- fertilizer
- fuel
- plants
- seeds
- supplies
- other inputs as determined by FSA.

11 RTCP Program Eligibility (Continued)

E Eligible Entities

An eligible producer under the RTCP Program must share in the risk of producing an agricultural commodity in substantial commercial quantities and be entitled to a share of the agricultural commodity from the agricultural operation. An eligible producer may include any of the following entities engaged in an agricultural operation:

- individual or group of individuals who are citizens of, or legal resident aliens in, the U.S.
- association, cooperative, corporation, estate, partnership, trust, or other business enterprise or other legal entity whose members are a citizen of, or legal resident alien in, the U.S.

- located in a county in which the principal dwelling is situated, or if there is no dwelling thereon, it will be regarded to be in the county in which the major portion of the land or applicable body of water is located.

12 RTCP Program Eligibility Provisions

A AGI

--Producers who certify on applicable CCC-926 or CCC-931 that their nonfarm average-- AGI exceeds \$500,000 are ineligible for RTCP Program benefits. The relevant periods for determining nonfarm average AGI are as follows:

- calendar years 2006 through 2008 for FY 2010
- calendar years 2007 through 2009 for FY 2011
- *--calendar years 2008 through 2010 for FY 2012.

Note: CCC-931 with 2012 selected must be completed and submitted to the County Office before a RTCP-III payment for FY 2012 can be disbursed.--*

Note: See 4-PL for guidance.

B HELC/WC Provisions

Eligible producers must comply with HELC/WC provisions according to 7 CFR Part 12. If not already completed and on file in the FSA County Office, then producers applying for benefits must certify compliance on AD-1026 **before** RTCP's are issued. See 6-CP for guidance.

C Foreign Person Provisions

Foreign persons legally admitted in the U.S., and in an eligible agricultural operation in an eligible area, are eligible to receive RTCP Program benefits, if they meet the eligibility requirements of paragraph 11 and:

- 7 CFR Part 1400
- 1-PL, Part 3.

See 62-FI, Part 5, for tax reporting guidelines when RTCP's are made to producers that are nonresident aliens.

13 RTCP Program Ineligibility Provisions

A States and Political Subdivisions, and Agencies Thereof

States and political subdivisions, and agencies thereof, are **not** eligible for RTCP Program benefits. These provisions include, but are **not** limited to, State universities and prisons.

B Commercial Fishermen

Commercial fishermen are not considered farmers or ranchers and; therefore, are **not** eligible for reimbursement under the RTCP Program.

C Multiple Producers

Multiple producers, such as the buyer and seller of a commodity, are **not** eligible for RTCP for the same eligible transportation costs.

Example: A producer of hay and a livestock operation that buys the hay.

However, if the multiple producers agree otherwise, only the last buyer will be eligible for RTCP.

14-20 Reserved

Part 3 Computing RTCP's

21 RTCP Program Payment Provisions

A Funding

Funding has been made available to producers under the RTCP Program for reimbursement of transportation costs according to the following table.

FY	RTCP Program	Appropriated Funding
2010	RTCP-I	\$2,600,000
2011	RTCP-II	\$1,996,000 <u>1/</u>
--2012	RTCP-III	\$1,996,000--

1/ After 0.20 percent across-the-board rescission is applied.

Because the spending authority is limited to FY appropriated funding, less a reserve, if funds are not sufficient to cover all FY requests, RTCP's may be prorated by a National factor based on the amount of eligible transportation costs eligible for RTCP.

Although the RTCP Program was authorized for FY's 2008 through 2012, there was no appropriated funding for the RTCP Program for FY's 2008 and 2009. Funds were *--appropriated for FY 2010, FY 2011, and FY 2012 **only**--*

B Basis of RTCP's

RTCP's will be:

- computed based on the amount of costs incurred by the producer for transportation of the agricultural commodity or inputs during a FY and multiplied by applicable percentage of COLA's for the applicable FY in the applicable area

Note: See Exhibit 6 for the applicable COLA's.

*--**Example:** Producer A incurred actual transportation costs in Hawaii for FY 2012 totaling \$15,000. The FY 2012 percentage of allowance in Maui County--* Hawaii is 25 percent. $\$15,000 \times 25 \text{ percent} = \$3,750$. Producer A would receive direct reimbursement in the amount of \$3,750.

- subject to \$8,000 per applicant per FY
- subject to assignments, offsets, and withholdings

21 RTCP Program Payment Provisions (Continued)

B Basis of RTCP's (Continued)

- issued after the date announced for submitting supporting documentation and after all FSA-218's have been filed to determine if the funds available are sufficient to pay each applicant.

Note: If funds are not sufficient to cover all requests, then a formula to prorate RTCP amounts will be necessary.

C Advance RTCP's

There will be **no** advance RTCP's issued under the RTCP Program.

D Assignments and Offsets

RTCP's are subject to assignment and offset.

E Direct Deposit Requirement

DCIA requires any recipient of Federal payments who becomes eligible for that payment after July 25, 1996, to receive the payment by EFT. All producers receiving benefits under the RTCP Program must file SF-3881 or retain SF-1199A according to 1-FI, Part 7.

Note: New ACH/Direct Deposit information shall be obtained on SF-3881 only. County Offices may retain prior SF-1199A.

F Accounting Codes

The RTCP Program accounting codes are:

- 10RTCP-2773, for FY 2010 (RTCP-I)
- 11RTCP-2785, for FY 2011 (RTCP-II)
- *--12RTCP-2789, for FY 2012 (RTCP-III).--*

22 RTCP Transportation Rates

A Types of Transportation Rates

Following are the types of transportation rates used to determine reimbursable amounts.

- **Actual** – Based on the actual costs incurred by the applicant and must be determined, in all cases, from verifiable records. No other type of transportation rate is permitted under this option for the same request.
- **Fixed** – Established by STC with DAFP concurrence and reflect transportation rates applicable to certain agricultural commodities and/or inputs used to produce the agricultural commodity. See Exhibit 2 for definition of fixed.
- **Set** – Established by STC with DAFP concurrence and reflect a percent of the total cost used to reflect the transportation cost incurred. This rate will only be used if the input does not have a fixed rate established or a breakdown of the transportation costs is not available. See Exhibit 2 for definition of set.

B Establishing Fixed and Set Transportation Cost Rates

The fixed and set transportation cost rates will be established by STC for each applicable FY. The State Offices for the eligible areas are Alaska, Florida, Hawaii, and Puerto Rico. Final approval of the fixed and set rates will be made by DAFP to ensure that rates are established in a fair and equitable manner. FSA will post the fixed and set transportation rates at the FSA State and County Offices for the applicable areas.

C Fixed Transportation Rate Sources

Sources that STC's will use to establish fixed transportation rates may include, but are **not** limited to:

- fares and rates posted by the Public Utilities Commission
- transportation rates posted by shipping companies
- surveys of plant nurseries and farm suppliers
- NASS data
- surveys from producers
- State and National studies that examine increased transportation costs in each applicable area
- comparison of average fuel prices within a particular area.

22 RTCP Transportation Rates (Continued)**D Establishing Set Transportation Cost Rates**

STC's will establish a set rate for an agricultural commodity and/or input when a producer does business with companies that do not breakout specific transportation costs, but rather include the transportation cost in the price charged for the service or product.

Example 1: If a geographically disadvantaged producer buys fertilizer in bags at a local store and has a receipt for that input, but the store does not provide information on what percentage of the cost was for transportation, FSA will provide a set rate to the producer for the fertilizer.

Example 2: When geographically disadvantaged producers have eligible commodities and/or inputs shipped in from or to the contiguous U.S. and other countries, producers are eligible for reimbursement because of transportation costs they incurred **only**.

For example, Producer A receives a shipment of 100 head of cattle from California and sells 50 head of cattle to a local producer (Producer B); Producer A is entitled to receive transportation reimbursement for the 100 head of cattle. Producer B is also eligible to receive transportation reimbursement for any of the purchased 50 head of cattle that will be shipped to a buyer.

E Transportation Rates to Use

County Offices shall use the STC-established fixed or set transportation cost rate per unit of measure. Otherwise, if actual costs are provided, producers will receive the actual cost of transportation costs incurred per unit of measure.

23 **STC Established Rates**

A FSA-218-2

Fixed and set transportation cost rates established and approved by STC for eligible agricultural commodities and/or inputs must be submitted on FSA-218-2 (subparagraph C).

For areas where FSA County Offices do **not** exist, FSA-218's may be submitted to the respective State Office.

B Late-Filed FSA-218's

Late-filed provisions will **not** apply to the RTCP Program. FSA-218's received after the deadline date will **not** be approved. This includes FAXed FSA-218's.

C Changing FSA-218's

Producers, who timely file FSA-218 on or before the application deadline provided in subparagraph A, may change or modify the information on FSA-218 on or before *--November 4 (November 5 for FY 2012) of the applicable year, if supporting--* documentation cannot be provided. Any changes to an already approved FSA-218 **must** be reviewed and approved by STC, COC, or designee.

33 Signup Provisions**A CCC-770 Eligibility**

CCC-770 Eligibility shall be completed according to 3-PL for each producer **before** RTCP is approved.

B Signature Requirements

County Offices shall follow 1-CM for the following:

- producer's signature and authorization provisions
- persons signing FSA-218 in a representative or fiduciary capacity

C Multiple Producers

If an operation consists of more than 1 producer:

- complete one FSA-218 for the entire operation
- include all producers who share in the operation on FSA-218
- obtain signatures of all producers in the operation on FSA-218 according to subparagraph B.

D Joint Ventures

For joint ventures without a permanent TIN, enter the joint venture name in FSA-218, item 6A on. Enter each individual member's TIN and share percentage data in FSA-218, Part F on. This ensures that RTCP's will be issued to each member's TIN.

***--Note:** Joint ventures and similar entities can only receive one \$8,000 limitation for RTCP program purposes, regardless of the number of members.--*

34 RTCP Approval Process

A Approving FSA-218's

STC, COC, or designee, shall:

- be satisfied that all eligibility requirements provided in paragraph 11 have been met **before** approving FSA-218
- ensure that CCC-770 Eligibility is completed according to 3-PL for each producer **before** a producer's RTCP is approved
- ensure that FSA-218, production evidence, and any other supporting documentation that substantiates qualifying transportation cost losses to STC's, COC's, or designee's satisfaction have been received
- **not** approve any FSA-218 that was requested or received after COB on the deadline date for the applicable FY
- **not** approve FSA-218's for a joint venture unless all members of the joint venture or joint operation who have a respective share in the eligible transportation costs have signed FSA-218.

C Partial Approvals and Disapprovals

STC's, COC's, or designees may approve or disapprove portions of FSA-218. FSA-218's may be partially approved for reductions to transportation costs for disapproved portions. If FSA-218 is disapproved because all or a portion of the transportation costs do not meet RTCP-eligibility criteria, and during the appeal process the producer provides verifiable *--evidence that all or a portion of the transportation costs incurred were the result of being--* geographically disadvantaged, STC, COC, or designee may approve FSA-218 according to the evidence provided.

35 RTCP Documentation**A Supporting Documentation**

To be eligible for reimbursement of actual transportation costs, the producer must provide supporting documentation that substantiates the actual costs incurred for transportation of each eligible agricultural commodity and/or input. Producers will be required to certify on FSA-218 whether he/she have actual documentation.

B Deadline to Submit Supporting Documentation

Producers who request RTCP benefits for actual transportation cost rates **must** submit ~~*-~~supporting documentation to the State or County Office by COB November 4 (November 5 for FY 2012) following the applicable FY. If supporting documentation to support actual transportation costs is not received in the State or County Office on or before November 4 (November 5 for FY 2012) following the applicable FY, the State or County Office will use the approved fixed or set rate established for the applicable agricultural commodity and/or input.

Producers who request RTCP benefits using either the fixed or set transportation cost rate must also submit supporting documentation to the State and County Office by COB November 4 (November 5 for FY 2012) following the applicable FY.~~*-~~*

C Compliance Checks

Since proof of eligible reimbursement costs incurred will be submitted when FSA-218 is submitted, no further compliance check will be necessary by the State or County Office.

D Documentation Exceeding \$10,000

To alleviate some potential burden on the producer and FSA State and County Offices, supporting documentation exceeding a total of \$10,000 in eligible reimbursement costs incurred per applicant will **not** be required. However, if the County Office determines at the conclusion of signup, based on the amount of applicants, that eligible reimbursable transportation costs do not meet State or County Office's expectations, those applicants must be contacted for the additional supporting documentation.

35 RTCP Documentation (Continued)

E Changing Transportation Cost Category

Producers, who originally submit FSA-218 for a fixed and/or set transportation cost category, can make changes to FSA-218 to request the actual transportation cost category, if supporting documentation to substantiate the actual costs incurred can be provided to the State or *--County Office by COB November 4 (November 5 for FY 2012) following the applicable--* FY. Any change made to the transportation cost category **must** be made in ink and initialed and dated by the producer.

PART A - TRANSPORTATION RATES
 There will be three types of transportation rates used to determine reimbursable amounts. These are defined as: actual, fixed, and set transportation rates.

ACTUAL TRANSPORTATION RATES: are rates based on the actual costs incurred by the applicant and must be determined from verifiable records in all cases.

FIXED TRANSPORTATION RATES: are established by State FSA Committee (STC) with Deputy Administrator for Farm Programs (DAFP) concurrence and reflects transportation rates applicable to certain agricultural commodities or inputs used to produce the agricultural commodity.

SET TRANSPORTATION RATES: are established by STC with DAFP concurrence and reflects a percent of the total costs used to reflect the transportation cost incurred. This rate will be used only if the input does not have a fixed rate established or a breakdown of the transportation costs cannot occur.

NOTE: For those applicants who certified their costs, and either a fixed transportation rate or set transportation rate is used to determine reimbursable amounts, a compliance spot check will be developed in which those selected applicants would be required to provide verifiable proof that the transportation of the agricultural commodity and/or inputs occurred for the applicable fiscal year.

FSA-218's and FSA-218-1's **must** be received in the State Office according to the following table.

FY	Submission Deadline
FY 2010	COB February 18, 2011
FY 2011	COB November 30, 2011
--FY 2012	COB November 30, 2012--

G Secondary Review

All data entered into FSA-218-1 shall be reviewed and verified by a second person to ensure data accuracy. The secondary reviewer shall enter their name and the date the data was reviewed according to subparagraph D. All discrepancies discovered during the review **must** be corrected **before** transmitting FSA-218-1's to the State Office.

H Converting Set Transportation Cost Rates to Percentages

Set transportation cost rate percentages must be manually converted to a dollar value rate **before** entering the set rate in FSA-218-1. To convert the set rate to a dollar value rate, apply the FSA-approved set rate percentage to the agricultural commodity and/or input used to produce the agricultural commodity.

Example: A bag of fertilizer is \$20. The FSA-approved set rate percentage for imports/exports without a fixed rate is 15 percent. The result of multiplying the price of fertilizer times the set rate percentage is \$3 (\$20 x 15 percent = \$3). The result of \$3 is the dollar value to be entered in FSA-218-1, Part C, item 10.
