Material handling equipment

## Bonus Material

The MRAP Safety Awareness Site contains hazard and risk mitigation information and tools you can use to supplement operator and crew training programs:

<https://safety.army.mil/mrap>

Some other specialized course offerings in the toolbox include:

- Rough terrain driver's training
- Common battle drills for rollovers
- Combat Vehicle Operator's Training (Afghanistan)

You'll also find links to the:

- TACOM-Unique Logistics Support Applications (TULSA)
- Library of TACOM Training Information Site (LOTTIS)
- Accident Avoidance Course

So, whether you're a Soldier who wants to sharpen your driving skills, or a leader who needs materials to develop SOPs or driver's training materials, the USACRC toolbox makes achieving these goals a lot easier. You'll find it at:

<https://safety.army.mil/drivertrainingtoolbox>
