Acreage and Compliance Determinations	
2-CP (Revision 15)	Amendment 75

U. Cenja Trimmy

Approved by: Acting Deputy Administrator, Farm Programs

Amendment Transmittal

A Reasons for Amendment

Subparagraph 18 B has been amended to provide an exception to final acreage reporting dates when a land lease has been acquired after the final reporting date.

Subparagraph 18 E has been added to provide guidance to State Offices to request a change to crop acreage reporting dates.

Subparagraph 21 D has been amended to extend and clarify the late-filed fee waiver for FSA-578 for the 2013 crop year.

Exhibits 6 and 6.5 have been amended with various clarifications and corrections to final acreage reporting dates.

Exhibit 6.8 has been added to provide guidance to State Offices to request a change to crop acreage reporting dates.

Exhibit 10.5 has been amended to reflect additions and modifications to CVS.

18 Reporting Dates

A Final Reporting Dates

To be eligible for FSA benefits according to subparagraph 16 A, crops must be reported by the final reporting dates in Exhibit 6 or 6.5, as applicable.

Exhibit:

- 6 shall be used for reporting crops until June 30, 2012
- 6.5 shall be used for reporting crops beginning July 1, 2012.

B Exceptions

The following provides exceptions to reporting dates in Exhibit 6 or 6.5, as applicable.

18 Reporting Dates (Continued)

C Reporting Acreage by Appointment

If appointments are used to report acreage, sufficient personnel shall be assigned to ensure that all appointments can be scheduled before the applicable final reporting dates.

D Using Registers

An acreage report register shall be used, according to 1-CM when a certification register is necessary. County Office shall maintain a copy of the acreage report register for future reference.

All automated FSA-578's with a certification signature from the farm operator, owner, or duly authorized representative dated more than 10 workdays after the final reporting date shall be listed by FSN, operator's name, and reason for accepting the report after the final reporting date. DD shall review and initial this list and forward a copy to the State Office.

Notes: DAFP may request the State Office to provide a list of County Offices that needed to prepare a list of FSA-578's certified more than 10 workdays after the final reporting date.

A copy of the register or registers shall be filed in the CP folder and remain on file according to 25-AS.

*--E Requesting Changes to Crop Acreage Reporting Dates

Use Exhibit 6.8 when requesting a change to crop acreage reporting dates. To validate the request, State Offices shall:

- complete Exhibit 6.8, indicating the following:
 - crop/commodity name and crop/commodity type, if applicable, for the request
 - current crop/commodity reporting date
 - proposed crop/commodity reporting date
 - crop years to which the proposed reporting date apply
- prepare a written document to justify the change of crop/commodity reporting date(s).--*

18 Reporting Dates (Continued)

*--E Requesting Changes to Crop Acreage Reporting Dates (Continued)

The justification should address the following criteria:

- provide reasoning behind why approving the change would reduce the burden on producers
- if the proposed acreage reporting date conflicts with requirements already established for farm programs or crop insurance associated with the crop/commodity

Note: Proposed acreage reporting dates that conflict with FSA, RMA, or other USDA requirements will still be considered for approval depending on the nature of the conflict.

- if other similar or closely related crops/commodities are associated with the proposed final acreage reporting date
- the proposed acreage reporting date should not increase, and ideally would reduce the total number of crop acreage reporting dates established for the State

Note: If the proposed acreage reporting date does increase the total number of dates for the State, explain the reasoning why it would further reduce the burden on producers.

• if the proposed reporting date for the crop/commodity significantly differs from the established reporting date for the crop/commodity in any neighboring State, provide the reasoning behind why the discrepancy does not pose a burden on producers, including multi-State producers.

State Offices shall submit **both** of the following to Todd Anderson by e-mail at **todd.anderson@wdc.usda.gov**:

- completed Exhibit 6.8
- written justification based on State Office research and analysis.

Notes: Requests for changes will **not** be considered unless all required parts are included.

Requests are **not** guaranteed approval and will be reviewed and approved or disapproved by a USDA Acreage Reporting Dates review board consisting of members of multiple USDA Agencies, including NASS, NRCS, and RMA.--*

21 Late-Filed Report of Acreage (Continued)

B Late-Filed FSA-578 for FAV History, NAP APH, CRP Cropping History, or 2008 SURE

A late-filed FSA-578 may be accepted after physical existence of the crop or crop residue is gone if the producer:

- is reporting acreage for establishing FAV history, APH data base for NAP eligibility purposes, cropping history for CRP purposes, or 2008 SURE
- provides acceptable evidence, to COC's satisfaction, to prove existence and disposition of the crop, according to subparagraph F.

C Late-Filed FSA-578 for * * * Nursery and Aquaculture

- *--FSA-578 filed after the reporting deadline for the ensuing nursery or aquacultural crop year may be accepted if all of the following occur:--*
 - producer was prevented by circumstances beyond the producer's control from timely filing the report
 - late-filed FSA-578 is for the inventory for the remaining months of the crop year
 - late-filed FSA-578 is filed before the date of disaster, which is the basis for an application for payment.
 - *--Note: The acreage reporting date for:
 - nursery is May 31
 - aquaculture is September 30.--*

A late-filed FSA-578 shall **not** be accepted after either of the following:

- end of the crop year for which FSA-578 is required
- natural disaster occurs, which is the basis for an application for payment.

* * *

*--Note: The crop year for:

- nursery begins June 1 and ends May 31
- aquaculture begins October 1 and ends September 30.

Follow 1-NAP, Part 4, Section 2 for NAP Unit reporting requirements applicable to each kind of value loss crop.--*

21 Late-Filed Report of Acreage (Continued)

D Late-Filed Fees and Acreage Verification

*--Implementation of the new acreage reporting dates begins July 1, 2012. From July 1, 2012, through September 15, 2013, late-filed fees will **not** be assessed for crops with final--* reporting dates in Exhibit 6.5 that fall within that timeframe.

Notes: Late-filed fees will still be assessed for late-filed crops and acreage reported for **prior** crop years.

Example: A producer who late files CRP on FSA-578 for crop year 2011 on July 16, 2012, would be charged a late-filed fee.

Field visit spot checks will **not** be required for crops with final reporting dates during this timeframe; however, RMA data and current year's NAIP imagery shall be used, when available, to verify and determine the crop or crop residue and the crop's acreage and use.

If a:

- prevented planting claim is late-filed on CCC-576 in conjunction with a late-filed acreage report, only 1 late-filed fee will apply, except when filed from
 *--July 1, 2012, through September 15, 2013
- crop is late-filed for prevented planting on CCC-576, but the same crop is timely filed for the applicable crop year from July 1, 2012, through September 15, 2013, on FSA-578, a late-filed fee **will** be assessed.

FSA-409 completion will **not** be required for FSA-578's for which the late-filed fee is waived and field visit spot checks are **not** completed.--*

The following provides instructions for charging late-filed fees and verifying acreage.

E Recording Prevented Planted Acreage on FSA-578 When Spot Check or Measurement Service Determines Less Than the Reported Acreage Is Prevented Planted

Use the following to record prevented planted acreage on FSA-578 when less than the entire reported acreage is determined prevented.

IF the producer has reported prevented planted acreage and	THEN
less than the reported acreage is determined prevented	load the acreage determined in the determined acreage field on FSA-578
	Note: If another crop is reported, only approved prevented planted shall be loaded on FSA-578 with a subsequent status code. The acreage considered disapproved, shall be loaded on FSA-578 with an initial status code of "I".

Example 1: When entire reported acreage is determined not prevented and **no other crop** is reported.

Field	Crop	Status Code	Reported Acreage	Determined Acreage
3	Wheat	IP	60	0

Example 2: When entire reported acreage is determined not prevented and **another crop** is reported.

Crop Reporting Dates Before July 1, 2012

A Introduction

This exhibit lists FSA farm program crop reporting dates established by State.

B NAP Acreage Reports

The final date for reporting any specific crop acreage for NAP eligibility is the earlier of the following:

- the established acreage reporting date in this exhibit
- 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported
- the established normal harvest date for the end of the coverage period.

*--The established final reporting date for value loss and controlled environment crops is September 30 for the ensuing crop year.

Exceptions: The final reporting date for honey is:

• January 2 of the same crop year

Example: January 2, 2011, for the 2011 crop year.

Note: The crop year for honey production is the calendar year January 1 through December 31.

• within 30 calendar days of the date colonies of bees are acquired, brought into, or removed from the county.

The final reporting date for nursery is May 31.--*

Tropical Region provisions apply according to 1-NAP for Hawaii, Puerto Rico, American Samoa, Guam, the U.S. Virgin Islands, and the former Trust Territory of the Pacific Islands (the Commonwealth of Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau).

Crop Reporting Dates Before July 1, 2012 (Continued)

C List of Crop Reporting Dates Before July 1, 2012

The following table lists crop reporting dates for farm programs, including NAP, except as provided in subparagraphs B and 18 B.

	Tobacco	May 31
	Summer-seeded crops	June 30

A Introduction

This exhibit lists FSA farm program crop reporting dates established by each FSA State Office and RMA Regional Office. This is a cooperative effort between multiple agencies allowing crops that are not considered FSA crops to be reported in a common reporting environment.

With incorporating new acreage reporting dates, the following are a few important reminders:

•*--PRF refers to Pasture Rangeland Forage, a program administered by RMA

Note: Perennial Forage crops shall be reported by the same date as specified for PRF, unless otherwise designated for the State.

• Perennial Forage crops intended for "Seed" may be reported by the latest acreage reporting date for the crop year for all forage crops in the State, unless otherwise specified

Example: For the 2013 crop year, Perennial Forage has a final acreage reporting date of November 15, 2012, and Spring Alfalfa Seed (spring-planted alfalfa intended for "Seed") has a final acreage reporting date of July 15, 2013. Therefore, alfalfa and perennial grass varieties intended for "Seed" would have a final acreage reporting date of July 15, 2013, for the 2013 crop year.--*

- if the crop is a repeat crop and the crop reporting date has passed, then the subsequent plantings shall be reported 15 calendar days before the onset of harvest
- if the crop is:
 - apiculture, which is an RMA crop, use the crop code for honey with the applicable apiculture acreage reporting date as listed in this exhibit
 - honey, which is an FSA crop, the NAP reporting dates apply
- the date ranges used in this exhibit do **not** represent the planting periods defined by 1-NAP

Example: California has multiple reporting dates for potatoes depending on when they were planted. The range of dates used to identify these reporting dates are not the same as the planting periods used for NAP.

A Introduction (Continued)

- for the crops that have a date range or a series of date ranges within a program year, and the crop is planted on a date that is **not** covered by a date range, then the reporting date would be the same as identified for "all other crops" for that State.
- crops that have a date range or a series of date ranges within a program year, and the reported planting date is both after the acreage reporting date for "all other crops" for that State and **not** within the date range specified, shall be reported within 15 calendar days before the onset of harvest.

B NAP Acreage Reports

The final date for reporting any specific crop acreage for NAP eligibility is the earlier of the following:

- •*--the established acreage reporting date for that crop/commodity in this exhibit--*
- 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported
- the established normal harvest date for the end of the coverage period.
- *--The established final reporting date for value loss and controlled environment crops is September 30 for the ensuing crop year.

Exceptions: The final reporting date for honey is:

• January 2 of the same crop year

Example: January 2, 2013, for the 2013 crop year.

Note: The crop year for honey production is the calendar year January 1 through December 31.

• within 30 calendar days of the date colonies of bees are acquired, brought into, or removed from the county.

The final reporting date for nursery is May 31.--*

Tropical Region provisions apply according to 1-NAP for Hawaii, Puerto Rico, American Samoa, Guam, the U.S. Virgin Islands, and the former Trust Territory of the Pacific Islands (the Commonwealth of Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau).
