

## **Sandia National Laboratories - Grid Integration Collaborations**

Sandia conducts its grid integration research in partnership with industry, academia, utilities, other national laboratories, research groups, and stakeholder groups. Current collaborations include:

- Integrators
  - SunPower
  - FirstSolar
- Standards Organizations
  - Underwriters Laboratory
  - Institute of Electrical and Electronics Engineers
  - National Institute of Standards and Technology
  - North American Electric Reliability Corporation
  - Western Electricity Coordinating Council
- Stakeholder Groups
  - Solar Electric Power Association
  - Utility Wind Interest Group
- Utilities
  - PNM
  - NV Energy
  - Southern California Edison
  - Arizona Public Service
  - Florida Power & Light
  - Salt River Project
- International
  - New Energy and Technology Development Organization (Japan)
  - Fraunhofer-IWES (Germany)
- National Laboratories
  - National Renewable Energy Laboratory
  - Pacific Northwest National Laboratory
  - Lawrence Berkeley National Laboratory
- Research Groups
  - Electric Power Research Institute
- Consultants
  - BEW
  - Nanoprocessing Partnership Program
