- E** U.S. Government Agency Use Only - this may substitute for your purchase order. For FSA orders, your signature is required.
- F** Available color options for template border and text box areas.

**\* HOW TO ORDER CUSTOM DIGITAL PRINTS**

Fill out items 14 through 18 on the FSA-441B, Custom Digital Print form. Furnish one or more of the following forms of information and we will make a print selection for you:

- Latitude and Longitude coordinates (point and radius or four corner points.)
- Legal description of your area of interest in township, range, and section number.
- A topographic, county, or city map outlining your area of interest as accurately as possible.
- Electronic shapefiles in NAD83 projection.

Products are made after an order and payment is received. You may order over the telephone using a major credit card if you have a complete description of your area of interest using any form of information listed above. We may require you to send us a written request.

**\* APFO CUSTOM DIGITAL PRODUCTS AND SERVICES**

Depending on the original film scale or digital resolution, custom print scales will vary depending on coverage area, paper size, and printer limitations. Custom digital prints are defined as a single image requiring geospatial layer(s) or a mosaic of multiple images that may or may not require geospatial layer(s). Digital film scans are available in TIF format and may require geospatial services to provide a custom digital print of historical imagery. APFO utilizes Quarter Quad (QQ) and Compressed County Mosaic (CCM) products from the National Agriculture Imagery Program (NAIP). For special needs not covered elsewhere on this form, contact us directly. Additional fees may apply.

**\* OTHER IMAGERY**

Imagery secured for the Forest Service (FS) and National Resource Conservation Service (NRCS) can be purchased from us by the same procedures outlined for FSA photography. The negative scales vary from 1:6,000 to 1:80,000, depending on the project area. Most FS photography has been flown in natural color, some in black and white and color infrared. Most NRCS photography has been flown in black and white, some in natural color and color infrared.

**NOTE:** The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a - as amended). The authority for requesting the information identified on this form is the Agricultural Adjustment Act of 1938 (7 U.S.C. 1387). The information will be used to process an order for aerial photography. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in an inability on the part of the Aerial Photography Field Office to process the order for aerial photography.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0560-0176. The time required to complete this information collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **RETURN THIS COMPLETED FORM TO THE USDA FSA AERIAL PHOTOGRAPHY FIELD OFFICE AT THE ADDRESS LISTED ON PAGE 1.**
