the collateral is disposed of, CCC may at its discretion call the loan, assess liquidated damages as specified in Section 7(f), and take other administrative actions, as determined appropriate by CCC, including denial of future farm-stored loans.
    - (d) **Access to Collateral.** The producer will allow CCC to enter the premises and inspect the collateral. In the case of high moisture collateral stored in oxygen-limiting structures, the producer must open the facility when requested by CCC to permit inspection of the collateral. If safe access to the collateral is not provided or if the inspection cap on the facility is not opened to permit visual inspection of the collateral, the loan will be called.

CCC-601, (07-26-96) Page 3

- (e) **Certification.** When the producer certifies to the quantity of the commodity to be pledged as collateral for a loan, the producer must provide an accurate certification of such eligible quantities. If CCC determines that the producer has filed an incorrect certification of such eligible quantity, CCC may at its discretion call the loan, assess liquidated damages, as specified in Section 7(f), and take other administrative actions, as determined by CCC, including denial of future farm-stored loans.
- (f) **Liquidated Damages.** If CCC determines that the producer has violated provisions of Sections 7(c), 7(e), or 8(a), liquidated damages may be assessed on the quantity of the commodity which is involved in the violation. For each violation, CCC will review the actions of the producer to determine if the producer acted in good faith to comply with such provisions. If CCC determines that the producer:
  - (i) Acted in good faith, liquidated damages may be assessed by multiplying the quantity involved in the violation by, (A) 10 percent of the loan rate for the first offense or (B) 25 percent of the loan rate for the second offense. The producer shall pay such liquidated damages plus the principal amount of the loan and charges plus interest with respect to the quantity involved in the violation, within 30 days of notification by CCC, or CCC will call the loan involved in the violation.
  - (ii) Did not act in good faith with regard to the violation, or for cases other than the first or second offense, CCC will call the loan involved in the violation and may assess liquidated damages computed by multiplying the quantity involved in the violation by 25 percent of the loan rate. The producer shall pay such liquidated damages plus the principal amount of the loan and charges plus interest.

**8. LIABILITY OF PRODUCER.**

- (a) **Fraud or Conversion.** If the producer has made a fraudulent representation in obtaining the loan or has engaged in or aided in the conversion of the collateral, the producer will be liable for the amount of the loan, for any additional amounts paid to the producer, and for all costs which CCC would not have incurred had it not been for the fraudulent representation or conversion, plus interest on such amounts. In addition, CCC may assess liquidated damages, as specified in Section 7(f), and take other administrative actions, as determined by CCC, including denial of future farm-stored loans.
- (b) **Poisonous Substances and Contamination.** The producer will be liable for any damage resulting from tendering to CCC any commodity, whether or not accepted by CCC, containing mercurial compounds, toxin producing molds or other substances poisonous to humans or animals.
- (c) **Overdisbursement or Undercollection.** If the amount disbursed under the Note exceeds the amount authorized by the applicable regulations or a repayment made by the producer is insufficient to repay the amount due, the producer will be liable for repayment of such amounts and charges, if any, plus interest.
- (d) **Claims.** If the producer fails to settle the loan within 30 calendar days from the maturity date of the loan, or such other date as CCC may agree to, a claim for the amount due will be established in accordance with 7 CFR Part 1403.
- (e) **Ineligible Commodities.** If at any time CCC determines that the commodity pledged as collateral is ineligible to be pledged as collateral for the loan, the producer shall be liable for the amount of the loan or if the producer repaid the loan at a rate less than the sum of the loan principal plus charges and interest for the ineligible quantity, the producer must repay to CCC the difference between such sum and the repayment amount, plus interest on such amounts. If the producer has received credit from CCC for storage, such amount must also be repaid. Ineligible commodities may not be delivered to CCC in satisfaction of the amount due, except as may be determined by CCC. If CCC allows the producer to deliver the commodity to CCC in satisfaction of the amount due, the value of the commodity shall be determined as specified in Section 11 (f).

**9. FARM-STORED NONRECOURSE LOANS.**

- (a) **General.** This section is applicable to a loan which is made with respect to collateral which is stored in CCC-approved storage under the control of the producer and not in a public warehouse.

- (b) **Settlement.** (i) If the producer elects to deliver the collateral to CCC in satisfaction of the amount due in accordance with Section 4, CCC will not accept delivery of any quantity of commodity in excess of 110 percent of the eligible outstanding loan quantity, at time of settlement, as determined by CCC. If a quantity in excess of the eligible quantity is included on the warehouse receipt tendered to CCC for such delivery, the producer shall provide for the correction of such warehouse receipt and other applicable documents. If the producer does not take action to correct such warehouse receipt, CCC shall provide for such corrected documents and any charges incurred by CCC shall be for the account of the producer. The collateral shall be delivered in bulk form except as determined by CCC. If the loan collateral is delivered to CCC in satisfaction of the amount due, in accordance with Section 4, the value of the collateral for purposes of settlement will be determined using the applicable schedules of premiums and discounts on the basis of the quality of the collateral for the quantity which is delivered to CCC. (ii) Settlement of corn which is collateral will be made on a shelled corn basis. (iii) The producer is responsible for any loss in quantity or quality of the collateral. If the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the amount of such deficiency and charges, plus interest on such deficiency from the date of disbursement. (iv) If the value of the collateral at settlement is greater than the amount due, such excess will be retained by CCC and CCC will have no obligation to pay such amount to any party. (v) If at any time prior to the maturity date of the loan the collateral can no longer be properly stored due to deterioration or for any other reason, the producer may authorize CCC to sell such collateral on behalf of the producer. (vi) Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4.

**10. WAREHOUSE-STORED NONRECOURSE LOANS.**

- (a) **General.** This section is applicable to a loan which has been made with respect to eligible commodities pledged as loan collateral which is stored in a warehouse approved by CCC under a Uniform Grain and Rice Storage Agreement.
- (b) **Rights of CCC.** At any time prior to the date CCC takes title to the collateral or the date the producer redeems such collateral, in order to protect its interest, CCC may move the collateral from one storage location to another storage location or otherwise handle the collateral including the compression of cotton. Any charges incurred by CCC as the result of such action will be paid by the party redeeming such collateral.
- (c) **Settlement.** (i) If the producer elects to forfeit the collateral in satisfaction of the amount due in accordance with Section 4, the value of the collateral for purposes of settlement will be determined using the applicable schedules of premiums and discounts on the basis of the weight, grade, and other quality factors stated on the warehouse receipt or supporting documents. (ii) The producer is responsible for any loss with respect to the quantity or quality of the collateral to the extent that such loss is caused by action or inaction of the producer. If the producer is responsible and, the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the sum of the amount of such deficiency plus charges, and interest which has accrued on such deficiency from the date of disbursement. (iii) If the value of the collateral at settlement is greater than the amount due, the amount of such excess will be retained by CCC and CCC will have no obligation to pay such amount to any party. (iv) Title to the collateral will vest in CCC on the day following the loan maturity date.
- (d) **Cotton Loan Settlement.** If the producer elects to forfeit either upland cotton or ELS cotton loan collateral to CCC in satisfaction of the amount due in accordance with Section 10(a), the producer shall pay to CCC, at rates that are specified in the storage agreement between the warehouse where the cotton is stored and CCC, (A) all warehouse storage charges associated with the forfeited cotton that accrued before the cotton was pledged as collateral for the loan, and (B) any accrued warehouse receiving charges associated with the forfeited cotton, including, if applicable, charges for new bale ties.

**11. RECOURSE LOANS.**

- (a) **General.** CCC may make recourse loans available to eligible producers of high moisture corn, high moisture grain sorghum, seed cotton, sugar, and other commodities, as determined by CCC. If such loans are available, the producer is liable for the entire amount due and may not deliver the collateral to CCC in satisfaction of the amount due, except as may be determined by CCC.
- (b) **Availability of Nonrecourse Loans.** In limited circumstances, CCC may allow the producer to pledge as collateral for a nonrecourse loan the commodity which has been previously pledged as collateral for a recourse loan. The maturity date for such loans shall be as determined by CCC. If this option is made available by CCC, the producer must immediately repay the entire amount due under the recourse loan.

- (c) **High Moisture.** Producers of corn and grain sorghum who normally harvest all or a portion of their crop in a high moisture condition may obtain recourse loans from CCC. High moisture means moisture content in excess of: (i) for corn, 15.5 percent; and (ii) for grain sorghum, 14.0 percent. Producers of such high moisture commodities who deliver such commodities to a feedlot, feed mill, or commercial or on farm high moisture storage that does not meet CCC's requirements for approved storage may acquire, in the same county, a like quantity of such commodity to replace the applicable quantity of high moisture feed grains to obtain a loan. Such producers must: (i) complete the applicable CCC forms and (ii) provide to CCC: (A) certified scale tickets which adequately describe the commodity, the weight of the commodity and the moisture content of the commodity; or (B) if such scale tickets are not available, measurements of the high moisture feed grain made while the commodity was in the field or in storage. Such loans will be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity not to exceed the quantity determined by multiplying: (i) the acreage of the feed grain in a high moisture condition harvested on the producer's farm; by (ii) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grains were obtained.
- (d) **Seed Cotton.** The producer may, prior to the maturity date, with the written approval of CCC move seed cotton from the location where stored to a gin in order to gin such cotton and sell the cottonseed obtained therefrom. (i) If prior to the maturity date the amount due has not been paid, the producer will pay to CCC an amount equal to the proceeds obtained from the sale of the cottonseed and the lint cotton or, if a loan or loan deficiency payment is made by CCC with respect to the lint cotton, CCC will deduct the amount due from any such proceeds which are disbursed. (ii) If prior to the maturity date the amount due has not been paid or the collateral has not been ginned, the producer must, as instructed by CCC, move the collateral to a gin at the producer's expense. If the producer fails to move the collateral as instructed by CCC, CCC may enter the premises and remove, gin, and sell the collateral. Any proceeds from the sale of the collateral will be retained by CCC and applied to the amount due. (iii) If the amount due has not been paid and warehouse receipts have been issued with respect to lint cotton obtained from the collateral, the producer will deliver the receipts to CCC or allow CCC to obtain from any person such receipts. CCC may sell such cotton and retain any proceeds which are obtained, if the amount due has not been paid by the maturity date.
- (e) **Discretionary Loans.** Commodities which are pledged as collateral for a non-recourse loan as provided in Sections 9 and 10 but which are determined to be ineligible to be pledged as collateral for such a loan due to the quality of the commodity or other factors affecting value of the commodity; or the storage of the commodity is unapproved storage, may, at CCC's sole discretion, be pledged as collateral for a recourse loan.
- (f) **Settlement.** (i) If CCC allows the producer to deliver to CCC in satisfaction of the amount due the quantity of the collateral which is described in the Note, the value of the collateral for purposes of settlement will be equal to the proceeds received from the sale of the commodity. Title to the collateral will vest in CCC only after delivery of the collateral to CCC in accordance with Section 4. (ii) The producer is responsible for any loss with respect to the quantity and quality of the collateral. If the value of the collateral at settlement is less than the amount due, the producer will pay to CCC the amount of such deficiency plus charges, and applicable interest with respect to such deficiency from the date of disbursement up to, but not including, the date of repayment. (iii) If the proceeds received from the sale of the commodity are greater than the sum of the amount due plus any costs incurred by CCC in conducting the sale of the commodity, the amount of such excess will be paid to the producer or, if applicable, to any secured creditor of the producer.

**12. ADMINISTRATIVE AND JUDICIAL REVIEW.**

The producer may obtain an administrative hearing in accordance with 7 CFR Part 780 with respect to a dispute arising between CCC and the producer concerning the Note, and must exhaust such administrative remedy prior to initiating a judicial action in a court of competent jurisdiction.
