THE MANY COLORS OF THE SUN

Dr. Dean Pesnell, Lead Project Scientist Solar Dynamics Observatory

Sunday, December 12, 2010, Noon- 1:00 PM in the Gateway Ballroom 102

The Solar Dynamics Observatory (SDO) launched in February 2010 for a 5-year mission to explore the Sun. Dr. Pesnell will talk about how SDO data will be used by Space Weather forecasters and solar physicists to explore the Sun, the solar magnetic field, and how the Sun affects us on the Earth.
