<sup>1</sup> Except where otherwise noted, at option of owner. In case of Treasury bonds now outstanding, such bonds may be redeemed only on interest dates, and 4 months' notice of redemption must be given.

<sup>2</sup> Redeemable, at par and accrued interest, to date of payment, at any time upon the death of the owner at the option of the duly constituted representative of the deceased owner's estate, provided entire proceeds of redemption are applied to payment of Federal estate taxes due from deceased owner's estate.

<sup>3</sup> Amounts issued and retired for Series A to F, inclusive, include accrued discount; amounts outstanding are stated at current redemption values. Amounts issued, retired, and outstanding for Series G are stated at par value.

<sup>4</sup> Approximate yield if held to maturity.

<sup>5</sup> Computed at the rate of 16 cents per month per \$100.

<sup>6</sup> Redeemable in payment of Federal income, estate, or gift taxes after one full calendar month has elapsed between month notes were purchased and month in which tendered for taxes. Redeemable for cash at option of owner as follows: Series A of 1945, at any time; Series C of 1945, 1946 or 1947, during and after the sixth calendar month after the month of issue (as shown on the face of each note) on 30 days' advance notice.

<sup>7</sup> Interest is payable with principal at time of redemption. No interest is payable if note is inscribed in the name of a bank that accepts demand deposits, unless note is acquired by such bank through forfeiture of a loan.

<sup>8</sup> Treasury bills are non-interest-bearing and are sold on a discount basis with competitive bids for each issue. The average sale price of these series gives an approximate yield on a bank discount basis as above indicated.

<sup>9</sup> Issued under the authority of and subject to the provisions of the Second Liberty Bond Act, as amended, and Sections 780 to 783, in-

clusive, of the Internal Revenue Code, as amended. Issued in series depending upon the tax years for which credits are available and in amounts certified to the Secretary of the Treasury by the Commissioner of Internal Revenue. Bear no interest and are redeemable at yearly intervals after the cessation of hostilities in the present war, as provided by Section 780 (e) of the Internal Revenue Code, as amended.

<sup>10</sup> Includes retirements on account of exchanges as of March 15, 1944, for 2½% Treasury Bonds of 1965-70, 2¼% Treasury Bonds of 1956-59, and 1½% Treasury Notes, Series A-1948.

**TAX EXEMPTIONS:**

f Exempt from the payment of all taxes or duties of the United States, as well as from all taxation in any form by or under State, municipal, or local authority. (The Supreme Court has held that this exemption does not extend to estate or inheritance taxes, imposed by Federal or State authority.)

g Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits

taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of bonds authorized by the act approved Sept. 24, 1917, as amended, the principal of which does not exceed in the aggregate \$5,000 owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above. The following is applicable to savings bonds only: For the purposes of determining taxes and tax exemptions the increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

h Income derived from these securities is subject to all Federal taxes now or hereafter imposed. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. The following is applicable to savings bonds only: For the purposes of taxation any increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

Attention is invited to Treasury Decision 4550 ruling that bonds, notes, bills, and certificates of indebtedness of the Federal Government or its agencies, and the interest thereon, are not exempt from the gift tax.

i Exempt, both as to principal and interest, from all taxation (except estate or inheritance taxes) now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.

j Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, or gift taxes, and (b) all income, excess profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations.

k Any income derived from Treasury bills of this issue, whether interest or gain from their sale or other disposition does not have any exemption, as such, and loss from the sale or other disposition of any such bills does not have any special treatment, as such, under Federal tax acts now or hereafter enacted. The bills are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. For purposes of taxation the amount of discount at which the bills are originally sold by the United States is to be considered to be interest.

l These issues being investments of various Government funds and payable only for the account of such funds have no present tax liability.

m In hands of foreign holders—Applicable only to securities issued prior to March 1, 1941: Bonds, notes, and certificates of indebtedness of the United States, shall, while beneficially owned by a nonresident alien individual, or a foreign corporation, partnership, or association, not engaged in business in the United States, be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.
