What if your client information was stolen...personnel records are breached...bank accounts are accessed by a cybercriminal...you could be sued. Can you afford that?

Protect your business...attend this free workshop presented by the National Institute of Standards and Technology sponsored by the FBI, SCORE, SBDC, SBA and InfraGard to learn:

1. How to define information security (IS) for your organization
2. Creating a security policy that supports your organization’s mission
3. Get an overview of current technologies used in reducing IS vulnerabilities
4. Major steps to implementing current IS Practices
5. Free resources available to protect your business

Presented by Richard Kissel of NIST

- Senior Information Analyst at NIST, Washington DC
- Nationally recognized expert in computer security for over 20 years.
