

(STP-04-009, February 2004, Other, Information Request)

February 17, 2004

ALL AGREEMENT STATES, MINNESOTA, PENNSYLVANIA

INFORMATION REQUEST (STP-04-009)

The Office of State and Tribal Programs is requesting Agreement State feedback regarding the applicability of using Sealed Source and Device (SS&D) registration sheets for generally licensed (GL) sources and devices. The SS&D registration process is used to register, and document the evaluation of radiation safety information, for specifically licensed sources and devices. This information request is in response to direction from the Management Review Board to gather information in response to concerns raised by some Agreement States for the need to establish a uniform practice for the use of registration sheets for both categories of sources and devices. Specifically, some Agreement States use registration sheets and the SS&D registration system for all sources and devices, while others use registration sheets for specifically licensed sources and devices and regard the use of registration sheets as optional for generally licensed sources and devices. Please respond to the contact person below with **comments by March 12, 2004.***

Josephine Piccone, Deputy Director
Office of State and Tribal Programs

* This information request has been approved by OMB 3150-0029, expiration 06/30/04. The estimated burden per response to comply with this voluntary collection is approximately 6 hours. Forward any comments regarding the burden estimate to the Information and Records Branch (T-6F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to the Paperwork Reduction Project (3150-0029), Office of Management and Budget, Washington, DC 20503. If a document does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information.
