EXECUTIVE SUMMARY

This Food Stamp Program (FSP) Quality Control (QC) Annual Report presents official quality control error rates and other statistical data derived from QC reviews for the United States, individual States, Guam, the Virgin Islands, and the District of Columbia for Fiscal Year (FY) 2003.

Each State agency conducts monthly QC reviews of a statistical sample of households participating in the FSP (active cases) and households for which participation was denied or terminated (negative cases). These reviews measure the validity of food stamp cases at a given time. The reported State dollar and case error rates are based on these reviews. The State reviews also provide information on the error cause and characteristics of the household.

Additionally, Federal reviews of each State's sample are conducted annually to validate each State agency's error rate. The official active error rates listed in this report are based upon the Federal validation reviews of the State agency samples.

In a program that provided more than \$21.4 billion in benefits in FY 2003 to needy Americans, more than half of whom are children and the elderly, efficient and effective program administration is essential.

Local agencies certify households for food stamp benefits and, along with the State agencies, are directly responsible for the operation of the FSP. While the Food and Nutrition Service (FNS) can assist States through a variety of methods, the States themselves must ultimately make the commitment to conduct accurate and efficient program operations. FNS remains committed to supporting the ongoing efforts of States to increase the accuracy of food stamp certification actions.

To help support these efforts, FNS has undertaken special initiatives designed to increase payment accuracy. Activities in FY 2003 included: 1) continued funding for State Exchange activity; 2) FNS regional payment accuracy conferences; 3) technical assistance to designated States; and 4) National and regional publications publicizing successful payment strategies implemented across the country.

As a result of these special initiatives and the efforts of individual State agencies, the national payment error rate has declined in FY 2003 for the fifth straight year.

In addition to efforts to increase the accuracy of food stamp certification actions, FNS is also continuing to make improvements to the FSP to ensure that it is responsive and effective in its support of those individuals and families who rely on its benefits. This includes making the FSP more visible and accessible to needy individuals and working families.

Further information on the FSP may be obtained by referencing the FSP regulations and handbooks, or the FNS website at <http://www.fns.usda.gov/fsp>. Specific information on the QC process is found in the FNS 310 Handbook, the Food Stamp Program Quality Control Review Handbook. Additional information may also be obtained by contacting the Quality Control Branch at 703-305-2474.

REPORT ORGANIZATION

This report is divided into four parts:

Part I presents official quality control (QC) error rates as well as reported dollar and case error rates. With the passage of the Hunger Prevention Act of 1988, the payment error rate became the sum of the overpayment and underpayment error rates. Therefore, in this report we use the term "combined payment error rate" to reference the sum of the overpayment and underpayment error rates.

Part II provides information on variances. A variance occurs in a case when information verified by the QC reviewer differs from information used at the time of the most recent certification action or when policy has been misapplied for individual elements of eligibility or the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

Only variances occurring in dollar error cases are included in this report. For all variance tables, other than Tables 19, 20, and 21 all variances cited in the case are included. For Tables 19, 20, and 21 only the first variance is coded. All error amounts are assigned to this variance.

Part III provides data on the distribution of monthly benefit dollars and overpayment error dollars for various household characteristics for each State and on a National basis. This information can be used to identify error prone household characteristics by comparing the percent of allotments to the percent of error dollars.

Part IV provides information on State sampling parameters of the active and negative universes. For active cases we have also included completion rates and standard errors for the reported and regressed payment error rates.

HIGHLIGHTS

Active cases. The following statistics compare the performance measures for active cases for FY 1999 through FY 2003:

	<u>FY 1999</u>	<u>FY 2000</u>	<u>FY 2001</u>	<u>FY 2002</u>	<u>FY 2003</u>
National-average official <u>overpayment</u> error rate a/ :	7.01%	6.51%	6.47%	6.16%	5.04%
National-average official <u>underpayment</u> error rate :	2.85%	2.40%	2.19%	2.10%	1.59%
National-average official <u>combined</u> error rate (standard error = approximately 0.18%) b/ :	9.86%	8.91%	8.66%	8.26%	6.63%
Number of States with an official <u>combined</u> error rate under 6% :	7	12	12	13	21
Number of States with an official <u>combined</u> error rate over 10% :	24	15	9	9	7

Negatives cases. The following compares the performance measures for reported negative cases for FY1999 through FY 2003

	<u>FY 1999</u>	<u>FY 2000</u>	<u>FY 2001</u>	<u>FY 2002</u>	<u>FY 2003</u>
National-average <u>negative</u> case error rate c/ :	2.61%	3.57%	5.47%	6.27%	5.46%

a/ National weighted average for active cases is calculated by weighting each State's error rate by their actual issuance.

b/ The official combined rate may not equal the sum of the underpayment and overpayment error rates due to rounding.

c/ Reported national weighted average is calculated by weighting each State's error rate by their actual caseload.

PART I:
QUALITY CONTROL DATA

Penalties and Bonuses

For Fiscal Year (FY) 2003, a new 2-year liability system is in place. Under this new system, a liability shall be established whenever, for 2 consecutive years, there is a 95 percent statistical probability that a State's payment error rate exceeds 105 percent of the national performance average. FY 2003 serves as the first year for this new system and, as such, no bills are being established for this fiscal year. Eleven states' error rates exceeded the liability level and are potentially liable in FY 2004 should their performance again exceed the liability level.

Poorly performing States are not held liable for all errors. Penalties are assessed for only that portion of their error rate that is above 6 percent. Furthermore, the method for calculating errors means that States are liable for only a portion of the value of errors. To calculate the liability, take the value of all allotments issued by the state agency in the fiscal year, times the difference between 6 percent and the State's payment error rate, times 10 percent.

Effective FY 2003, enhanced administrative funding has been replaced with a system of performance bonuses. This system of performance bonuses includes bonuses to be shared among: the seven States with the "Best Payment Error Rate," the three States that have the "Most Improved Payment Error Rate," the four States with the "Best Negative Error Rate" and two States with "The Most Improved Negative Error Rates." All of the above bonuses are based on the results of QC reviews. There are also bonuses for Timeliness of Application Processing" and "Participant Access Rate."

The following are the bonuses awarded for FY 2003 based upon the Food Stamp Program active and negative error rates.

For Best Payment Error Rate:

South Dakota	\$ 206,471	Mississippi	\$1,471,230
New Jersey	\$1,628,344	Wyoming	\$ 105,259
Texas	\$7,397,749	Hawaii	\$ 502,987
Arkansas	\$1,281,929		

For Most Improved Payment Error Rate:

California	\$6,819,955	New Hampshire	\$228,456	Illinois	\$4,357,620
------------	-------------	---------------	-----------	----------	-------------

For Best Negative Error Rate:

South Carolina	\$2,780,978	Nebraska	\$639,764
South Dakota	\$ 301,292	New Hampshire	\$333,373

Most Improved Negative Error Rate:

Colorado	\$1,356,033	District of Columbia	\$588,560
----------	-------------	----------------------	-----------

Official Combined State Payment Error Rates FY 2003

TABLE 1: SUMMARY OF U.S. QUALITY CONTROL FINDINGS FOR FY 02 AND FY 03

	FY 2002	FY 2003
<u>ACTIVE CASES:</u>		
Completed Sample Reviews - State	49,822	50,190
Completed Sample Reviews - Federal	19,449	19,590
Average Monthly Caseload	7,837,576	8,809,908
Estimated Monthly Allotments	\$1,408,324,337	\$1,666,008,001
Average Allotment Per Case	\$180	\$189
<u>REPORTED CASE ERROR RATES a/</u>		
Underpayment	4.32%	3.66%
Overpayment b/	9.99%	8.16%
Combined	14.32%	11.81%
<u>OFFICIAL ERROR RATES c/</u>		
Underpayment	2.10%	1.59%
Overpayment b/	6.15%	5.04%
Combined	8.26%	6.63%
<u>NEGATIVE CASES:</u>		
Average Monthly Caseload	505,250	544,433
Completed Case Reviews	33,502	33,095
Validated Negative Error Rate d/	7.87%	7.64%

a/ U.S. case error rates are weighted by State caseloads.

b/ Overpayments include both overpayments to eligible and payments to ineligible.

c/ U.S. official error rates are weighted by State actual issuance data.

d/ Previous annual reports (FY 1999 and prior) have reflected reported negative error rates in this summary.

*Received a bonus for best negative error rate or most improved negative error rate.

PART II:
VARIANCES

VARIANCES

Variations occur when information verified by the QC reviewer differs from information used at the time of the most recent certification action or when policy has been misapplied for individual elements of eligibility or the basis of issuance is incorrect. Not all variations result in a case being cited for a dollar error.

Only variations occurring in dollar error cases are included in this report. For all variance tables, other than Tables 19, 20, and 21, all variations cited in the case are included. For Tables 19, 20, and 21 only the first variance is coded. All error amounts are assigned to this variance.

The following explanations are provided to clarify the program factors referred to in Tables 11 through 13.

NON-FINANCIAL ELIGIBILITY

Refers to non-financial factors considered in determining a household's eligibility. These include Age & Student Status, Citizenship & Non-Citizenship, Residency, Household Composition, Work Requirements, and Social Security Number.

RESOURCES

Refers to a household's liquid or non-liquid assets. These include Bank Accounts or Cash on Hand, Nonrecurring Lump Sum Payments, Personal Property, Real Property, and Vehicles, etc.

INCOME

Refers to a household's Earned (Wages & Salaries, Self-employment, etc.) or Unearned Income (Veterans Benefits, Unemployment Compensation, Worker's Compensation, and Other Government Programs (PA, RSDI, SSI, etc.))

DEDUCTIONS

Refers to the allowed deductions from a household's gross income. These include the Earned Income, Dependent Care, Standard Shelter, Medical and Child Support Payment deductions.

OTHER

Refers to variations occurring in areas such as Arithmetic Computation, Monthly Reporting, FS Simplification Project, and Demonstration Projects.

For additional information, please refer to The Food Stamp Program Quality Control Review Handbook - 310.

a/ Completion rates for stratified States are weighted with stratum caseloads.

b/ The U.S. completion rate is weighted by State average monthly caseload.

a/ The listed standard errors can be used in conjunction with the FY- 03 error rates to calculate confidence intervals for the combined payment error rate. The 95% lower confidence limit is 1.96 standard errors less than the corresponding value, the upper 95% confidence limit is 1.96 standard errors greater than the value.
