

FISSEA Security Awareness, Training, & Education Contest

Entry Form

Please review rules before completing entry form including the due date. No late entries will be accepted. E-mail entries to fissea-contest@nist.gov.

Name of submitter: Terri Cinnamon

Organization: Department of Veterans Affairs, Information Technology Workforce Development

Type of Entry: Poster

Title of Entry: Phishing is a Dangerous Sport

Description of Entry:

This poster is one of a series of four in a social media information security campaign. The poster reminds everyone to be careful regarding the information they supply over the Internet.

Posters are distributed throughout VA via the Department's 400 Information Security Officers (ISOs). They are also available to ISOs via download from VA's IT Workforce Development web portal.

The poster reads:

Phishing is a dangerous sport!
Don't get caught in the net.

When scammers troll for personal information, they can use some pretty convincing techniques. Don't get hooked by any request to provide personal information such as user names, passwords, credit card information, social security numbers and home addresses.
