Targets and Performance Summary / FY 20BY Target Description / Measure Descriptions / Validation and Verification

Combine the Target and Performance Summary, FY 20BY Target Description, Measure Description, Relevant Program Increase(s), and Validation and Verification information the specific measure into the same table, one table per measure (there should be white space between measures, for readability). Simplify measure descriptions to no more than three sentences. Limit this table to GPRA measures. Non-GPRA measures such as internal measures may be included in the initiative text later in the Exhibit 13 performance table, if these support the initiative. Regarding V&V, you should be able to copy in the relevant line of information for each measure from last year's section 9 table. Use the following table:

Performance tables in Exhibit 13 (The Increase / Decrease exhibit) should include the measure number and APP (Exhibit 3A) page number when described in Exhibit 13. Describe Non-GPRA measures in Exhibit 13 only. NOTE: NOAA presents this information in Exhibit 12A.

Actual data for FY 20[PY-3] to FY 20[PY-1] should match that in the FY 20[PY-1] PAR. If it does not, an explanation is mandatory. For the congressional submission, please use the FY 20PY actuals (as reported for the FY 20PY PAR).

FY 20BY Program Changes

It is okay to note that there is a relevant non-GPRA (internal) measure(s), however, do not describe it (them) in the APP section as if it were a GPRA measure. Move descriptions of non-GPRA (internal) measures to exhibit 13 as shown below.

List program changes in the order that they appear in the budget (exhibit 13). Replace the "GPRA outcome" column with the APP page number in the measure description. See
